

International Mass Fatality Management Conference and Workshop

By Invitation Only

April 25 – 27, 2012

**NYC Office of Chief Medical Examiner
421 East 26th Street, New York City**

The objective of this conference is to bring together domestic and international experts and leaders in mass fatality management to explore past incident management, discuss lessons learned and define best practices to enhance future responses and coordination.

Conference Schedule

Wednesday, April 25th

Post-9/11: Mass Fatality Management and Disaster Victim Identification

Morning sessions: The Attacks of September 11th, 2001

Afternoon panels: Advances in Disaster Victim Identification and DNA

Thursday, April 26th

Mass Disaster and the International Response Community

Morning sessions: International Incidents

Afternoon panels: Complex Policy Decisions in Fatality Management

Friday, April 27th

Breaking Through Boundaries in Multi-Jurisdictional Incidents

Morning sessions: Transportation Incidents

Afternoon panels: Regional Coordination for Federal, State and Local Jurisdictions

Please RSVP to Emily Carroll, Regional Project Coordinator, at emcarroll@ocme.nyc.gov, to express your interest in attending the conference
