

Proposed amendment to CB7's By-laws regarding public members. Vote will take place in December.

Members of the public may become public members of a committee (with the exception of the Steering Committee or Executive Committee) after attending at least three (3) meetings of that committee over the preceding twelve (12) months. Public member votes shall be recorded at each committee meeting and reported to the board separately from the votes of the committee board members and from the votes of the non-committee board members who may be present and voting. A committee action on a resolution is determined solely by the votes of the committee board members. Once a member of the public becomes a public member of a committee he/she shall be listed on the sign-in sheet in a section specifically designated for public members. Public members of committees shall not be entitled to vote at full Board meetings nor shall public members be entitled to speak when the full Board is in executive session.
