Gigi Li, Board Chair

Susan Stetzer, District Manager

CB 3 procedure to administratively approve certain SLA items with committee chair approval so as to remove those applications without community impact or that meet previously voted on criteria. This is to enable focus on applications with great community impact.

All of the below will be considered only if there are no problems reported to the CB in the last year regarding the location, existing business, or with applicants.

1. Alterations-- alterations that do not impact community. It may be creating storage space, moving a bar, etc. Note, that we currently do not put extending license to sidewalk café on agenda--we assume license when we approve swc unless noted otherwise. This has been policy for years.
2. New licenses - for b/w and closed by midnight. (with stipulations)
3. New licenses that are actually same people in current business with either same or mostly same principals for same business--essentially a restructuring. Same stipulations.
4. Various licenses that have no impact--i.e. museum special event, catering, etc. These are businesses that do not serve public as on-going daily business.
5. License in saturated area that is beer/wine, promise not to upgrade, close by midnight, as voted on previously by CB.
6. Other applications that may occur as determined by committee chair to not have impact.
