

COMING EVENT

**The History and Future  
Of  
Our Neighborhood's Underground Waters**

**The Old Streams  
Drinking Water  
Waste Water**

*From the 1800's Aqueducts on 100<sup>th</sup> Street, to the Gothic Water Tower on 98<sup>th</sup> Street and the Underground Streams still flowing under the new construction, our neighborhood has included notable structures above and below ground to direct our drinking, waste and natural waters. Where does our water come from and go?*

**6 – 8 p.m.**

**Thursday, November 6, 2008**

Bloomington Library, 160 West 100<sup>th</sup> Street  
(between Columbus and Amsterdam Avenues)  
Second Floor

Speaker:

**Kevin Bone, Author, *Water-Works: The Architecture and Engineering of New York City's Water Supply***

**Invited Commentators from the NYC Bureau of Waste Water and the New York Public Library Map Division.**

**Park West Neighborhood History Group  
Columbus/Amsterdam Business Improvement District (BID)**
