---

**Welcome, Opening Remarks and the Agenda.** Richard Lewis, Public Safety Committee Chair, called the meeting to order at 7:15 pm. The meeting was recorded to a digital audio file on an OLYMPUS® handheld device. Board members introduced themselves as did members of city agencies and the public. A quorum was established for the meeting. Topics for the evening's agenda were outlined. Four new areas are added to our meetings: Construction Safety, TrafficSTAT, Summons and Arrest Reports

**Moment of Silence for Line of Duty Deaths.**

Chair requested a moment of silence for recent line of duty deaths (LODD) for our uniform service officers - with special reference to veteran fire fighter **Michael Davidson**, 37 who died fighting a major fire at the shuttered St. Nicholas Pub in Community Board 9, Manhattan.

**Source Documents Released at the Meeting.**

The following source documents were distributed or made available at the meeting. The chair reviewed the salient points of each document.

#### Discussion from the FDNY – Battalion Chief Davis Donovan (13<sup>th</sup> Battalion).

The issue of line of duty death can become a serious problem if not investigated. The goal is to identify specific problems so that solutions that will reduce firefighter fatalities in the future can be found. This may be related to equipment, communication, health and training issues. The chief is assigned as the safety officer in each incident. Most LODD deaths are related to active fire related work, active duty in the military, cancer or heart/lung diseases. Currently, there are sufficient assets or equipment in use to fight fires or smoke.

In the 28 period reported there have been some 43 fires: 3 related to clothes dryers; 7 associated with rubbish; 3 multiples alarms (Outside the district where Battalion 13 responded to them) and 30 “food on the stove” fires. They also responded to 44 potential gas leaks and in one situation at Cooper Street (603 West 207<sup>th</sup> Street) there were high Carbon Monoxide (CO) concentrations in a building ventilation system that had to be isolated and cured. Finally, there is no activity with fires in the district with vacant lots or sheds.

#### Discussion from the 33<sup>rd</sup> Precinct – Lt. Freddy Chalen on Community Outreach and COMPStat.

The following crime statistics from the seven major crimes reported in the NYPD's weekly COMPStat List were presented. See charts below or follow this information at <https://compstat.nypdonline.org> The following crime statistics from the seven major crimes reported in the NYPD's weekly COMPStat List were presented. See charts below or follow this information at <https://compstat.nypdonline.org>

For the 28 day period prior to our meeting: **Total incidents** are slightly down 46 to 47 compared to the same period last year. This can be attributed to an increase in grand larceny (some 33%). Year to Date (2018 vs 2017) total crime is slightly up 172 to 165. Again this is attributed to grand larceny (81 to 62).

**Total arrests** are down YTD: 788 vs 951 and for the 28 Day period (217 vs 282). The high numbers are related to VTL 511 arrests [Vehicle and Traffic Law section 511 is a New York criminal offense for operating a vehicle while license or privilege is suspended or revoked; aggravated unlicensed operation]. – 147 vs 133 YTD; **Patrol Services Bureau (P.S.B.) arrest** 540 vs 639 and the **Detective Bureau** 166 vs 91.

Looking at **TrafficStat** the numbers of collisions are up: 28 Day 129 vs 110 and YTD 414 vs 402. The number of bicycle collisions are up; 28 Day 4 vs 1 and YTD 8 vs 1. This may not necessarily involve direct collisions with motor vehicle. T

here are no fatalities this year compared to 2 last year. Parking summons: 28 Day 551 vs 1,370 and YTD 1,816 vs 4,487. Bicycle Lane Summons: 28 Day 1 vs 22 and YTD 8 vs 63.

See <https://www1.nyc.gov/site/nypd/stats/traffic-data/traffic-data-archive-2018.page>

Accident types/contributing factors: side swipes, passing too closing, following too closely, unsafe lane changes and failure to yield to pedestrian. See Traffic Collision Maps on Appendix A.

On March 12<sup>th</sup> there was a slashing at a party in one of the three halls of Church on the Hill used for rentals. Party goers got into an altercation while getting food. The precinct is working with Pastor Rafel Zeforrest to solve this case and any remaining issues from resurfacing or occurring in the future. The pastor claims that the tenant who handles rentals is in violation of their lease and may not have an On Premise Liquor License.

### Discussion from the 34<sup>th</sup> Precinct – Lt. Carlos Peralta on Community Outreach and COMPStat.

The following crime statistics from the seven major crimes reported in the NYPD's weekly COMPStat List were presented. See charts below or follow this information at <https://compstat.nypdonline.org> For the 28 day period prior to our meeting: Total incidents are down for the 28 day period comparing 2018 to 2017 (94 vs 111), but felony assaults are up 27.3% (28 vs 22). YTD 339 vs 370 and felony assaults 82 vs 65.

Total arrests are down: 28 Day ( 233 vs 405) and YTD (935 vs 1,259).

There have been two separate and significant Mail Fishing arrests with the help of citizen alertness (March 15<sup>th</sup> and 18<sup>th</sup>). Lt Peralta described some of the methods used (e.g., casing mailbox, throwing fishing apparatus in the box and then casually leaving and returning – even placing a hoodie over the mailbox and the lid to camouflage the act of theft.)

YTD 72 summons related to State Liquor Authority violations have been issued by the precinct.

The precinct's next NCO meeting is May 3<sup>rd</sup> at IS 52. The next 34th Precinct Community Council meeting will be Wednesday, April 25th, at 7pm. For more details call the precinct at (212) 927- 9711.
