

Seward Park Development Project - Urban Design Open House

Hosted by: The NYC Economic Development Corporation, NYC Department of Housing Preservation and Development, NYC Department of City Planning, and Manhattan Community Board 3

Community Board 3 and the City have been working together to develop a possible plan for the City-owned Seward Park sites. Recently, the City hired Beyer Blinder Belle, a local urban design firm, to provide assistance in understanding the urban design options for the sites - for example, building heights and massing, open space, and streetwalls. To assist in this effort, they created a 3D scale model that shows different options for how the buildings could be arranged on the sites.

We are pleased to invite you to a public Open House to learn more about the urban design options and ask questions. Architects and designers from Beyer Blinder Belle, along with City representatives who have been working with the community, will be available to discuss and answer questions about what the potential project could look like. The urban design conversation will continue at the next CB3 Land Use Committee meeting on Monday, May 2nd.

When: Wednesday, April 27th – stop by anytime between 4:30 and 7:30 PM

Where: 80 Essex Street (between Delancey and Broome Streets)

If you have any questions beforehand, feel free to contact Joe Coletti at NYCEDC at jcoletti@nycedc.com. We look forward to seeing you on the 27th!
