

MEMORANDUM

To: Manhattan Community Board 3
From: Amy Yang, 2013-2014 NYC Community Planning Fellow
Date: March 6, 2014
RE: Healthcare Inventory Project Work Plan Update

Overview

The project seeks to create an inventory of existing healthcare facilities within Community District 3, and to identify the current healthcare needs of the residents living within Community District 3, and any gaps or duplication in healthcare service available. If necessary, potential action steps will be recommended to the board.

Objectives of this project are:

1. To create an inventory of healthcare facilities within Community District 3
2. To determine the demand for certain types of healthcare facilities within Community District 3
3. To evaluate if current facilities meet the current demand, and where demand is unmet or saturated
4. To identify potential solutions to meet the demand

Phases and Deadlines

Phase One: Literature Review and Assessment

Compile existing data and research on healthcare facilities → facility inventory

Review existing data and research on population needs

Identify salient themes

If necessary, identify new data that needs to be collected for Phase Two

Determine if I can collect this data

If I can collect this data, outline methodology

Summary of Findings: January 31

Re-crafted Phase 2

first six weeks: expanding the inventory to better reflect complexity of healthcare needs and resources

latter six weeks: spatial analysis (mapping)

Summary of Findings: April 30

Phase Three: Policy Review and Analysis

Research and compile city, state and national policy on healthcare accessibility

Compare with salient themes found in Phases One and Two

Identify gaps in policy

Summary of Findings: May 29

Final Report

Summary and synthesis of literature review,

Inventory and assessment,

Healthcare resources and population needs analysis, and

Policy review and analysis; includes limitations, future implications, and next steps.

Deadline: June 14

Completed:

Combined my list with the North American Industry Classification System (NAICS) list

Current facility count: 1608

Created an additional format of the inventory to allow for both statistical analysis and mapping

Adopted the categorization scheme used by NAICS

In progress:

Filling in gaps

NAICS: needs language, population, etc...

New format: continue transferring information

Continuing to add new facilities

Appendix
