**VOTE: TITLE: Support of Community Board 9 Resolution Regarding Lifting of Deed Restrictions**

Whereas, it has become evident to CB 3 that the current process by which a restrictive deed imposed by the City of New York is lifted is flawed in that procedures do not allow for notification of and input by the relevant Community Board, City Council Member, or Borough President; and

WHEREAS, CB 9 passed the following resolution at their May 2016 meeting,

*WHEREAS The City Department of Investigations, the NYC Comptroller's office and the State Attorney General's office are investigating the removal of certain deed restrictions on formerly City-owned property which were intended to ensure the future use of the property be for not-for-profit community space, including on a Lower East Side property which had the specific purpose of being operated as a health care facility for people with HIV or AIDS. The deed restriction stated that this property would serve as this type of facility in perpetuity. The Department of Citywide Administrative Services allowed the removal of this deed restriction in exchange for payment of \$16 million. The details and reasoning behind the lifting of the deed restriction are the subject of the various investigations; and*

*WHEREAS Manhattan Community Board 9 has learned that a similar situation has occurred regarding property that was sold to the Dance Theater of Harlem (DTH) with a deed restriction to preserve the property as a not for profit community space, with the deed restriction lifted for the price of \$875,000; and*

*WHEREAS The community supported DTH obtaining the land to expand its studio space and provide dormitory space for staff, dancers and students. CB9 and members of the community are dismayed to find that the property has now been sold to a private developer with no restrictions; and*

*WHEREAS CB9 believes that these are not isolated incidents, but rather a seemingly disturbing trend in the acceleration of the removal of deed restrictions by the City; and*

*WHEREAS in most instances when property owners seek significant changes to permitted usage of their property, such as rezoning, use variances, density or height variances from*

*City agencies such as the City Planning Commission, the Landmarks Preservation Committee, or the Board of Standards and Appeals, they are required to submit their application to the local Community Board for a public hearing and recommendation or waiver; and*

*WHEREAS said requirements require the local Community Board and community be fully and accurately informed and have an adequate period of time to evaluate and comment on such changes; and*

*WHEREAS In both of these publicized instances none of the above mentioned mechanisms for information, transparency or comment had been met.*

*THEREFORE BE IT RESOLVED that CB9 requests a complete audit of DCAS' procedures by the City Comptroller's office regarding the aforementioned properties as well as full disclosure of any and all pending requests for deed restriction removals; and*

*FURTHER BE IT RESOLVED that DCAS explain its present application and review procedures that allowed these (and possibly other) properties to have deed restrictions removed without community knowledge or input; and*

*FURTHER BE IT RESOLVED that DCAS or any other agency that may have the authority to remove such restrictions require applicants to file their proposals with the local Community Boards, Council Members, and relevant Borough Presidents listing the properties, current restrictions, proposed justification for removal of restrictions, fees involved and the destination of those fees and the proposed community benefit. The review will require a Community Board hearing and recommendation or waiver. Further, the requests (applications) should be received by the relevant parties with ample time to evaluate and comment on the validity and/or necessity of such deed restriction removals.*

Therefore be it resolved that CB 3 fully supports the positions taken by CB 9, in order to increase transparency of, and incorporate public input into, the process for altering deed restrictions.

**Transportation & Public Safety and Environment Committee**

1. Approval of previous month's minutes  
no vote necessary
2. Presentation and recommendations by Urban Planning Fellow on Chinatown Pedestrian Circulation Study  
no vote necessary
3. DOT presentation on final design of upgrade of 2-way protected bicycle lane on Chrystie Street from Canal Street to Houston

**VOTE: TITLE: Support for Chrystie Street Bike Lane**

WHEREAS, Community Board 3 Manhattan previously passed a resolution in support of the Chrystie Street Bike Lane in March 2016, which is hereby incorporated by reference and reads as follows:

*WHEREAS, Community Board 3 passed a resolution asking for safety improvements to Chrystie Street in February of 2015. Current conditions on Chrystie Street all but guarantee hazards for cyclists and drivers alike with severely faded bike lanes in the southbound direction, and with uneven and hummock-filled surfaces; and*

*WHEREAS, The community has expressed much support for a bike lane on Chrystie Street and improvements to the corridor; and*

*WHEREAS, Southbound cyclists on Second Avenue must regularly contend with double parked vehicles and garage driveways blanketing the west side of the street; and*

*WHEREAS, DOT's design creates a 2-way protected bike lane on the east side of Chrystie Street between Houston Street and Canal Street, allows cyclists to use the east side of the Street separated from light industrial traffic, improves the transition for cyclists from Second Avenue to Chrystie Street and creates more direct path to the Manhattan Bridge; and*

*WHEREAS, Bike counts on Chrystie Street were 2,989 cyclists in a 14-hour period, thereby indicating heavy use by cyclists; and*

*WHEREAS, Improvements to the intersection of Chrystie Street and Delancey Street include a protected signal phase to reduce conflicts with pedestrians, cyclists and vehicles; and*

*WHEREAS, The plan calls for the reconfiguration of traffic islands at Chrystie Street north of Canal Street and Second Avenue north of Houston Street, in order to improve traffic flow and increase pedestrian safety; and*

*THEREFORE BE IT RESOLVED, That Community Board 3 supports the proposed design of a 2-way bike lane on Chrystie Street and the pedestrian safety measures that will be installed along the Chrystie Street corridor; and*

*FURTHER BE IT RESOLVED, That DOT has agreed to hold public stakeholder meetings during the daytime with community groups including but not limited to the Sara D. Roosevelt Park Coalition. DOT will work with Sara D. Roosevelt Park Coalition on outreach to other stakeholders and solicit feedback. They will return to the Transportation Committee with a final design in May.*

WHEREAS, Community Board 3 Manhattan recommended that the Department of Transportation (DOT) investigate Chrystie Street for potential safety enhancements to benefit all road users, including possible two way protected bike lane facilities on the east side of Chrystie Street adjacent to Sara D Roosevelt Park, additional pedestrian refuge islands along the entire corridor, and a smoother surface for all vehicles via a freshly milled and repaved street surface; and

WHEREAS, Community Board 3 Manhattan requested that DOT work with local stakeholders, including the Sara D. Roosevelt Park Coalition, and conduct visioning sessions to get community input, before DOT develops a proposal for a redesign of Chrystie Street bike/traffic lanes; and

WHEREAS, Community Board 3 Manhattan requested that DOT return for input on a final design;

WHEREAS, DOT hosted a public workshop on April 13 with local stakeholders, including the Sara D. Roosevelt Park Coalition and incorporated their input into the design; and

THEREFORE BE IT RESOLVED, that Community Board 3 Manhattan supports DOT's plans to enhance traffic safety by installing a two way protected bicycle lane on Chrystie Street.

4. Request for loading zone Mon-Fri 8am-6pm, west side of Chrystie Street between Stanton/Rivington Streets

**VOTE: TITLE: Support for installation of 'no parking' signage on west side of Chrystie Street between Stanton and Rivington Streets**

WHEREAS, the current regulations on the western side of Chrystie Street permit alternate side of the street parking with street cleaning in the evening. Most of the block is regulated by "no parking" signage; and

WHEREAS, the current regulations are causing double parking and congestion near a storefront along a part of the block that permits parking; and

WHEREAS, "no parking" regulations at this site would be consistent with regulations along the rest of the block and would be consistent with the commercial character of the corridor as it would allow for expeditious curbside loading and unloading by customers and businesses; so

THEREFORE BE IT RESOLVED, the Community Board 3 asks NYCDOT to install "no parking" signage in the unrestricted area of the block so that the entire block has consistent parking regulations.

5. Request for installation of speed hump on Bialystoker Place (Willett St) between Delancey St and Grand St

**VOTE: TITLE: Support for Speed Hump on Willett Street (Delancey/Grand)**

**WHEREAS**, in June 2013 a constituent living on Grand Street contacted the DOT and requested the installation of a speed hump on the block of Willett Street between Delancey and Grand Streets; and

**WHEREAS**, the constituent's complaint was a combination of vehicles speeding to make the light at Grand St., unusually heavy traffic from vehicles accessing the Williamsburg Bridge, and a very large number of pedestrians, including many elderly, children, and those with disabilities, crossing back and forth across Willett Street between the residential area to the east and a synagogue, nursing home and senior housing on the west side; and

**WHEREAS**, DOT issued the constituent a letter in December 2015 stating that Bialystoker Place (Willett Street) between Delancey Street and Grand Street met the criteria for a speed hump and that the speed hump would be installed pending Community Board 3 approval; and

**WHEREAS**, CB 3 did not know about this request until April 2016 and was not able to offer approval previously; so

**THEREFORE BE IT RESOLVED**, Community Board 3 supports the installation of a speed hump on the block of Willett Street between Delancey and Grand Streets and asks that DOT complete the installation expeditiously.

6. Request for loading zones for Extell development at 500-530 East 14th Street (one on Avenue A and two on 14th Street)

**VOTE: TITLE: Community Board 3 to Approve two loading zones of 75 feet each, at 224 Avenue A and 512 East 14th Street, to mitigate loading on East 13th Street**

**WHEREAS**, The Extell development at 500 E 14th Street is a residential building with ground floor commercial space; and

**WHEREAS**, the back of the building on E 13th Street has a planned loading dock as required by zoning text; and

**WHEREAS**, the residents of East 13 Street have requested that their block not be used for loading and unloading as it is a residential street with many families, even though the north side of the block is zoned commercial to accommodate the commercial storefronts on E 14th Street; and

**WHEREAS**, Extell wishes to minimize the use of the loading dock on E 13th Street to comply with the residents' request; and

**WHEREAS**, a grocery store is being planned for the corner retail space on Avenue A and 14th, but requires designated loading space on Avenue A, and

**WHEREAS**, currently Avenue A has no loading spaces for the entire length, which has resulted in deliveries in bus stops, double parking for deliveries, and blocking of bike lanes, and

**WHEREAS**, the two spaces being requested for loading zones are currently inaccessible to traffic or parking as they are pedestrian walkways necessary to accommodate construction, there has been no problems with safety or accessibility by buses or other vehicles, and

**WHEREAS**, Extell is therefore requesting 2 loading zones, at 224 Avenue A and 512 East 14th Street, of 75 feet each; and

**WHEREAS**, these two loading zones will displace approximately 4 parking spaces each, but will allow Extell to use commercial zones and not a residential block; and

**WHEREAS**, Extell Development has agreed to exercise its best efforts to discourage tenants from using the 13th Street loading dock for garbage storage and/or removal; so

**THEREFORE BE IT RESOLVED**, that Community Board 3 supports loading zones of 75 feet each, at 224 Avenue A and 512 East 14th Street, to mitigate loading on E 13th Street.

WHEREAS, consistent with his refusal to sign any additional stipulations to ameliorate complaints during his January of 2016 hearing before Community Board 3, principle Jesse Danoff refused to make any statement or address the continued complaints when he appeared for his renewal hearing before Community Board 3; and

THEREFORE, BE IT FURTHER RESOLVED that Community Board 3 moves to deny the renewal of the full on-premises liquor license for Old Man Hustle LLC, doing business as Old Man Hustle, for the premises located at 39 Essex Street, at the corner of Grand Street and Essex Street; and

3. Request for support for design of Package 4 of the East River Esplanade (Catherine to Pike/Allen Street)

**VOTE: TITLE: Support for the design of Package 4 of the East River Esplanade (Catherine to Pike/Allen Street)**

**WHEREAS**, EDC initially presented the plan for East River Esplanade South, Package 4 of the East River Waterfront Esplanade from Catherine to Pike/Allen Street in July 2013; and

**WHEREAS**, Community Board 3 approved the proposed plan in a resolution incorporated hereinto:

WHEREAS, NYCEDC presented the Site Plan Referral for Waterfront Coalition for East River Esplanade South, Package 4: East River Waterfront Esplanade – Catherine to Pike/Allen Street;

- Ping pong and various exercise equipment
- Cantilevered fishing bump out decks

- Plantings in ground level sections extended beyond the shadow of the FDR Drive
- Artificial turf informal ball play area
- Catch basins for storm water drainage pipes

WHEREAS, the four month bidding process should be completed around November 2013, and construction on the site is to begin at the end of 2013 or early 2014;

WHEREAS, EDC established a Memorandum of Understanding with NYC Parks Department for ongoing maintenance of the public space, and will work to ensure that no permitting will be required for the artificial turf field so any member of the public may utilize the site for informal play;

WHEREAS, solar lighting will be considered along the site where possible;

WHEREAS, EDC agrees to allow the opportunity to revisit the skateboarding zone should certain public safety elements become problematic;

NOW THEREFORE BE IT RESOLVED, that Community Board 3 approves and supports the proposed plans, providing that all aspects of the waterfront are fully ADA accessible for the entire waterfront esplanade.

**WHEREAS**, the project has been delayed due to a conflict with one of DEP's water mains that is also on the site; and

**WHEREAS**, EDC has been in discussions with DEP and they believe they are now close to getting final DEP approval for the project and will be able to continue; and

**WHEREAS**, EDC reports nothing has changed in the design since the original presentation and approval in 2013, except to incorporate the community's desire to remove the skateboarding area and EDC is now presenting this plan again because of the amount of time that has passed; so

**THEREFORE BE IT RESOLVED**, Community Board 3 supports the revised design of Package 4 of the East River Esplanade from Catherine Street to Pike/Allen Street, providing that all aspects of the waterfront are fully ADA accessible for the entire waterfront esplanade.

4. Procedures to lift deed restrictions

**VOTE: TITLE: Community Board 3 support for legislation codifying the Mayor's Executive Order 17 (Public Notice of Requests to Remove or Modify Deed Restrictions) and call for the development of a publicly accessible database documenting all deed restrictions.**

Whereas, it has become evident to CB 3 that the current process by which a restrictive deed imposed by the City of New York is lifted is flawed in that procedures do not allow for notification of and input by the relevant Community Board, City Council Member, or Borough President; and

Whereas, the City Council Governmental Operations Committee will likely hold a hearing regarding legislation codifying the Mayor's Executive Order No. 17 (Public Notice of Requests to Remove or Modify Deed Restrictions); and

Whereas, Executive Order No. 17 provides that:

- a. A public notice shall be published in the City Record for at least seven consecutive business days commencing at least thirty days and no more than forty days prior to the public hearing;
- b. Notice of the public hearing shall be mailed to the Community Board in which the subject property is located and to the Borough President and the Council Member who represent the area in which the subject property is located;
- c. The public hearing shall be held within the Community District in which the subject property is located; and
- d. A public file containing copies of the calendar document and other public documents shall be made available to the Community Board in which the subject property is located for public review at said Community Board's office no later than twenty days prior to the public hearing.

Whereas, in addition to the provisions of Executive Order No. 17, the proposed legislation must require development of a publicly available, easily searchable database of properties with deed restrictions imposed by the City of New York; so

Therefore be it resolved, the proposed legislative framework is at a minimum what CB 3 finds necessary in order to increase transparency and community input; and

Be it further resolved, CB3 expects the governmental operations hearing will be one of many opportunities for greater community input and transparency into the process of lifting deed restrictions; and

Be it further resolved, a publicly available, easily searchable database is essential so that the public, Community Boards, and elected officials may be aware of deed restrictions in their community and participate in decision-making with regard to the lifting of a deed restriction.

WHEREAS, Community Board 3 has a high number of community based organizations that run Early Learn Child care programs that employ teachers, staff and directors, many of whom are women of color and are from this community; and

WHEREAS, wage parity for early childhood education staff and teachers is a recommendation included in Public Advocate Letitia James' policy report entitled "Child Care in New York City, Part II, Investing in Child Care" dated November 2015,

THEREFORE BE IT RESOLVED, that CB3 supports funding to ensure wage parity between the NYC DOE and the ACS Early Learn teachers and staff.

3. Mount Sinai request for support to expand EMS services

**VOTE: TITLE: Support for Mount Sinai Expansion of EMS Services**

WHEREAS, Mount Sinai has served the health care needs of Community District 3 residents and beyond; and

WHEREAS, Mount Sinai would like to continue serving the city and individual communities by expanding its primary operating territory for Advanced and Basic Life Support services to include all five boroughs of New York City; and

WHEREAS, an application to expand service territory is judged in part on public need, defined as "the demonstrated absence, reduced availability, or an inadequate level of care in ambulance or emergency medical service available to a geographical area which is not readily correctable through the reallocation or improvement of existing resources"; and

WHEREAS, the large growth in the number of 911 emergency calls has placed a heavy burden on the New York City Fire Department's ability to allocate EMS resources throughout New York City, including CB 3, which has led to longer response times for emergency services; and

WHEREAS, the growing number of ambulance transports for discharged patients and inter-facility transfers adds further strain to ambulance resources; and

WHEREAS, the recent bankruptcy filing of TransCare has negatively impacted existing resources in the region, resulting in the need for entities such as Mount Sinai to fill the void of ambulance services; so

THEREFORE BE IT RESOLVED, CB 3 supports the application for an expansion in service area of Mount Sinai EMS Services to meet a public need through decreased response times and increased access to medical care.

4. Update on the Zadroga Act, which created the WTC health program and request for support for WTC Environmental Health Center to continue as administrator of WTC Survivor Program

**VOTE: TITLE: Support for NYC Health + Hospitals' World Trade Center Environmental Health Center's application to continue to administer the World Trade Center Health Program's Survivor Program**

WHEREAS, Community Board 3 (CB 3) has been a long-time supporter of the WTC Environmental Health Center program which provides care to 'WTC Survivors' - residents, area workers and students with health problems related to 9/11; and

WHEREAS, NYC Health + Hospitals is preparing a response to a contract solicitation by the National Institute for Occupational Safety and Health, a division of the U.S. Centers for Disease Control and Prevention, that would extend a contractual relationship with the World Trade Center Environmental Health Center for another five years; and

WHEREAS, The World Trade Center Environmental Health Center program is well positioned to continue to care for the physical and mental health needs of the current population of WTC Survivors; and

WHEREAS, Under the extension, World Trade Center Environmental Health Center's goals will be to continue to:

- Operate a Clinical Center of Excellence that assesses and treats WTC-related physical and mental health conditions of residents, students, workers, or passersby who may still be sick from 9/11;
- Assess and treat children and adolescents who have 9/11-related health or behavior problems;
- Work in partnership with community and labor organizations and residents affected by 9/11; and
- Provide these services at no out of pocket expense for its recipients; and

WHEREAS, CB 3 commends the WTC Environmental Health Center for its important work to address the health problems from the attacks of September 11, 2001; now

THEREFORE BE IT RESOLVED THAT CB3 strongly supports the contract extension for the WTC Environmental Health Center for another five years.

- Managerial raises

**VOTE:** Whereas, the Community Board 3 total budget has a surplus of "Other Than Personal Services" money due in large part to monies rolled over annually into this budget from unused "Personal Services"

budget, created by the City funding Community Boards the same dollar amount for back dated Citywide managerial increases; and

Whereas, Community Board 3's "Personal Services" and "Other Than Personal Services" budgets, along with additional funding sources that the office has access to, can allow for a one time base salary increase of \$2,000 for each the District Manager (a 2.5% increase) and Assistant District Manager (a 4% increase); and

Whereas, the District Manager and Assistant District Manager are unquestionably dedicated to the Board and community that they both work and live in; and

Whereas, Community Board 3's District Manager, Susan Stetzer, has not received a discretionary raise since 2012, the only discretionary raise since starting in the position of District Manager in 2004; and

Whereas, Community Board 3's District Manager ranks 10 out of 59 in pay compared to the City's other District Managers, is paid the second lowest of Manhattan District Managers, yet is the second most senior one in the borough, and is paid well below the Citywide average by \$13,000; and

Whereas, Ms. Stetzer is on call 24 hours, seven days a week, as evidenced by her long hours during the E. Village gas explosion, not to mention for other routine work; and

Whereas, a base salary increase of \$2,000 is not representative of her work, does not provide full parity compared to her peers, and would only bring her to being the fourth lowest paid District Manager in Manhattan; and

Whereas, the Board believes that a discretionary raise of greater than \$2,000 is warranted based on her high level of performance, e.g. her emergency coordination work during the E. Village gas explosion, it is fiscally prudent to approve an increase this year; and

Whereas, the Assistant District Manager, Tabatha Ann Renz, is paid below the average salary of her peer's salaries across the City, has performed exceptionally well in her first year in the position, and is not paid on par with higher paid Assistant District Managers despite her education and experience; and

Whereas, a base salary increase of \$2,000 would not move her up in the rankings of her peers and isn't representative of her full work value, it would bring her slightly above the Citywide Assistant District Manager pay average by \$530; therefore,

Be it resolved that Community Board 3 approves, as soon as practical, a base salary increase of \$2,000 each for the District Manager and Assistant District Manager.
