July 9, 2014

Dear Colleague & Friend of Nursing:

On behalf of the Department of Nursing at Kings County Hospital Center, HHC Corporate Nursing and The Fund for HHC, I would like to invite you to a screening of **“The American Nurse: Healing America”** on **Tuesday, July 15, 2014** at 11:30 am and again at **6:00 pm** in the T-Building Auditorium at Kings County Hospital Center (451 Clarkson Avenue, corner of New York Avenue).

“The American Nurse” is a recently released documentary film which follows the lives of five nurses across America, helping people and saving lives from all walks of life. It explores some of the biggest issues in our country (aging, war, poverty, prisons) through the unique work and personal stories of these five nurses. This presentation, which has received rave reviews, aims to inspire audiences to think about nurses in a way they may never have thought before, exposing a new appreciation for the American nurse, an indispensable figure on the front lines of health and healthcare today.

The Nursing Department at Kings County Hospital has had a long, proud tradition since the hospital’s founding in 1831. We sincerely hope that you will be able to join us for this exciting screening opportunity, celebrating women and men who do the important work of nursing. See the enclosed flyer for more details and feel free to share with others.

Thank you for your consideration of this invitation. Please do not hesitate to contact my office at 718-245-3986 with any questions or concerns.

Sincerely,

Opal Sinclair-Chung, RN
Chief Nursing Officer

THE AMERICAN NURSE

HEALING AMERICA

HHC Corporate Nursing and The Fund for HHC cordially invite you to a screening of **The American Nurse Project Documentary.**

The American Nurse Project aims to elevate the voice of nurses in this country by capturing their personal stories through photography and film. In early 2012, photographer Carolyn Jones and her team began a journey across the United States, recording the unique experiences of nurses at work. The photographs and narratives aim to inspire audiences to think about nurses in a way that they may never have before, with a newfound appreciation for this indispensable figure on the front lines of health and healthcare today: the American nurse.

Screening at Kings County Hospital Center:
July 15 at 11:30 am and 6:00 pm in the
T-Building Auditorium.
