

Water main connection at Washington Square Park

5th Avenue between Washington Square North and Washington Mews
Washington Square North between 5th Ave. and University Place
Washington Square East between West 4th St. and Waverley Place
Washington Square South/West 4th St. between Thompson St. and Broadway

Project # MED608

On or around September 21st The New York City Department of Design and Construction (NYCDDC) will begin mobilizing in preparation for the water main connection project at Washington Square Park in the Greenwich Village section of Manhattan. This project involves: replacement of trunk and distribution water mains, sewer work, gas relocation, catch basins, chute connections, and amenities including traffic lighting and street lighting. This project has an anticipated completion date of Summer 2018.

Proposed schedule for September/October:

Various Locations:

- Test Pits for trunkmain plans and mobilization
Washington Sq. East between Washington Sq. North and South
- Private utility work; distribution watermain work; gas main work; sewer manhole; trunk watermain work; temporary restoration work

Work Hours:

7:00am-4:00pm, Monday to Friday

Community Impacts

- Pedestrian access maintained at all times
- MTA Bus Stops may need to be relocated within construction zones (advance notice will be given).
- Uniformed NYPD Traffic Agents assigned for traffic control
- Signage in bicycle lanes will be provided
- Certain operations will be noisy; DDC will monitor operations and work within DEP Noise Code Regulations
- Merchant deliveries and drop-offs may be affected. Coordination will be necessary in some areas and addressed on a case-by-case basis
- Parking may be temporarily restricted during construction
- Temporary street closures and/or limited access may be necessary

Special Needs

Individuals with special needs who may be uniquely impacted by this project should contact the project's Community Construction Liaison, as soon as possible, to make them aware of your situation. DDC will work with you to attempt to minimize the inconvenience as much as possible.

Current conditions

Water Service Interruption

During the course of the project there will be service interruptions. To allow water replacement, the existing water service must be shut off by closing the valves at either end of the section. Advance notice will be given for all planned interruptions. Water service will be restored at the end of the day.

Community Construction Liaison (CCL)

The DDC has assigned Bridget Klebaur of Entech Engineering, as the Community Construction Liaison (CCL) for this project. Please contact Bridget for any project related inquiries/concerns you may have:
