

Maximo Developer Team Leader - Business Solution Technology

JOB DESCRIPTION:

The Business Solution Technology department is seeking a Maximo Developer to work as part of its post production support team and function as the technical lead. The selected candidate will direct a team of developers providing hands-on, day-to-day support and enhancement of the agency's Maximo (Work Order Management) System. Responsibilities will include but are not limited to the following:

1. Resolve application, interface, workflow, reporting and data integrity issues.
2. Assume lead role in release migration, performance testing and tuning, upgrade and patch installation and testing.
3. Support and enhance integration components between applications, including Java and PL/SQL.
4. Develop plans for improving the stability and supportability of existing package and custom applications.
5. Provide production support to analyze day-to-day issues and respond quickly to resolve problems, minimizing the business impact.

QUALIFICATION REQUIREMENTS:

1. A baccalaureate degree from an accredited college, including or supplemented by 24 semester credits in computer science or a related computer field and two years of satisfactory full-time computer software experience in computer systems development and analysis, applications programming, database administration, systems programming, data communication, including one year in a project leader capacity or as a major contributor on a complex project; or
2. A four year high school diploma or its educational equivalent and six years of satisfactory full-time computer software experience as described in "1" above, including one year in a project leader capacity or as a major contributor on a complex project; or
3. Education and/or experience equivalent to "1" or "2" above. College education may be substituted for up to two years of the required experience in "2" above on the basis that 60 semester credits from an accredited college is equated to one year of experience. A masters degree in computer science or a related computer field may be substituted for one year of required experience in "1" or "2" above. However, all candidates must have at least a four-year high school diploma or its educational equivalent and at least one year of satisfactory full-time experience in a project leader capacity or as a major contributor on a complex project.

Special Note:

To be eligible for placement in Assignment Level IV, in addition to the Qualification Requirements stated above, individuals must have one year of satisfactory experience in a project leader capacity or as a major contributor on a complex project in data administration, database management systems, operating systems, data communications systems, capacity planning, and/or on-line applications programming.

QUALIFICATIONS DESIRED:

1. Minimum six years experience designing and implementing solutions in IBM Maximo product, at least three years at version 6 or higher and technical lead in the support of the IBM Maximo product.
2. Expert knowledge of Maximo, including Maximo Application Designer, Maximo schemas/tables/relationships and the Maximo Workflow Designer

SKILLS DESIRED:

1. Ability to produce technical designs and/or code for JAVA extensions; write Maximo custom classes (not just Java classes).
2. Significant experience developing and supporting software solutions in Oracle PL /SQL or a comparable relational database platform, as well as configuration and support using WebSphere or WebLogic.
3. Strong knowledge of JAVA development in Maximo and JAVA class file structure

Interested candidates may fax cover letter, resume, to (212) 306-5194, e-mail to HR.Recruitment@nycha.nyc.gov or mail to:
