Notes:

1. Daily average managed in CY2011 was 11,114 tons.
2. Transport to final disposal sites from transfer sites in Staten Island, Bronx, and WM-Varick (4 districts) was by rail.
3. Including other transfer facilities in NJ that used rail, 42% of all refuse went by rail, 48% by transfer trailer truck, 10% direct haul.
4. Final disposal sites were landfills (80% of the total) in NY, PA, OH, SC, VA and KY; and waste-to-energy facilities (20%) in NY, NJ, PA and CT.
5. WM-Front St. and WM-864 Julia St., Elizabeth, NJ; and Covanta-Hempstead RRF are used on a backup basis only.
6. IESI Court St takes containerized waste.
