

**FDNY KEY GOALS AND OBJECTIVES 2004-2005**

For each of the six key goal areas, the Strategic Plan maps out the specific objectives for achieving that goal. This section describes why each objective is of the highest priority and what the FDNY will accomplish during the next two years. It is anticipated that the majority of the primary objectives described in detail can be accomplished in 2004-2005.

Under each objective, the “Background” section describes the context and critical need the objective seeks to address. The “Accomplishments” section describes the work already completed to meet the objective. The “Next Steps and Time Frames” section describes the specific work required during the next two years to complete each objective. The “Lead Bureau” section identifies the Department bureau designated to take responsibility for each objective related to the six major goals.
