

<b>LL86 Construction Cost Threshold Criteria Adjusted for Inflation</b>						
Calendar Year of Start of Design <sup>1</sup>	2007 or before	2008	2009	2010	2011	2012
Construction Cost <sup>2</sup> Threshold Criteria Adjusted for Inflation (\$)	500,000	514,000	533,532	531,398	539,900	557,177
	1,000,000	1,028,000	1,067,064	1,062,796	1,079,801	1,114,355
	2,000,000	2,056,000	2,134,128	2,125,591	2,159,601	2,228,708
	12,000,000	12,336,000	12,804,768	12,753,548	12,957,606	13,372,249
	30,000,000	30,840,000	32,011,920	31,883,872	32,394,013	33,430,621

<b>LL86 City Contribution Threshold Criteria Adjusted for Inflation</b>						
Calendar Year that First Certificate to Proceed or CBX Certificate <sup>3</sup> for Project Is Issued by OMB	2007 or before	2008	2009	2010	2011	2012
City Contribution <sup>4</sup> Threshold Criteria Adjusted for Inflation (\$)	10,000,000	10,280,000	10,670,640	10,627,957	10,798,004	11,143,540

1. Start of Design is the date of execution of the first contract for design of capially eligible project work that is subject to LL86 requirements.
2. Construction cost estimate should be based on or anticipate the design to be implemented at the start of construction and should exclude design related costs and include materials, equipment, labor, mark-ups related to general conditions, contractor overhead and profit, and construction management fees necessary to implement all capially eligible work in the project or project phase.
3. The first Certificate to Proceed or CBX Certificate is the document that allows a city agency to develop the intial contract with a non-city entity for capially eligible work in the project.
4. The city contribution is the amount of funding that is anticipated will be released from the city treasury for the project.
