

Metropolitan Hospital Center Learn With Us

Bone Health and Orthopedics

Tyler Lucas M.D. will discuss how to keep our bones healthy and strong. He will talk about common orthopedics and sports injuries. Learn about causes, triggers, management along with recent advances.

Dr. Lucas is Chief of the Division of Orthopedic Surgery at Metropolitan Hospital. He is an expert in sports medicine, primary care orthopedics and knee and hip replacements. Dr. Lucas is board certified by the American Board of Orthopedic Surgery in Orthopedic Surgery and Sports Medicine.

Metropolitan Hospital Center hosts monthly informational sessions on important health topics impacting our community. Participants have the opportunity to meet doctors and clinical experts from various areas.
