

Following are instructions on how to reduce the size of the PDF file:

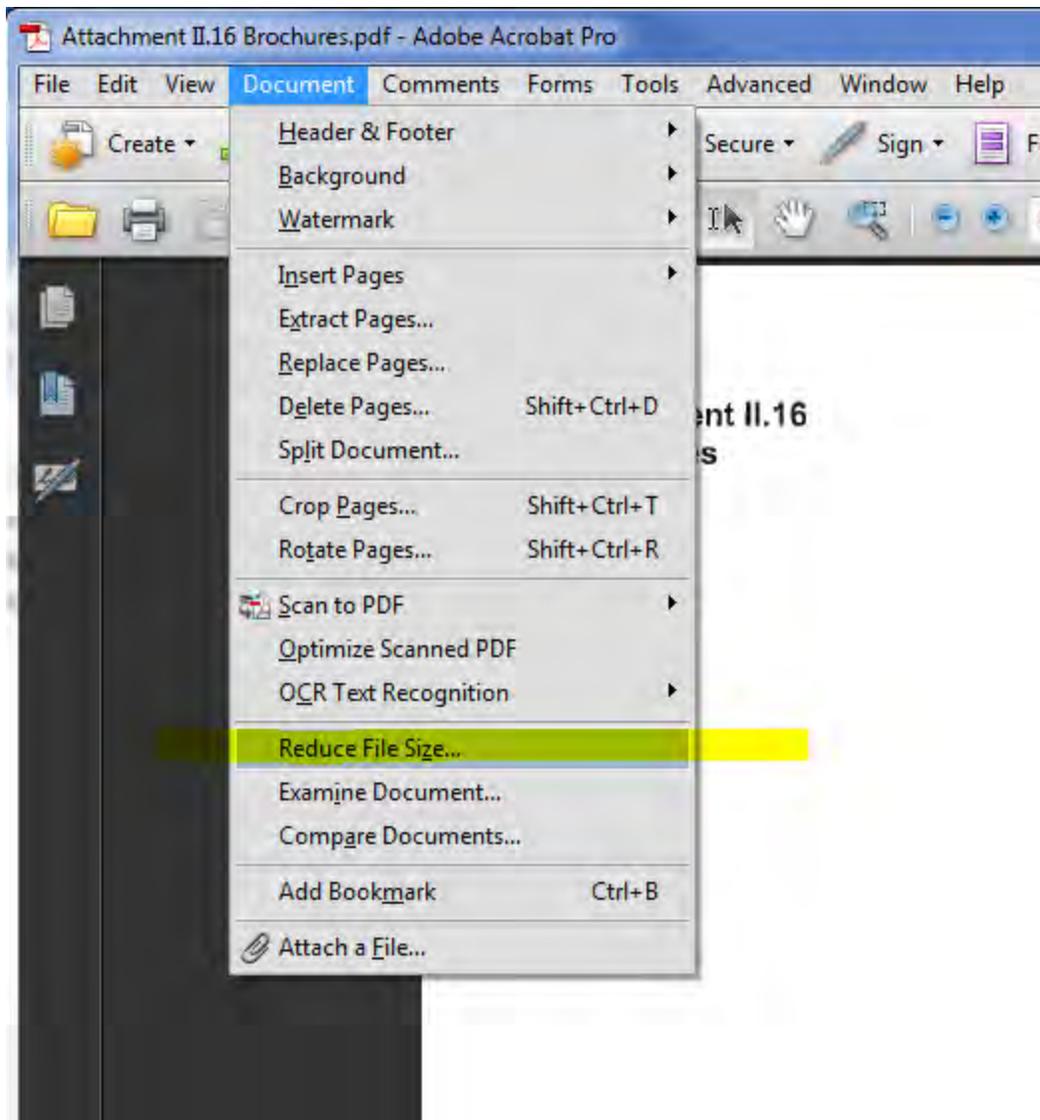

1. Open PDF File in Adobe Professional 9
2. Click on Document and select “Optimize Scanned PDF”

3. Move slider all the way to the LEFT towards Small Size:

4. Save The document.
5. Then Click on "reduce File Size" option under Document as show below:

6. Save file. File size should be reduced significantly by performing the above steps.
