

# A MESSAGE FROM THE CHIEF OPERATING OFFICER

**W**elcome to North Central Bronx Hospital, a pillar of the Norwood community. We represent the best that a community hospital has to offer: safe, quality healthcare delivered by caring and friendly staff in your very own neighborhood.

Our programs and services are designed for the specific medical and healthcare needs of our community. Many members of our team live in the community, and are known to the patients they serve.

NCBH continues to uphold its sterling reputation as a premier provider of primary care, women's healthcare, children's health services, asthma services, geriatric medicine, behavioral health services and more.

Thank you for taking the time to explore our hospital's website. I hope that the information is helpful to you and if you would like additional information, please use our 'Contact NCBH' form. Our staff will get back to you promptly.

Sincerely,

*Anthony Rajkumar*  
*Chief Operating Officer*
