

# Metropolitan Hospital Center Learn With Us

## World AIDS Day Lecture

**Theodore H. Lenox, MD, FAAP** will provide an update on HIV; its prevalence, diagnosis, evaluation and treatment. Dr. Lenox will discuss the history of HIV/AIDS, prevention, current treatment, future concerns as well as available resources and support.

Dr. Lenox is Chief of Infectious Disease at Metropolitan Hospital Center and Assistant Professor, Internal Medicine at New York Medical College.

**Monday, December 1, 2014  
12 noon — 1 PM**

Metropolitan Hospital Center  
6th Floor Auditorium

*Free event. All are welcome.*

*Metropolitan Hospital Center hosts informational sessions on important health topics impacting our community. Participants have the opportunity to meet doctors and clinical experts from various areas.*
