The Comptroller's Red Tape Commission is dedicated to helping you succeed in business by finding ways to help you cut through the red tape.

We are small business leaders, regulatory experts and advocates from around the City, and we want to hear from you.

Come share your stories – your experiences and ideas will help inform solutions that will make government a partner in entrepreneurship, rather than an obstacle to growth.

We want to hear from business owners in every industry:

- Local & Artisanal Manufacturing
- Tech
- Not-for-Profit
- Retail
- Hospitality
- Professional & Consumer Services

...and so many more. We look forward to seeing you there.
