

COMMUNITY ADVISORY NOTICE

INSTALLATION OF DISTRIBUTION WATER MAINS ON WEST 10TH STREET
PROJECT # MED-617

Borough: Manhattan

September 5, 2014

TENTATIVE/WATER SERVICE INTERRUPTION

WEST 10TH STREET
(From Greenwich Avenue to 6th Avenue)
Wednesday, September 10, 2014
8:30 AM FOR 8 (EIGHT) HOURS

WHY IS MY WATER BEING TURNED OFF?

The NYC Department of Design and Construction is managing the capital construction project on West 10th Street between West Street and 5th Avenue. To facilitate the installation of the 12" and 20" water mains, a water shutdown is necessary. It will occur at/about 8:30am and last for approximately eight (8) hours. On occasion, this work may be completed earlier and water service restored.

SOME THINGS TO REMEMBER:

- The DDC recommends that you shut off the water main valve in your house/building in order to avoid problems that may occur if/when sediment enters or is released from your plumbing.
- You are asked to shut off all WATER cooled appliances, which may include air conditioners, etc.
- Once water service is returned, turn the main house valve back on and flush the system by running your faucets to sinks and tubs for a few minutes.

If you have any questions, concerns, or would like to be added to the electronic Neighborhood Notification Network (NNN) list, please contact the Community Construction Liaison (CCL) Ms. Diane Guskin at (212) 354-4905 or e-mail med617ccl@gmail.com During non-construction hours, please contact the NYC Government Services and Information Hotline 3-1-1.

We appreciate your cooperation and thank you for your patience while we rebuild NYC's infrastructure.
