

Procurement Summary

Basic Information

Procurement Title: Nurse-Family Partnership

Agency: DOHMH

Agency Email Contact: RFP@health.nyc.gov, indicate "NFP" in subject line

Procurement Description:

The Nurse-Family Partnership (NFP) program is an evidence-based home visiting program to improve the health and life course of low-income first time mothers, their children and their families. The goals of the NFP program are to 1) improve pregnancy outcomes by helping women practice sound health-related behaviors, 2) improve child health and development by helping parents provide more responsible and competent care for their children, and 3) improve families' economic self-sufficiency by helping parents develop their own future, plan future pregnancies, continue their education and find jobs.

Through this procurement, DOHMH is seeking Providers to implement the NFP model when delivering nurse home visiting and maternal and child healthcare services in the Bronx, Queens, Brooklyn and Staten Island. Providers would enroll first time mothers in the program and using the NFP program guidelines, monitor the various stages of pregnancy and early childhood through frequent home visits, to help improve the quality of care and personal health for both the mother and child.

Nurse Home Visitors and Team Supervisors must have a BS or BA in Nursing from an accredited college or university program and relevant experience providing maternal and child health services. If selected for award, providers must complete training Temporary Assistance for Needy Families (TANF) certification and recertification of active clients. (Training for TANF certification will be offered when Provider is chosen).

In addition to the above-listed preferred qualifications, all Providers must meet the following minimum qualification in order to propose:

- Providers must have an Article 36 License as a Licensed Home Care Services Agency (LHCSA) or a Certified Home Health Agency (CHHA).
