Dear Commissioner Trottenberg:

I am writing to follow-up on our request (**DOT-222690-F9L2**) for speed bump installation on East 4th, between Avenues C & D, which is one of the longer residential blocks located in Manhattan. Many drivers take advantage of the length by speeding through our block causing a serious public safety hazard.

For your information, in addition to residents our block includes 500 elementary school students (PS 15), a separate special education school (P94), two residences for people with disabilities and attracts many seniors and tourists who use our three community gardens. We have almost 200 signatures from residents, school parents and teachers on a petition in support of speed bump installation.

Please contact me with any questions you may have. We look forward to hearing from you.

Sincerely,

Ayo Harrington
President
