

# THE SPEAKERS BUREAU

A LONG TRADITION OF SHARING  
MEDICAL EXPERTISE WITH THE PUBLIC.

Dear Friend,

I write to introduce you to our Speakers Bureau.

**We are proud of our long tradition of sharing medical expertise with the public. Our Speakers Bureau features knowledgeable healthcare professionals who are recognized experts in their respective fields.**

The Bureau includes physicians, nurses, social workers, psychologists, therapists, nutritionists, administrators, and others.

**Empower the members of your organization by helping them stay informed about the healthcare issues which have the greatest impact on their lives.** The Speakers Bureau can arrange a lively and informative presentation which your members are sure to find interesting, relevant and valuable.

We provide our service free of charge to local service clubs, professional organizations, church groups, schools, parent organizations, local libraries, community centers and others.

I have included a list of some of the more popular subjects. However, feel free to request a topic you might not see listed.

Please call me at **(718) 918-4055** so we can schedule a presentation for your next meeting.

Sincerely,

A handwritten signature in black ink, appearing to read 'Barbara DeIorio'.

Barbara DeIorio  
Public Relations Director
