

On Thursday, March 21st we will stand as **ONE VOICE** against deadly gun violence!

The facts are clear – stronger gun laws make sense. We are outraged and saddened by gun violence that happens in our communities every day. We ask ourselves how innocent children could be killed in cold blood in mass shootings like the ones in Sandy Hook and Columbine. **Yet weapons companies and the big gun lobby continue to have an immeasurable influence over our laws, and people continue to die.**

Join Our Historic Rally to End Gun Violence

**Thursday, March 21
4:30pm**

**Harlem State Office Building
163 West 125th Street**

*(just east of Adam Clayton Powell, Jr. Boulevard
– Seventh Avenue)*

On Thursday, March 21st, thousands of victims, advocates, youth, community and religious organizations, union members, families, artists and more will come together as one unified voice on behalf of common-sense gun laws.

Our massive coalition will support Governor Cuomo's **NY SAFE Act**, a sensible law that limits the sale of military weapons and high-capacity ammunition, and takes guns away from criminals and the mentally ill. Then we will carry our message all across the country, **urging the federal government and other states to use this smart new law as a model for a safer tomorrow.**
