## The City strongly encourages the use of "Data Quality Checker"

Select timeframe year ending Dec 2013 & Run Checker. Ideally it will yield a 'thumbs up!'

Select Timeframe & Run Checker

Each data check is based on 12 months of property use and bills (meter consumption) information. To run the checker, select the month and year and click the button to run (or re-run) the checker.

Year Ending: * [Dec ▼] [2013 ▼]   **Re-Run Checker**

Alerts for Year Ending on 12/31/2013

Alerts for Year Ending on 12/31/2013

Based on the information you have provided for your property, the following data quality alerts were found. Please review, make corrections or provide explanations for each alert. You may save this check, along with your explanations.

⚠️ One or More Meters has less than 12 Full Calendar Months of Bills

Unfortunately we cannot check the quality of your data for the time period you selected because one or more of your meters does not have bills entered for the entire 12 month period. Please add additional bills to the meter(s) listed below in order to check your data quality or choose another time period.

Meter 2 - Gas meter
Meter 1 - Electricity

Save Check for this Period   Cancel

If not, it will return all Alerts for your Energy and Water entries so you can then make exact corrections
