A DANCE FOR OUR SENIORS: HONORING DR. MURIEL PETIONI

On Friday, February 26, 2010, the Friends of Harlem Hospital Center in conjunction with the Alvin Ailey Dance Foundation honored one of Harlem Hospital Center's trailblazers, Dr. Muriel Petioni, for her outstanding contributions to the Hospital and the Harlem Community.

Despite the snow storm, community members and staff filled the Herbert G. Cave Auditorium to witness the elegant performances by the Ailey/Fordham Dance students. The dancers' movements were natural, and flowed gracefully, giving life to the music that played softly in the background. Senior attendees had the opportunity to sign up for free dance workshops led by Ailey teaching artists and the newly introduced Harlem Hospital Center's *Walk It Out!*

- a physical fitness program with walking, Tai Chi and Qigong.

MORE WOMEN'S HISTORY....

The theme for Women's History Month 2010, "Writing Women Back into History," recognizes all aspects of women's achievements.

This year, the National Women's History Project (NWHHP) celebrates its 30th anniversary. When NWHHP was founded in 1980, less than 3% of the content in United States history textbooks mentioned the contributions of women. Today, when you search the Internet with the words "women's history," you'll find more than 40,500,000 citations, depending on the search engine used. These extraordinary numbers give testimony to the tireless work of thousands of individuals, organizations, and institutions writing women back into history.

This year, take a journey through our past and recognize the contributions made by women in the history of the United States. Take this opportunity to draw information and inspiration from women's accomplishments throughout our nation's history.
