$72,260-Minimum salary for full-time employees with less than 2 years of City Service

$83,099-Minimum salary for full-time employees with more than 2 years of City Service

BUREAU/DIVISION/UNIT
Technology Development & Systems/CAD Programming & Operations

LOCATION
9 MetroTech Center, Brooklyn, New York

JOB DESCRIPTION
The FDCAD Requirements Analyst will report to the Director of Computer Aided Dispatch and will manage the translation of departmental requirements into active features of the dispatch system; use independent judgment and critical thinking; coordinate with stakeholders, vendors and oversight agencies; manage the definition and collection of requirements for the systems that support the dispatch functions and interfaces the link to the dispatch system; represent the department interfacing with requirements teams from other agencies and/or vendors.

QUALIFICATION REQUIREMENTS:
1. A baccalaureate degree from an accredited college, including or supplemented by 24 semester credits in computer science or a related computer field and two years of satisfactory full-time computer software experience in computer systems development and analysis, applications programming, database administration, systems programming, data communications, including one year in a project leader capacity or as a major contributor on a complex project; or
2. A four-year high school diploma or its educational equivalent and six years of satisfactory full-time computer software experience as described in “1” above, including one year in a project leader capacity or as a major contributor on a complex project; or
3. Education and/or experience equivalent to "1" or "2" above. College education may be substituted for up to two years of the required experience in "2" above on the basis that 60 semester credits from an accredited college is equated to one year of experience. A master's degree in computer science or a related computer field may be substituted for one year of the required experience in "1" or "2" above. However, all candidates must have at least a four-year high school diploma or its educational equivalent and at least one year of satisfactory full-time experience in a project leader capacity or as a major contributor on a complex project.

PREFERRED SKILLS:
Experience participating in systems development using the Software Development Life Cycle methodology and processes.
Development experience with test plans based on existing functional requirements.
Performed user acceptance testing, system integration testing, or factory acceptance testing.
Previous experience implementing a real-time computer system of moderate to high complexity Microsoft Excel, Visio, Word, Project, Power Point
