ELECTRONIC FUND TRANSFER (AUTOMATIC CASH DEPOSIT)

Electronic fund transfer (EFT) of monthly pension benefits is offered to retirees of the Police Pension Fund Article II who receive regular pension benefits, Superior Officers' Variable Supplement Fund benefits and/or Patrolmens' Variable Supplement Fund benefits. With EFT, your net benefit is automatically deposited in the bank account you designate.

EFT is:

- SAFE: Eliminates lost or stolen checks.
- SURE: Ensures that your retirement benefit is credited to your bank account every month, even if you're out of town, ill, or on vacation.
- FAST: Your money is in your bank account on the payment date. You don't have to wait for a benefit check to clear before you can draw on the deposit.
- EASY: Eliminates a trip to the bank and waiting on long lines to deposit check.

HOW EFT WORKS

1. Your net retirement benefit is credited directly to your bank account, automatically, each month.
2. To draw money, simply cash a personal check at your bank or elsewhere, or use an automatic teller machine. If you've asked that your benefit amount be deposited in your savings account, just present your passbook for a withdrawal.
3. Your monthly net retirement benefit amount will be shown on your bank statement.
4. A quarterly statement issued by the Office of the Comptroller will be mailed to your home address. This statement will reflect the fixed dollar amount and deductions for health insurance, organization dues and/or federal withholding tax.

INSTRUCTIONS FOR COMPLETING THE EFT AUTHORIZATION FORM

Please attach to the EFT form a voided check of the account to which you wish to have the transfer made. If you choose to have EFT deposits made to your individual checking/savings account, you must attach a voided or cancelled check to verify the depositing account. **Do not sign the check.**

Form must be notarized.
