HURRICANE EVACUATION ZONES**

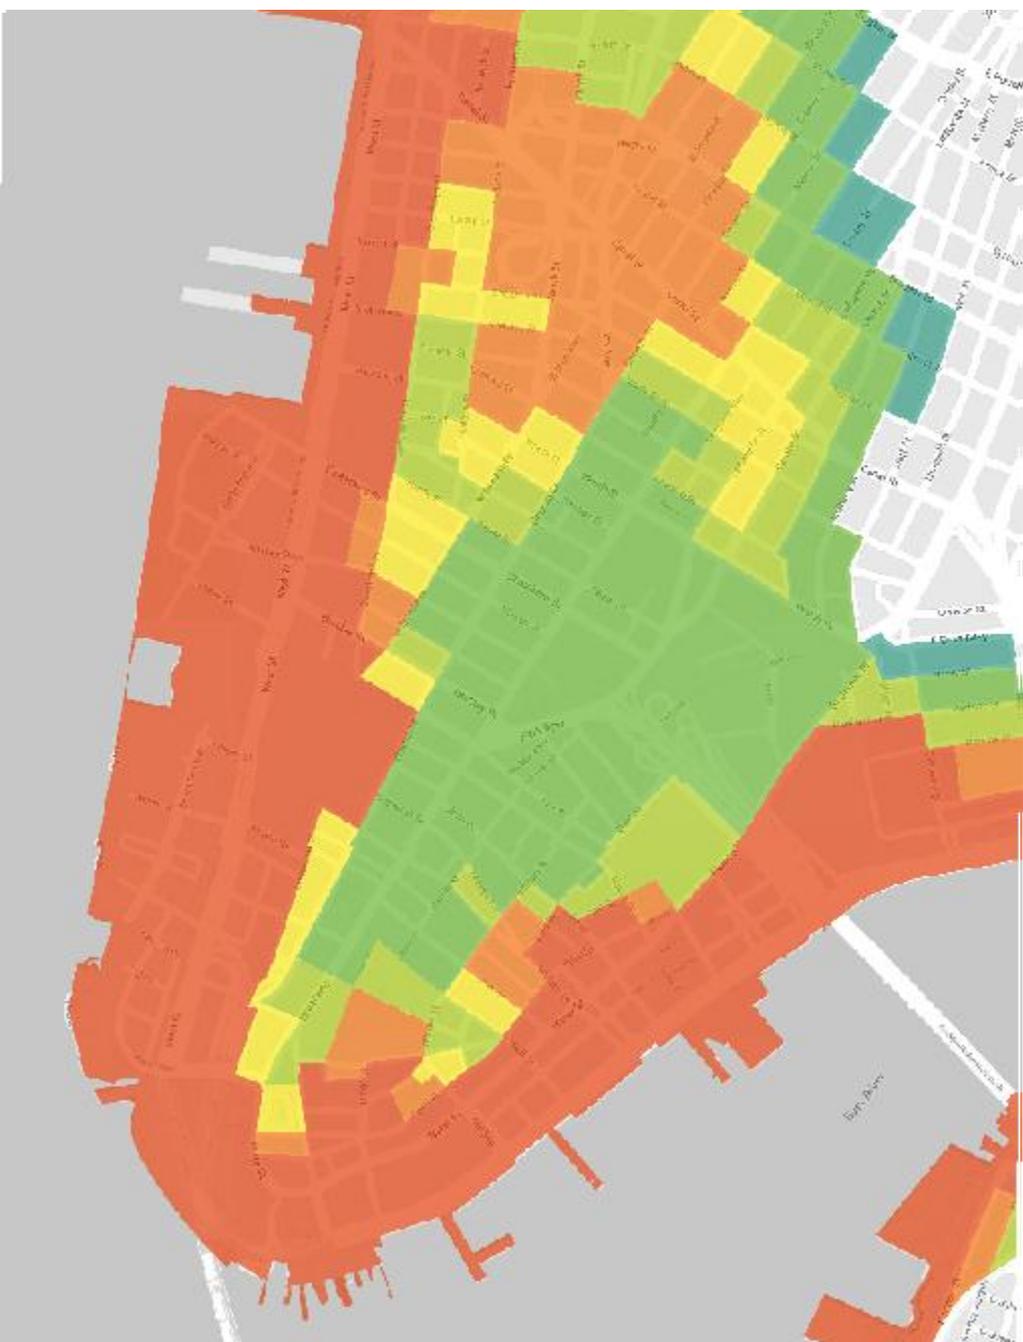

When a coastal storm is approaching, the City may order the evacuation of neighborhoods in danger of flooding from storm surge, starting with Zone 1 and adding more zones as needed depending on the severity of the forecast. Zones will be evacuated depending on life safety-related threats from a hurricane’s forecasted strength, track, and storm surge.

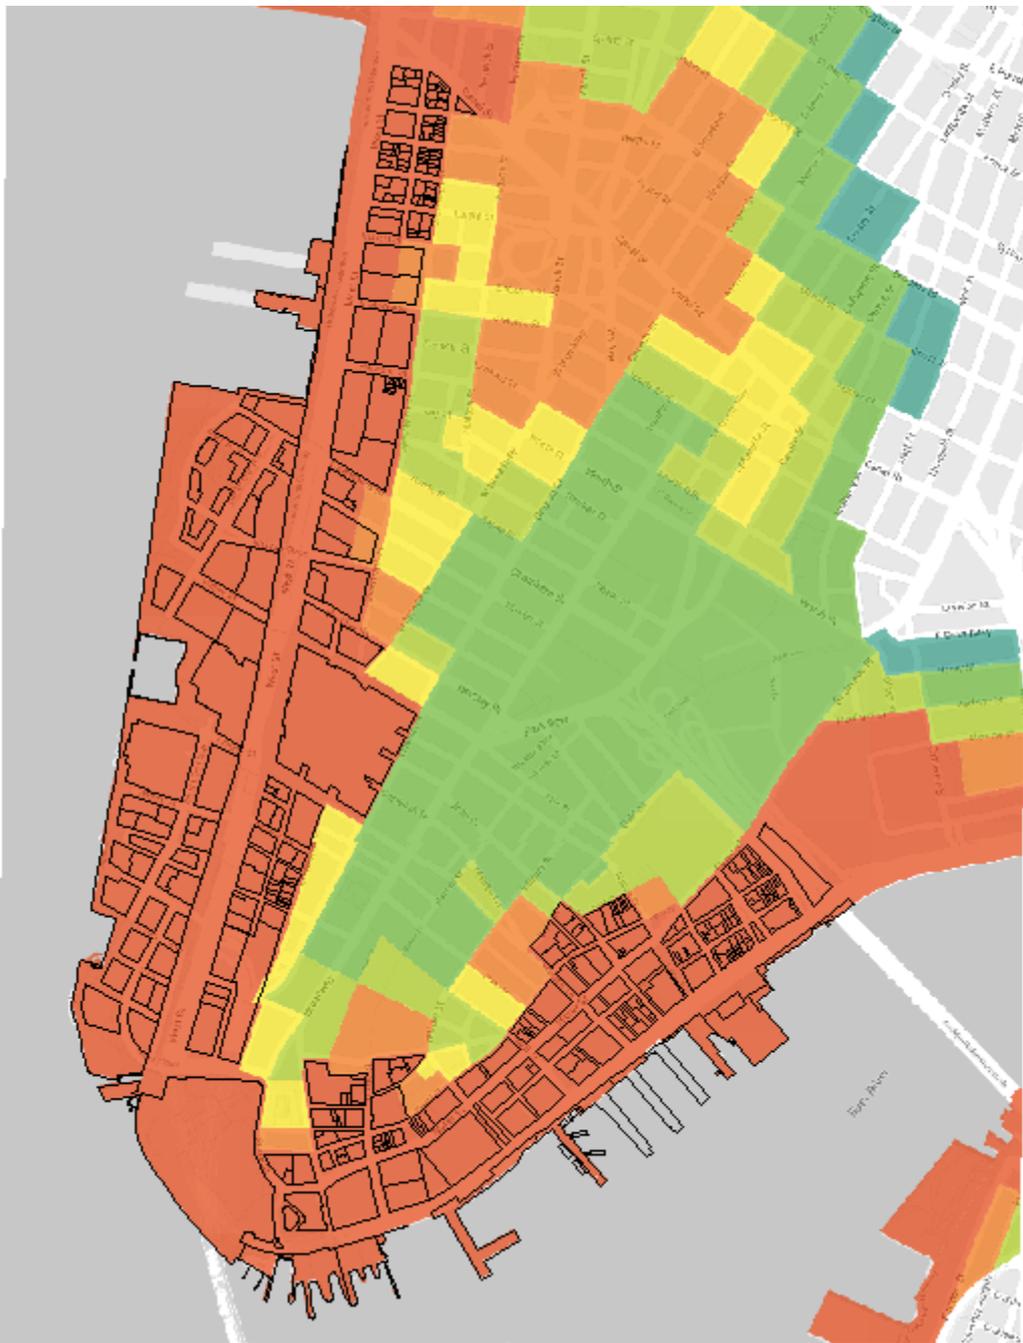

NYC Hurricane Evacuation

Data was gathered from the NYC Department of City Planning to determine how much of Community District 1's total lot area is in each of the new evacuation zones.

All of Community District 1's lot area is in evacuation zones 1-5.
