Coney Island Hospital is a participating provider in many health plan networks. You can find a list of the plans in which we participate [here](#). The information on Coney Island Hospital's participating plans is current as of the date on the list. You should contact your health plan directly to confirm that you are covered for the services that you will be receiving and that Coney Island Hospital is in network for your particular health plan. It is important to check whether we participate in the specific insurance product under which you are covered. The contact number for your health plan is listed on your insurance card.

It is also important for you to know that the physician services you receive in the hospital may not be included in the hospital's charges. Physicians who provide services at the hospital may be independent voluntary physicians or they may be employed by a physician group. Coney Island Hospital does contract with a physician group, listed below, to provide services at the hospital. The physician group can provide information on the participating plans for your physician, as well as any other physicians who will be required for your care, such as anesthesiologists, radiologists and pathologists. You should contact the group directly to find out about their participating health plans.
