

BE A PART OF OUR LIFESAVING TEAM - DONATE BLOOD!

“**W**hen my son was an infant, he needed a series of surgeries that required blood transfusions.

I didn't think twice about donating for him, and to this day, I donate whenever I can.

I never know who benefits from my blood donations. I only know that I'm giving someone the same gift I gave my son—the gift of life.”

*-John Petriello, Assistant Director of Engineering & Maintenance, North Central Bronx Hospital, with his son, John Francis.*
