In March 2004, the Department released a Strategic Plan for 2004-2005, the first of its kind ever to be published by the Department. The Strategic Plan was built upon the recommendations in the McKinsey Report and serves as the Department’s roadmap – providing us with a critical tool to guide our objectives and measure our progress.

Today, we are pleased to present to the FDNY Field Units and Bureaus the “First Year Scorecard.” The scorecard charts the current status of 35 objectives, representing 100 different projects Department-wide. As the report indicates, there has been substantial progress made on a majority of these projects and with your help, the Department will continue to move forward toward completion of all of the Plan’s objectives.

Some of the accomplishments highlighted in the report card include:

- Expansion of the Incident Command System (ICS) training to include all Fire/EMS Chiefs, Captains, Lieutenants, Firefighters, Paramedics and EMTs
- Finalized operational plans, trained and placed 25 SOC Support Ladder Companies and three HazTech Engine Companies into service
- Increased Haz-Tac ambulance capabilities by 12 Units for a total of 22 Units in-service
- Purchased and placed into service two new 27 foot Boston Whaler fireboats
- The purchase and integration of new driving simulators into chauffeur training and the EVOC course at the Fire Academy and EMS Academy
- Designed and purchased two Mobile Command Center Vehicles
- Finalized agreements with New York State and Nassau County to provide fire service mutual aid
- Finalized agreements with the State of New Jersey and the NYC Regional EMS Council for medical service mutual aid

These are just a few of the many accomplishments highlighted in this report, and the Strategic Plan itself reflects only a portion of the Department’s overall activities. Outlining our goals and objectives in this manner ensures that the Department remains prepared to meet all of the challenges facing our City, now and in the years to come.

To view or download the Strategic Plan First Year Report Card in full, please visit www.nyc.gov/fdny.
This mid-plan report presents the current status of all initiatives identified in the FDNY Strategic Plan 2004-2005. We are pleased to report that substantial progress has been made on the vast majority of initiatives. As you know, the Strategic Plan contains six goals: emergency response operations; health and safety; management and organizational development; diversity; fire prevention and safety education; and technology. Within these key goals there are 20 Primary Objectives and 15 Secondary Objectives, which represent a total of 100 projects department-wide.

Attached is a “First Year Scorecard” which provides a list highlighting key accomplishments, summarizes the status and accomplishments for all projects and includes a check-list “report card” for initiatives tracked monthly on behalf of the Planning Oversight Committee (POC).

We look forward to ensuring continued progress toward the completion of all existing Strategic Plan objectives and to formulating the next Strategic Plan for 2006-2007 later this year.

Status of Primary Objective projects:
- 43% of the projects have been completed
- 29% of the projects are 50-99% complete
- 28% of the projects are <50% complete

Status of Secondary Objective projects:
- 22% of the projects have been completed
- 47% of the projects are 50-99% complete
- 31% of the projects are <50% complete.
**OPERATIONS**

**Special Operations Command**
- Finalized operational plans and placed 25 SOC Support Ladders and three HazTech Engine Companies into service
- Increased Haz-Tac Ambulance capabilities by 12 Units for a total of 22 Units in-service
- Purchased and placed into service two new 27 foot Boston Whaler fireboats at Marine 1 and 9 to cover Staten Island and Manhattan
- Hired a marine engineering firm to develop specifications to purchase a new state-of-the-art 130 foot fireboat

**Emergency Operations/Technology/Communications and Preparedness**
- Expanded ICS Training for all Fire/EMS Chiefs, Captains, Lieutenants, Firefighters, Paramedics and EMTs
- Automated the FDNY member Recall process with enhanced capabilities to target a specific unit, battalion, division, and rank
- Implemented an additional communications channel between on-scene CFR-D Engine companies and EMS Command
- Implemented a second EMS Citywide channel to enhance overall response to Multiple Casualty Incidents (MCI)
- Designed and purchased two (2) state-of-the-art Mobile Command Vehicles (MCVs)
- Finalized All Hazards Emergency Response Plans, including: Biological, Chemical-Subway, and Hazardous Materials Plans
- Developed a risk assessment internal web-site for the first 65 designated priority locations
- Enhanced current information/intelligence network capabilities within the Bureau of Fire Investigation
- Established a Center for Terrorism and Disaster Preparedness at Fort Totten

**Mutual Aid Partners**
- Finalized agreements with New York State and Nassau County to provide fire-service mutual aid
- Finalized agreements with NYC REMSCO (Regional Emergency Medical Services Council) for medical-service mutual aid within the City
- Finalized an agreement with the State of New Jersey for medical-service mutual aid and a Statewide EMS Mobilization Plan with NYS Department of Health (SDOH)

**HEALTH AND SAFETY**

**Safety**
- Provided all Safety Battalion staff additional training in evaluation and investigative practices and trained 32 Battalion Chiefs and 15 Firefighters as Accident Investigators
- Fire apparatus accident reduction program was successfully piloted in designated battalion units and expanded citywide
- Developed and implemented a new procedure for investigating firefighter fatalities and/or serious injuries
- Developed an Annual Risk Management Plan

**Training**
- Purchased and integrated driving simulators into chauffeur training program at the Fire Academy and EVOC training (Emergency Vehicle Operator Course) at the EMS Academy
- Established a chauffeur training refresher course
- Reinstated field-training officers for Fire companies

**ADMINISTRATION**

**Organizational Development**
- 39 Fire and EMS Officers completed the FDNY Officers Management Institute (FOMI) Course in collaboration with Columbia University and General Electric
- 61 Fire and EMS Officers completed the United States Military Academy (USMA) Terrorism Preparedness Course

**Diversity**
- Partnered with Columbia University and developed a comprehensive written plan to enhance member diversity
- Developed mentoring programs to enlist and retain female and minority candidates and collaborated with the United Women Firefighters, FDNY Fraternal organizations, private, and non-profit organizations

**FIRE PREVENTION AND SAFETY EDUCATION**

**Public Safety**
- The Mayor and City Council approved legislation to grant the Fire Commissioner the legal authority to require emergency action plans for commercial high-rise buildings
- Finalized proposed rule containing new emergency action plan requirements for commercial high-rise buildings
- Assessed fire fatalities and injuries in high fire-risk neighborhoods, established a pilot program in each borough and expanded the Fire Zone on the Road fire-safety educational program
