Notes: Hourly construction worker and truck trips were derived from an estimated quarterly average number of construction workers and truck deliveries per day, with each truck delivery resulting in two daily trips (arrival and departure).												

Appendix E-3
Construction Air Quality

Appendix E-4
Construction Noise

Table with 93 columns and 93 rows. Each cell contains a numerical value. The table is a grid of data points, likely representing a matrix or a set of coordinates. The values are distributed across the grid, with some cells containing red text indicating specific values or errors. The table is organized into a 9x9 grid of 10x10 sub-grids, with the last cell in each sub-grid being empty.

Table with 70 columns (ID, 1-70) and 70 rows (1-70). Each cell contains a numerical value or is highlighted in red, indicating a grid of data points across various categories.
