
COMMUNITY ADVISORY NOTICE

INSTALLATION OF WATER MAINS ON WEST 10TH STREET
PROJECT # MED-617

Borough: MANHATTAN

October 17th, 2014

WATER SERVICE INTERRUPTION

WEDNESDAY, 10/22/14
8:30 AM – 4:30 PM

On Greenwich Avenue, between Christopher Street and Perry Street

WHY IS MY WATER BEING TURNED OFF?

The NYC Department of Design and Construction is managing the capital construction project on West 10th Street between West Street and 5th Avenue. A water shutdown is necessary, in order to replace the distribution water main. The shutdown is anticipated to begin at 8:30am and last for approximately eight (8) hours. On occasion, this work may be completed earlier and water service restored.

SOME THINGS TO REMEMBER:

- The DDC recommends that you shut off the water main valve in your house/building in order to avoid problems that may occur if/when sediment enters or is released from your plumbing.
- You are asked to shut off all WATER cooled appliances, which may include air conditioners, etc.
- Once water service is returned, turn the main house valve back on and flush the system by running your faucets, sinks and tubs, for a few minutes.

WHO CAN I CONTACT FOR MORE INFORMATION?

If you have any questions, concerns, or would like to learn more about the project, please call Diane Guskin, the Community Construction Liaison at 212-354-4905, or visit the NYCDDC web site at www.nyc.gov/ddc. During non-construction hours please contact New York City Government Services and Information Hotline at 311.

We appreciate your cooperation and thank you for your patience while we rebuild NYC's infrastructure.

Please Note: Due to unforeseen conditions (weather, field conditions, etc.) it may become necessary to change some scheduled work locations and operations.
