

Metropolitan Hospital Center Learn With Us

Let's Talk About Men's Health What All Men Should Know

Gerald Matthews, MD, will provide an overview of health issues for men of all ages. Dr. Matthews will discuss general health tips, prostate health, exercise, reproductive health, the role of testosterone, and the importance of regular checkups. Learn about preventive care, common urological procedures, and new developments in the field of men's health.

Dr. Matthews is Chief of Urology at Metropolitan Hospital Center, and Assistant Professor of Urology at New York Medical College.

Let's Talk About Men's Health

**Thursday, June 27, 2013
12 noon — 1 PM**

Metropolitan Hospital Center
Conference Room 1B36

Light lunch will be served.
