
COMMUNITY ADVISORY NOTICE

ASTOR PLACE/COOPER SQUARE PROJECT PROJECT #HWMP116

Borough: MANHATTAN

August 14, 2015

WATER MAIN SHUT DOWN

WEDNESDAY, August 19, 2015
8:00 AM – 4:00PM

AT THE FOLLOWING LOCATION:

➤ **Cooper Village Plaza:**
(Cooper Sq. West, from E. 4TH TO E. 6TH Streets)

Weather permitting, next Wednesday, August 19th, the NYC Department of Design and Construction will connect a new water service into the existing 12" distribution water main line. This operation will be performed inside the Village Plaza work area; however, the buildings located along Cooper Sq. West, from E. 4th to E. 6th Street will be affected by the shutdown.

****Please Note:** A 24-hour advance notification will be distributed to any and/or all affected areas to **CONFIRM** or **CANCEL** the scheduled water shut-off.

SOME THINGS TO REMEMBER:

- The DDC recommends that a qualified person shut off the water main valve in your house/building in order to avoid sediment entering your building's system, which is common with this type of operation.
- You are asked to shut off all Water Cooled appliances, which may include air conditioners, large refrigeration devices, etc.
- Once water service is returned, turn the main house valve back on and flush the system by running your faucets, sinks and tubs, for a few minutes. Run only COLD Water until it appears clear.
- While the contractor will employ all available noise mitigation techniques, this work will entail elevated levels of noise. DDC will monitor operations to assure that they are within the DEP Noise Code Regulations.
