**District Overview**

Narrative

Manhattan Community District 4 (CD4) is comprised of two existing West Side neighborhoods: Chelsea to the south and Clinton/Hell's Kitchen to the north, and the new Hudson Yards emerging in the West 30s. CD4 spans the area from W. 14th to W. 59th Streets (from west of Eighth Avenue to the Hudson River north of W. 26th Street, and west of Sixth Avenue to the Hudson River south of W. 26th Street). CD4 shares borders with Greenwich Village, the Flatiron, the Upper West Side and the Midtown central business district.

Portions of several other well-known areas exist within CD4's boundaries: the Garment District, Flower District, Gansevoort Meat Packing District, Ladies' Mile Shopping District, Hudson Yards and Theater District.

Other notable sites in CD4 include: Restaurant Row, The High Line, Intrepid, Circle Line, Javits Center, the Rubin Museum, Chelsea art galleries, Columbus Circle, Maritime Piers 56 - 99, Farley Building/Moynihan Station, Lincoln Tunnel, Port Authority Bus Terminal and the northern half of Hudson River Park.

The total population of CD4 has grown from approximately 87,000 in 2000 to over 104,000 according to the 2010 Census. This represents a 19% growth overall, much of it concentrated in the rezoned areas and a faster growth rate than most parts of New York City.

CB4's priorities (all of equal weight, and shown here in no particular order) are:

- Creating additional green spaces; schools; educational, community and cultural facility spaces,
- Developing a coherent transportation infrastructure for our district including strengthening and improving public bus and rapid transit and fostering a better balance in street usage between pedestrians - especially people with disabilities- , bicycles and vehicles especially buses,
- Attracting development that makes available more affordable housing that is permanent and enhances diversity and positive neighborhood relations among disparate groups,
- Maintaining neighborhood character and supporting the stability of a long standing local retail presence in our communities,
- Preventing displacement and eviction of residents and small businesses and
- Improving environmental quality of air, water, and land.

As a result of recent rezoning, significant new commercial and residential development is now possible in formerly industrial districts. The Community Board has strived for balance between the redevelopment of these areas with the preservation and expansion of the district's residential neighborhoods. A major priority is ensuring that new development helps produce more permanent affordable housing.

Development of large scale proposals - for the corridor between West 30th and West 35th Streets; – development above the MTA; West Side Yard; Port Authority Bus Terminal, Amtrak's Gateway Tunnel proposal; and the conversion of the Farley Post Office into the new Moynihan Train Station; - will similarly require an approach that balances local and regional needs.

Most Important Issues: Large segments of our neighborhoods are under construction putting

a lot of pressure on transportation and deteriorating the quality of life of residents. The rapid increase in land value is accelerating the displacement of many long time tenants and services, while the new benefits of the development have yet to materialize. The Department of Buildings is ill equipped to enforce the zoning resolutions to preserve our existing affordable housing stock in Special Districts. Port Authority Bus Terminal and the Lincoln Tunnel which occupy a large swath of our district, are also losing space to new development and their operations is increasingly incompatible with the new residential zoning.

Our main issues are:

- Completing the city commitments generated by previous rezoning actions (Affordable housing, Bus Garage, Parks, Arts Space)
- Preserving affordable housing and enforcing non demolition going restrictions
- Preserve affordable commercial space for businesses and arts
- Creating affordable housing for people making between 60 and 80% of AMI
- Increasing public safety in transportation
- Addressing the quality of life issues associated with construction, a multitude of bars and restaurants and poor sanitation services.
- Increase Lack of parkland, school crowding and services to homeless, seniors and youth rank also high in our concerns.

**Most Pressing Issues**

Three Most Important Issues	Affordable housing Neighborhood preservation (development trends) Traffic
-----------------------------	---

Commentary why these three were chosen as top issues

The massive rezoning actions on the west side have created thousands of market rate units. It made the neighborhoods of Chelsea & Hell's kitchen very attractive and expensive. This increasingly expensive supply has accelerated the loss of affordable units and it is threatening the preservation of the neighborhood character with loss of diversity in residents as well as in businesses. This increase in population puts additional stress on a underfunded transportation system such as Port Authority Bus Terminal and the MTA and also results in an increase vehicle traffic through Lincoln tunnel which continues to be a major safety and quality of life concern.

Additional, there were agencies and issues not addressed in this application which have been listed below.

Landmarks Preservation Commission (LPC)

Main Issue: Threats to significant historic resources.

The Board is deeply concerned that the pressure from development in CD4 is threatening significant historic resources both in recently rezoned areas and in existing areas where the zoning was originally designed to be protective.

LPC Budget Requests:

Put a higher priority on Landmark identified historical properties threatened by Hudson Yards development.

Amend current procedures to include Community Board in review of staff level decisions in existing landmarks

Department of Consumer Affairs (DCA):

Main Issue: The proliferation of eating and drinking establishments in CD4.

The emergence of the district, particularly Hell's Kitchen, as a regional recreation area for the whole City and even the metropolitan district, has created problems overwhelming the enforcement capabilities of relevant agencies.

Budget Requests:

Coordination of complaints: There needs to be more coordination between complaints received by the 311 system and active staff in the field, as well as a communication to the public of how each complaint is disposed of.

More Education and support to current staff assigned to the enforcement of stipulations for the proper operations of sidewalk cafés

Allocate more inspectors to curb sidewalk encroachments and quality of life violations, like sidewalk cafes, parking and cabarets disturbances.

**Health Care and Human Services**

Health Care and Human Services Most Important Issue

Services to reduce or prevent homelessness

Most Important Issue Explanation	Homelessness has been increasing over the past few years. Large public facilities located within our district, such as the Port Authority Bus Terminal (where recent issues of human trafficking have arisen) are also a natural gathering place for people without homes. Many homeless people need social services, in particular drug treatment and/or mental health services. The presence of very large homeless shelters (BRC) and drug rehabilitation centers had also brought major stress to the community. Location and size will be important to consider in future new centers.

## Facilities and Programming for Older New Yorkers -- Needs and Requests

High level comments or background information	<p>According to the US Bureau of the Census, there are 16,972 individuals (12.1%) over 65 years of age living in the Chelsea/Clinton Neighborhoods. The majority of them, 52.3%, live alone, The vast majority live in rental apartments, 21% of those living in public housing are elderly; 37.1% of the seniors have income below \$20,000 a year; 27.3% had incomes between \$20,000 – \$50,000; and 14% have mobility and self-care impairments. The number of people over age 65 began to increase substantially beginning in 2011 as the oldest members of the baby-boom generation reach the 65-year mark. The number of people age 65 or older will nearly double between 2000 and 2030.</p> <p>To better understand the growing needs of our seniors, in 2013, the Board partnered with The Actors Fund (a human service organization for the performing arts with many constituents living in Community District 4), Visiting Nurse Service of New York and the Rodney Kirk Center of Manhattan Plaza (a 1700 unit Section 8 building for the performing arts with over 1100 seniors) to conduct a survey of seniors residing in Community District 4. An Advisory Committee of over 40 senior service, health care, affordable housing providers, local political representatives and entertainment unions came together to focus on the needs, concerns and supports required for this community. Since the completion of the survey, with the help of Councilman Corey Johnson's office, the Advisory Committee continues to meet and coordinate efforts to improve the quality of life for seniors in CD4. Priorities for the Committee include:</p> <ul style="list-style-type: none"> <li>• Education/Outreach to seniors about the increase of SCRIE</li> <li>• Campaign to identify and promote Age Friendly local business</li> <li>• Expansion of affordable mental health services for seniors and medical home visit programs</li> <li>• Support services for caregivers of the frail elderly</li> <li>• A Housing Agenda for Older New Yorkers</li> </ul>

**Youth, Education and Child Welfare**

Purpose Label

**Youth, Education and Child Welfare**

Youth, Education and Child Welfare Most Important Issue School and educational facilities (Capacity)

Most Important Issue Explanation The current number of schools in CD4 cannot meet the increasing number of school age children who will be living in new residential developments throughout the community. The Board wants better measures to assess the number of additional residents living in CD4 with particular emphasis on the number of school age children and the number of public schools that can accommodate this population.

Educational Needs and Budget Requests Yes

Resources Label

**Educational Facilities and Programs -- Needs and Requests**

High level comments or background information As the population in Community Board 4 continues to grow, we need to address how education demands will be met. Development on the west side, including The Hudson Yards, will bring more children into the district schools - and impact schools that are already operating at full capacity.  
  
We will work with city officials to determine how they plan to address these needs for elementary, middle school and high school.

Public Safety Most Important Issue

Other *Please specify below* | Violation of City traffic regulations - often a case of life and death and always a major quality of life issue in our district- is made more urgent with the increased number of residents, schools and school children and the presence of numerous tourists and seniors in our district.

the extraordinary concentration of bus car and truck traffic makes it even more a priority

Most Important Issue Explanation

Violation of City traffic regulations is a major quality of life issue in our district is made more urgent with the increased number of residents, schools and school children and the presence of numerous tourists.

In addition, with the reductions achieved in many categories of crimes, more focus can now be applied to quality of life issues in our community and the enforcement of quality of life regulations.

Renovate or upgrade existing precinct houses	
Provide a new NYPD facility, such as a new precinct house or sub-precinct	
1. Priority	35
Request Quick Reference Name	

Required Label	
Need	NYPD facilities and equipment
Request	Provide a new NYPD facility, such as a new precinct house or sub-precinct
Agency	New York City Police Department
Budget Category	Capital
Explain and Specify Request	Provide a new NYPD facility and precinct district for CD4: It is time to regroup all of MCB4 within a single precinct that incorporate all the new areas in development for commercial and residential use. These combined with the exponential influx of residents, commuters and businesses in and around Hudson Yards calls for the creation of a new precinct and a redistribution of territory. We request the remapping of our district from 4 precincts to 1 or at most 2 precincts

Provide new facilities such as a firehouse or EMS station	
1. Priority	16
Request Quick Reference Name	
Required Label	
Need	FDNY facilities and equipment
Request	Provide new facilities such as a firehouse or EMS station
Agency	New York City Fire Department
Budget Category	Capital
Explain and Specify Request	Permanently relocate the West 23rd Street #7 EMS station (FDNY) to a new facility MCB4 specifically requests immediate funding for a relocation of the EMS station that is temporarily located on W. 23rd Street and Tenth Avenue. The current temporary location was never designed for the heavy use the EMS is placing on this site. The current small, cramped location adjacent to residential buildings has resulted in noise and exhaust pollution. The site is unsafe for both FDNY personnel and nearby residents and pedestrians.

**End of Section**

End of Section Label

**Core Infrastructure, City Services and Resiliency**

Purpose Label

**Core Infrastructure and City Services**

Core Infrastructure and City Services	Cleanliness/trash collection
Most Important Issue	
Most Important Issue Explanation	The street sanitation situation has much worsened in the high traffic corridors of 8th and 9th Avenues. There seems to a decrease in the frequency of pick-up of garbage in the public wastebaskets. Pest control continues to be a serious problem due to poor garbage storage. MCD4 does not have a sufficient number of DSNY trash pickup trucks, while the population increases rapidly. In addition, with the increase in restaurant in the district, multiple sandwich boards, menus stands, plants etc. have appeared on sidewalks making it nearly impossible for pedestrians to navigate on the sidewalk on 9th Avenue, north of 34th street and on 8th Avenue. Increased enforcement is required to ensure a safe pedestrian experience.

**Water, Sewers and Environmental Protection**

Water, Sewers and Environmental Protection Needs and Budget Requests	Yes
Resources Label	

**Water, Sewers and Environmental Protection -- Needs and Requests**

High level comments or background information	<p>All of coast line of MCD4 is categorized as a High Risk Flood Zone as well as portions of Chelsea. MCB4 is especially concerned about the Southern and Western areas of MCD4 and the entrances to the Lincoln &amp; Amtrak tunnels.</p> <p>According to the New York City Department of Health and Mental Hygiene, this community suffers the second highest incidents of chronic lung disease of any community in Manhattan south of Harlem. Given the proximity of the Chelsea and Clinton/Hell's Kitchen neighborhoods to the Lincoln Tunnel and to the Port Authority Bus Terminal, MCD4 is at particular risk from unhealthy air affected by emissions from motor vehicles, especially from diesel engines in trucks and buses. Another major cause of air pollution in CD4 is carbon emissions from buildings still using "dirty boilers" that burn heating oil #4 and #6. Many of the buildings using these dirty boilers are rent-regulated and cannot (or will not) pay for the cost of converting to cleaner alternatives.</p> <p>Noise complaints from CD4 consistently rank among the highest registered by DEP and are rising in the Board area, especially at night. The main sources of noise are from clubs and lounges (sound equipment and revelers in the wee hours leaving), construction equipment, mechanical/air handling equipment (typically on roof tops), truck traffic (especially private sanitation trucks making pick-ups in the middle of night), emergency vehicles, honking and Fire Department Vehicles and Ambulances struck in traffic.</p>

Build new, expand or repair sanitary sewers

Build new or expand wastewater treatment or water pollution control facilities

Provide new or expand green infrastructure, e.g. greenbelts, bio swales

1. Priority	32
Request Quick Reference Name	
Required Label	
Need	Sewage and flooding
Request	Provide new or expand green infrastructure, e.g. greenbelts, bio swales
Agency	Department of Environmental Protection
Budget Category	Capital
Explain and Specify Request	Expand permeable surface and sidewalk bio swale pilot program to include MCD4: The New York City Council passed a bill in 2014 to begin a pilot program of using permeable sidewalk surfaces to reduce runoff from entering our combined sewage system. MCB4 would like to extend that pilot program to our district, which includes High Risk Flood Zones in some of our neighborhoods. In addition to this measure sidewalk swales used in other parts of the city should be installed within our district. The pedestrian islands that were installed to accommodate the separated bike lines along Eighth, and Nine Avenues would be optimal locations for sidewalk swales. Notably all new parks should minimize run offs.

Clean catch basins	
Other sewer maintenance requests	
1. Priority	42

Request Quick Reference Name	
Required Label	
Need	Sewage and flooding
Request	Other sewer maintenance requests
Agency	Department of Environmental Protection
Budget Category	Expense
Explain and Specify Request	Although MCB4 lauds DEP's NYC Green Infrastructure Program we ask that DEP and agency partners, including the Federal government design, construct and maintain a variety of sustainable green infrastructure practices within MCD4. A portion of the FY 2016 budget should be earmarked to conduct a feasibility study of measures that can limit the damage of storm surges including flood gates. It has been estimated that the cost to design and construct flood gates at Verrazano Narrows, Arthur Kill and Throgs Neck is approximately \$10 billion.

Required Label	
Need	Sanitation Enforcement
Request	Increase enforcement of illegal dumping laws
Agency	Department of Sanitation
Budget Category	Expense
Explain and Specify Request	Dedicate a sanitation enforcement officer to CD4 to enforce increase in illegal dumping and sidewalk obstructions: The Board is concerned about illegal household dumping, commercial garbage on the sidewalks, the accumulation of construction debris, and an increase in sidewalk obstructions in the district. One additional Sanitation Police Officer should be assigned solely to and stationed in our District. Many infractions occur after 5 PM and a presence in our district is key to affect timely visits. In addition, the Department of Sanitation (DOS) needs to do more to educate individuals and businesses about sanitation regulations.

**Land Use -- Needs and Requests**

High level comments or background information Main issue: Years after both Hudson Yards and West Chelsea in 2005 and the Western Rail Yards in 2009, construction is in full swing but many City commitments remain unfilled.

A number of items that were agreed to by the developers, the Administration and the City Council await completion. They need the commitment of financial resources from both the expense and capital budgets to support staff and implementation from the Department of City Planning (DCP), Economic Development Corporation (EDC), Housing Preservation and Development (HPD) and other relevant agencies.

Explain and Specify Request	Study the extension of the Special West Chelsea District (SWCD) to adjacent areas It is now time, nine years after the creation of the SWCD, for the City to follow through with the promises it made including those listed then as "Points of Agreement." Also it is important that the City examine the unforeseen problems, which have emerged as development rises in the SWCD creating pressures on adjacent areas like West 14th Street that might necessitate new zonings or the expansion of the SWCD itself.

Explain and Specify Request	Revise the CEQR manual to correctly calculate the need for school seats resulting from cumulative rezoning. With an additional 20,000 residents and further developments under way, our capacity to deliver a proper education to our students is woefully inadequate. Revise Chapter 6 of the City Environmental Quality Review, which grossly and unfairly under counts needed school seats in our community. The problem is worst in Manhattan; as each residential "unit" is calculated to yield three times more 4-17 year olds in the Bronx [.74] than in Manhattan [.22]. Calculations must be based on the most recently available data to update the borough formulas.

Explain and Specify Request	Modify the special permit process for off-street parking in new residential buildings. The current methodology for calculating parking for special permit findings does not reflect the realities of CD4, particularly in West Chelsea. The methodology encourages the building of unnecessary parking spaces which attract more cars in an area that is already overwhelmed by traffic and has excellent mass transit.

Explain and Specify Request	Increase and dedicate Inspectors, Community Coordinators, and Administrative Associates to CD4 Special Districts: HPD and DOB inspectors and those assigned to the Mayor's Office of Special Enforcement (OSE) do essential work in our area. Their work is particularly important within Community District 4's Special Districts, including the Special Clinton, West Chelsea and Hudson Yards Districts, where we depend on their skills to enforce arcane, but essential provisions preventing the demolition of sound residential housing and protecting tenants from harassment. Enhance funding for staffing to pursue with due diligence the collection of outstanding fines owed by repeat violators, and enforce unsafe and after hours construction compliance is essential.

Request Quick Reference Name	
Required Label	
Need	Building code and zoning enforcement
Request	Address illegal conversions and uses of buildings
Agency	Department of Buildings
Budget Category	Expense
Explain and Specify Request	Illegal hotel use in our district continues to grow exponentially. The NYS Attorney General report Airbnb in the City, found that CB4 is one most trafficked neighborhoods for illegal hotel use, and of the three community districts that collectively account for 41% of Airbnb's revenue in NYC. Illegal hotel use depletes our affordable housing stock, incentives tenant harassment and creates quality of life issues for existing tenants. Increase OSE resources including lawyers, investigators and inspectors dedicated to bringing litigation against illegal hotel use, particularly in the most problematic districts.

High level comments or background information

As stated in Manhattan Community Board 4's Affordable Housing Plan (See attached) Affordable housing within our District is critical to house the diverse population of artists, students, minimum wage earners and seniors. This mixed population includes the backbone of the service and cultural economy of the city, as well as many of the most frail and isolated members of our community. It is critical that the city free up subsidies to replenish the inventory of affordable housing units in the West side of Manhattan. MCB4 has developed a detailed plan to generate and preserve about 10,000 units in our district.

CD4 stands to lose a significant amount of affordable housing due to expiring uses in the immediate future. CD 4 is the second largest neighborhood in terms of bed and breakfast illegal conversion in the city. Most relate to affordable units. Such uses are prevalent in rent-regulated housing and in buildings receiving tax abatements programs such as 421-a and J-51 programs. The largest concentration of SRO housing in our community lies between Eighth and Ninth avenues from W. 42nd Street to W. 57th Street. In that area, there are 62 buildings that contain nearly 2,200 SRO units. The majority of those units are found on W. 51st Street where twelve buildings contain 574 units. W. 46th Street is home to the largest concentration of SRO buildings, with 21 buildings housing 289 units.

Purpose Label

**Transportation**

Transportation Most Important Issue Traffic safety

Most Important Issue Explanation The presence of Penn Station entrances, the Port Authority Bus Terminal, the Lincoln Tunnel and the West side Highway brings a enormous volume of transient Buses, Trucks and automobiles which disregard neighborhood needs in using our public space and put them in conflict with pedestrians, tourists and commuters.

Traffic and Transportation Infrastructure Needs and Budget Requests Yes

Resources Label

**Traffic and Transportation Infrastructure -- Needs and Requests**

High level comments or background information Trucks and buses are an increasing presence on residential streets, off-street facilities for all types of buses and commuter vans are inadequate, and environmental pollution is a constant quality of life complaint and threat to public health. Pedestrians compete with each other and obstructions on the sidewalk, with turning cars at the crossings and often find themselves walking in traffic. Finally, Pedestrian ramps are poorly Maintained.

**Parks, Cultural and other Community Facilities**

Parks, Cultural and other Community Facilities Most Important Issue	Quality of parks and park facilities
---	--------------------------------------

Most Important Issue Explanation	<p>Manhattan Community District 4 ranks last out of Manhattan's 12 community boards when it comes to residential access within ¼ mile of a park and open space as a percent of total district square.</p> <p>Our neighborhood has added 20,000 residents in the last 10 years and the creation of parks has put us even further back in access to parks. In a growing neighborhood, it is critical that the city Integrate Parks Planning into Neighborhood, Citywide and Resiliency Planning along with overhauling how the Parks Department is funded. Restrict and Strongly Regulate the Privatization of Parkland and Increase Transparency and Efficiency of the Parks Department to Ensure Equitable Distribution of Resources.</p>

**Parks and Recreational Facilities and Programming -- Needs and Requests**

High level comments or background information	<p>MCB4 believes open spaces add value to our quality of life. In regards to Parkland, we seek certain objectives:</p> <ul style="list-style-type: none"> <li>• Integrate Parks Planning into Neighborhood, Citywide and Resiliency Planning;</li> <li>• Restrict and Strongly Regulate the Privatization of Parkland</li> <li>• Increase Transparency and Efficiency of the Parks Department to Ensure Equitable Distribution of Resources; overhaul of how the Parks Department is funded.</li> <li>• Each park in our district should have a full-time, on-site park keeper to address constituents' concerns, provide security and perform routine maintenance of that park alone.</li> <li>• Funding dedicated to support Green Thumb Community Gardens and pruning for street trees;</li> <li>• Funding directed towards full-time gardeners, maintenance workers, PEP officers, as well as seasonal aides and playground associates for the summer.</li> </ul>

Request	Reconstruct or upgrade a park or playground
Agency	Department of Parks and Recreation
Budget Category	Capital
Explain and Specify Request	Dewitt Clinton Park does not live up to its full potential. The Play areas, restrooms, the steps at the western end of the park, and seating areas are all in need of renovation. We have begun to see the implementation of lovely plantings in some parts of the park, but a more robust horticultural plan will help enliven this park. Rats have been a problem at Dewitt Clinton and MCB4 would like better measures to be put in place to deal with this issue.

**Cultural and other Community Facilities and Programming -- Needs and Requests**

High level comments or background information	<p>According to a study conducted by Innovative Theater Foundation and Columbia University in the Fall of 2008, close to 30% of performance spaces have closed within CD in the last eight years due to development pressures. The presence of performing arts groups, develop and give voice to new talent in areas of writing, performing, dancing, choreography, and directing in our community vitalizes it, artistically, culturally and commercially, on a block-to-block level throughout our district.</p> <p>In addition, support services for theater and other artistic services within CD4 in the areas of rental storage space for art, costumes, scenery, lighting, and rehearsal studios have long been located throughout Chelsea and Clinton/Hell's Kitchen. These services are also losing viable space due to development and real estate costs. The money generated from these industries provides employment and maintains the artistic life of the city. The Board is concerned with the loss of artists' studios in the District and the displacement of working artists.</p>
