## DOMESTIC VIOLENCE & THE WORKPLACE: EMPOWERING SURVIVORS THROUGH BEST PRACTICES AND RESOURCES

*An Interactive Forum for Business Owners Large and Small, Corporate Leaders, and HR Personnel*

OCTOBER 16th, 2014 • 8:00AM-10:30AM

Pfizer Inc., 235 E. 42nd St., New York, NY 10017

When domestic violence victims go to work, the abuse doesn't stay at home. The worker and the workplace are affected when a victim is harassed by threatening phone calls, absent because of injuries, or less productive due to extreme fear and stress. Employers and co-workers can make an important and life-saving difference if they know how to recognize the signs of domestic violence, establish effective workplace policies to address it, and make reasonable accommodations to empower victims to become survivors.

This two-hour forum will explore the scope of the problem, provide a user friendly overview of the relevant laws governing domestic violence and employment, and offer best practices and resources for businesses large or small and their employees to address domestic violence in their workplace.
