CHECKLIST FOR SCHOOL SITES (answer as best you can)

- 1) The street in question is adjacent to the school.
- 2) The school has inadequate facilities for off-street activity.
- 3) Existing recreation spaces are fully utilized as recreation areas.
- 4) The street in question is not a main or a two-way artery and does not have high vehicular volume.
- 5) The street is not designated as a fire route, bus route or truck route.
- 6) The street is not adjacent to a hospital.
- 7) The street does not have commercial establishments, hotels, public buildings or other activities that would be curtailed or adversely affected.
- 8) The street closure would not interfere with local traffic patterns.
- 9) The physical features and topography (visibility, grades, alignment, open lots) do not create hazards.
- 10) There is no ongoing construction on the street.

CHECKLIST FOR SUMMER SITES (answer as best you can)

- 1) The area has a high population density.
- 2) The street in question is not a main or a two-way artery and does not have high vehicular volume.
- 3) The street is not designated as a fire route, bus route or truck route.
- 4) The street is not adjacent to a hospital.
- 5) The street does not have commercial establishments, hotels, public buildings or other activities that would be curtailed or adversely affected.
- 6) The street closure would not interfere with local traffic patterns.
- 7) The physical features and topography (visibility, grades, alignment, open lots) do not create hazards.
- 8) There is no ongoing construction on the street.

PROGRAMMING

How will you program the site?

- 1. recess for 4th and 5th graders
- 2. _____
- 3. _____
- 4. _____
- 5. _____

David Gruber, Chair
Community Board 2, Manhattan
3 Washington Square Village
New York, NY 10012-1899

Dear Chairman Gruber,

We are delighted that Community Board 2 voted on 2/21/13 in favor of the resolution to create a Play Street for PS3 on Grove Street between Bedford & Hudson Streets. As you know, the outdoor play street is desperately needed, due to increased student body and inadequate infrastructure. The PTA agrees to work closely with the school's administration to ensure that the resolution's stipulations (following) are observed.

- The play street will be limited to the street and the sidewalk adjacent to P.S. 3; no play street activity will be permitted on the sidewalk on the residential (south) side of Grove St. bet. Bedford and Hudson Sts.
- Children will be instructed on proper behavior and expectations for safe play and respect for P.S. 3's Grove St. neighbors and will be monitored accordingly.
- No play will be allowed on private property, including stoops, and no stepping into tree beds or plantings.
- Children always will be under adult supervision.
- Activities will be limited to "soft play," including jump rope, relay, soft-lightweight ball, and the like.
- No eating or drinking (except for water bottles) will be allowed during play street activity.

- The average number of students there will be determined based on scheduling, safety and space.
- If there is parking during play street hours, children will be advised not to lean on or play near parked cars.
- Children will be instructed to always clean up after themselves.
- Should a resident need vehicular access (personal or delivery) or emergency vehicle access be needed to the street during play street hours, activity will be stopped, the children will wait on the sidewalk, and the barricades will be temporarily moved to allow entry and/or exit.
- Ongoing communication will be maintained with the Grove St. Block Association.
- The school will continue to advocate for the repair of P.S. 3 sidewalks (initial communication has been made with the NYC Dept. of Transportation, and the NYC Dept. of Education has already begun an inspection of the sidewalk,).
- The school will work with the Grove St. Block Association for the best possible practical garbage collection options (The NYC Dept. of Sanitation has already been contacted and indicated it may be possible to place a garbage receptacle on a corner of Grove and Bedford).
- A volunteer committee will beautify and maintain tree beds.
- The school will ensure that street blockades are stored safely at night.

With deep appreciation.

Sincerely,

Nicholas Gottlieb
