MANDATORY TRAINING

NYC CERT 10-week Basic Training

30 hours

This course provides the foundation in emergency preparedness, response, and recovery for the NYC CERT program. The 10-week course includes CERT-specific and personal awareness in fire safety, disaster medical operations, utilities, transportation, and human services in the urban environment; basic search and rescue techniques; and a full-scale disaster simulation where teams will use the incident command structure to approach disasters. A team-building approach is used, and participants will be required to participate in table top exercises, build an emergency phone tree, and complete weekly homework assignments.

Instructor(s): OEM, FDNY, NYPD

Prerequisite(s): 18 years of age or older, NYC resident, or for corporate teams must work in NYC, NYC OEM background check, approval of NYC CERT team chief.

Introduction to Ready NY for CERT

1.5 hours

This course is mandatory for all active, credentialed NYC CERT members. This course provides the basic Ready NY message that all members must know to competently provide emergency preparedness information to their community through general CERT presentations, tabling events, or while talking to their neighbors.

Instructor(s): CERT Ready NY Peer Trainers, OEM Staff

Prerequisite(s): 10-week Basic Training

POST-TRAINING EXPECTATIONS

General Information

All active, credentialed NYC CERT members are eligible to attend post-training courses offered by NYC OEM CERT. Some courses may be geared towards team leadership (denoted by an L) or have a prerequisite to attend. Please see course list for this information.

Courses are offered throughout the year, based on the availability of trainers.

Post-training Registration

All post-training announcements are sent by NYC OEM through e-mail. Team chiefs, or their designee, are responsible for making sure members are aware of available training. Team chiefs are responsible for making sure members who do not have e-mail receive training announcements and information.

General courses announcements will be sent to all members. Other trainings will go through team leadership for registration.

Registration for all post-training courses is through certtraining@oem.nyc.gov. If a member does not have e-mail, his or her team chief is responsible for signing the member up for the course. Individual members who sign up for a post-training course must notify their team chief. Team chiefs may also send in a team list for trainings.

Some training courses may have a class limit, which, once met, will close at registration. Classes that are full will have waiting lists for members who are still interested in attending. Members will be contacted if space becomes available.

Post-training Attendance

It is expected that members show up for courses for which they register. **Members who are considered “no-shows” may be penalized by not being allowed to register or attend a NYC CERT post-training course for three months.** A “no-show” is a member who signs up for a course and does not attend and does not cancel in advance. If a member signs up for a course and then cannot attend, he or she should alert CERT staff via certtraining@oem.nyc.gov or call 718-422-8951.

POST-TRAINING COURSES

L: Denotes NYC CERT Leadership Post-training Course (See Appendix B)

Information on prerequisite independent study (IS) classes can be found in Appendix C. Please print out the certificate you receive at the end of each training session and send to certtraining@oem.nyc.gov or bring to training.

NYC Citizen Corps Volunteer Development Program Courses

These courses are offered through NYC Citizen Corps, of which NYC CERT is a member. Courses vary by topic and are sent out primarily through CERT leadership.

Coastal Storm Flooding/On-line Training 3 hours

A majority of the New York City coastline is located within different levels of flood zones. The on-line Coastal Storm Flooding training outlines what roles CERT members may play in the event of a large coastal storm and the City opens up its shelter system. This training is on-line and members can register by contacting certtraining@oem.nyc.gov.

Instructor(s): OEM Human Services and Coastal Storm Planning Partners

Prerequisite(s): 10-week Basic Training

Communicating with the Disabled (L) 2 hours

This is the Seventh Sense training offered by The Center for Independence of the Disabled New York (CIDNY). CERT members who are interested in further training after Cultural Awareness will learn definitions of disability, how to dispel common myths about people with disabilities, as well as communication, interpersonal, and other skills when working with or assisting people with disabilities. Training incorporates real life vignettes, group exercises, and questions and answers about people with disabilities in a safe, supportive environment.

Instructor(s): CIDNY

Prerequisite(s): 10-week Basic Training and Cultural Awareness, IS-197.SP

CPR Awareness/2010 3 hours

If someone you loved experienced a cardiac arrest, would you know how to perform life-saving CPR? The FDNY EMS Community CPR Training Program teaches groups of individuals to learn the necessary skills to confidently perform CPR to a friend or family member if needed.

The program is run by the Department's Mobile CPR Training Unit. Classes are taught by American Heart Association-Certified CPR instructors. The class provides a good working knowledge of CPR for the non-professional and is not designed for certification. You'll get hands-on instruction and a CPR kit to use for practice at home. This training is instructed to groups, so neighboring teams may want to hold the training together.

Instructor(s): FDNY Foundation EMS Community CPR Training Program/American
Hearth Association Certified CPR Instructors
Prerequisite(s): 10-week Basic Training

Creating Vigilant, Prepared, and Resilient Communities for Homeland Security (L)
16 hours

This training is offered by the Western Community Policing Institute/Western Oregon University. This US Dept. of Homeland Security-funded two-day training is designed to train and equip public safety and community leaders with the skills necessary to create vigilant, prepared, and resilient communities for homeland security.

Instructor(s): Western Community Policing Institute
Prerequisite: 10-week Basic Training and approval of team chief, IS-240, IS-241

Cultural Awareness
3 hours

NYC is a culturally rich environment. More than 500 languages are spoken by its residents, and over 500 different cultures are represented throughout the five boroughs. This course is designed to provide the NYC CERT member with a basic approach to developing awareness and sensitivity in working with and providing services to the City's diverse residents as a NYC CERT member.

Instructor(s): NYC Department of Health and Mental Hygiene
Prerequisite(s): 10-week Basic Training

Emergency Operations Center/E-Team
2 hours

This training session includes an Emergency Operations Center (EOC) 101 which will provide the participant with an understanding of the importance of the NYC OEM EOC and how it functions. The E-Team segment of the training provides a detailed overview of the E-Team software and allows users to practice required tasks in the system. NYC CERT members who successfully complete this training will have the opportunity to fill the NYC CERT seat in EOC activations under the direct supervision of the External Affairs CERT Emergency Support Function (ESF) coordinator, as well as work in OEM Watch Command to support CERT operations.

Instructor(s): OEM Training and Exercise Unit
Prerequisite(s): 10-week Basic Training and IS100a, IS-775

Enhanced Coping Skills (L)
16 hours

This course is for CERT leadership interested in learning basic and advanced communication skills. As a leader of the team, it is the chief's responsibility to make sure he/she is keenly aware of the stresses team members may be under during an exercise or deployment. This class will help team leadership develop a heightened awareness and provide them with tools to keep communication open during stressful times.

Instructor(s): NYC Department of Health and Mental Hygiene

Prerequisite(s): 10-week Basic Training, IS-242

OEM Response Training (L)

3 hours

This training is geared towards team leadership and will raise awareness on how the City and OEM responds to different types of emergencies throughout New York City.

Instructor(s): OEM Training and Exercises Unit

Prerequisite(s): 10-week Basic Training, IS-100a

Psychological First Aid

3 hours

This course provides an understanding of the factors that affect both NYC CERT Team members and the community members which they serve. CERT volunteers need to understand what they may see or hear during an incident and how it may affect their and other's mental health. Psychological first aid is designed to reduce the initial distress caused by traumatic events and assist with both short- and long-term functioning and coping. This course will provide NYC CERT members with this basic understanding and provide skills on how to provide empathic support to colleagues and survivors. It is an ethical and professional responsibility for those who provide emergency service support to know psychological first aid.

Instructor(s): NYC Department of Health and Mental Hygiene

Prerequisite(s): 10-week Basic Training

Ready NY Presenter

3 hours

The Ready NY program is the City of New York's emergency preparedness program. CERT members who are interested in public speaking will be trained in raising awareness about potential emergencies and disasters in New York City and how residents can prepare for them. This training will also train bilingual members who will be able to go into communities where languages other than English are prominent and provide emergency preparedness information.

The class provides hands-on presenter training, with evaluation by the OEM Ready NY and Training and Exercises staff. Upon successful completion of the training session, members will be asked to provide a minimum of five Ready NY presentations in their communities.

Instructor(s): OEM Ready NY and Training and Exercise Units

Prerequisite(s): 10-week Basic Training

Ready NY for Kids Presenter

4 hours

The Ready NY for Kids program is a preparedness program for kindergarten students through high school and their parents. CERT members will be trained to address school groups, after-school groups, youth organizations and parent groups.

The class provides hands-on presenter training, with evaluation by the OEM Ready NY and Training & Exercises staff. Upon successful completion of this training session,

members will be asked to provide Ready NY for Kids presentations in their community. Day hours are preferred as trained presenters will also go into schools and present in assemblies and classrooms.

Instructor(s): OEM Ready NY Unit

Prerequisite(s): 10-week Basic Training, DOE fingerprinting.

Running Planned Events**3 hours**

One of the major responsibilities of a CERT is providing emergency preparedness information to its community. Teams can participate in community events that are sponsored by other agencies or organizations or can set up their own events. This training will go through the steps of holding a successful community event, which can include Ready NY presentations, recruiting for new members, and participating in National Preparedness Month.

Instructor(s): OEM External Affairs Unit

Prerequisite(s): 10-week Basic Training

Table Top Exercise Design 101 (L)**3 hours**

This course is designed to give participants the basic tools to create a table top exercise for their team. The course teaches the eight steps of exercise design, table top facilitation, and exercise characteristics. This is an excellent response training and network opportunity. Participants will also be expected to hold a table top exercise with their team, possibly including surrounding teams, within three months of completing the course.

Instructor(s): OEM Training and Exercise Unit

Prerequisite(s): 10-week Basic Training and ICS 120a

Wilderness Search and Rescue**8 hours**

Parts of the five boroughs contain large areas of park space. Emergencies involving lost persons happen quite regularly, especially concerning children, and adults with dementia or Alzheimer's disease. NYC CERTs with large parks in their community boards would benefit from this awareness course that adds specifics about park environments in regards to light search and rescue. Participants should be in good health for hiking and be dressed appropriately for the outdoors. The majority of this training will be held outdoors.

Instructor(s): NYS Department of Environmental Conservation

Prerequisite(s): 10-week Basic Training, Affiliation with team containing or bordering a large city, state, or federal park or recreational area.

BOROUGH-WIDE TRAINING

Borough-wide trainings are held at least once a year. Trainings are offered to all credentialed members and are held within each borough. Topics will vary year to year.

ConEdison

3 hours

ConEdison supplies much of New York City's utility services. This training provides CERT members with a follow-up to the Urban Environment I Unit and will raise greater personal awareness and possible team response as it relates to utility incidents.

Instructor(s): ConEdison Emergency Response Group

Prerequisite (s): 10-week Basic Training

OEM Response Training (L)

2 hours

This training will raise awareness on how the City and OEM respond to different types of emergencies throughout New York City. It also discusses CERT's role in these responses.

Instructor(s): OEM Training and Exercises Unit

Prerequisite(s): 10-week Basic Training

Traffic Safety

3 hours

One of the most common responses CERT may be called upon to do is traffic control. Members may be asked to provide support during a large-scale planned event, such as the Annual Five Boro Bike Tour, or to assist during an incident. As you may recall from Unit 9- Police Science and Terrorism, traffic control is one the most dangerous roles for CERT. Proper instruction on on-going training is a must for members interested in helping with any type of traffic control.

Instructor(s): NYPD

Prerequisite(s): 10-week Basic Training

Appendix A

Recommended post-training for new members

For newly graduated members the following courses are recommended:

- Coastal Storm Flooding
- Cultural Awareness and Psychological First Aid
- Emergency Operations Center/E-Team
- Introduction to Ready NY for CERT

FEMA Independent Study (IS) Program (see Appendix C for detailed course information)

<http://training.fema.gov/IS/>

IS-7	A Citizen's Guide to Disaster Assistance
IS-22	Are You Ready? An In-depth Guide to Citizen Preparedness
IS-100a	Introduction to the Incident Command System
IS-317	Introduction to Community Emergency Response Teams
IS-324	Community Hurricane Preparedness

The above courses will add to the solid foundation members have following graduation from the 10-week Basic Training. These trainings should be taken within the first two years following a member's basic training.

Appendix B

NYC CERT Leadership Track (L)

These classes are targeted to all NYC CERT team chiefs and deputy chiefs.

- Communicating with the Disabled
- Creating Vigilant, Prepared, and Resilient Communities for Homeland Security
- Enhanced Coping Skills
- OEM Response
- Table Top 101

Online Approved Courses

All Appendix C Courses

IS-139 Exercise Design

Emergencies happen. Emergencies can be limited in scope or they can reach disaster proportions, sweeping through an entire community or multiple communities. Being prepared to respond to and recover from emergencies is everyone's challenge. Whether your organization is a government agency tasked with a particular response role, a volunteer agency that responds to the community's needs, or a private sector entity that may be faced with an emergency situation, you have an important role in that preparation. As an outcome of your community's or organization's emergency planning process, plans should be in place that specify how you prepare for emergencies, how you will respond if an emergency occurs, how you will mitigate the potential effects of emergencies, and how you will recover. Practice is an important aspect of the preparation process. Experience and data show that exercises are a practical, efficient, and cost-effective way for organizations in the government, nonprofit, and private sectors to prepare for emergency response and recovery.

This course is based on one important premise: Emergency exercises are worth the effort. Exercises identify areas that are proficient and those that need improvement. Lessons learned from exercises can be used to revise operational plans and provide a basis for training to improve proficiency in executing those plans. This course is designed to introduce you to the fundamentals of exercise design and to prepare you to design and conduct a small functional exercise for your organization. It addresses: The value of conducting exercises; The components of a comprehensive exercise program; The exercise development process ³/₄ development tasks, organization of the design team, exercise documentation, and the steps in designing an exercise.

This course will cover the purpose, characteristics, and requirements of three main types of exercises: Tabletop exercise, Functional exercise, and Full-scale exercise. In addition this course will cover: Exercise evaluation; Exercise enhancements; and Designing a functional exercise.

<http://training.fema.gov/EMIWeb/IS/is139.asp>

IS-235 Emergency Planning

This course is designed for emergency management personnel who are involved in developing an effective emergency planning system. This course offers training in the fundamentals of the emergency planning process, including the rationale behind planning. It will develop your capability for effective participation in the all-hazard emergency operations planning process to save lives and protect property threatened by disaster.

<http://training.fema.gov/EMIWeb/IS/is235.asp>

IS-240 Leadership & Influence

Being able to lead others - to motivate them to commit their energies and expertise to achieving the shared mission and goals of the emergency management system - is a necessary and vital part of the job for every emergency manager, planner, and responder. This course is designed to improve your leadership and

influence skills. It addresses: Leadership from within; How to facilitate change; How to build trust; Using personal influence and political savvy; and Fostering an environment for leadership development.

<http://training.fema.gov/EMIWeb/IS/is240.asp>

IS-241 Decision Making and Problem Solving

Being able to make decisions and solve problems effectively is a necessary and vital part of the job for every emergency manager, planner, and responder. This course is designed to improve your decision-making skills. It addresses: The decision-making process; Decision-making styles; Attributes of an effective decision maker; and Ethical decision making and problem solving.

<http://training.fema.gov/EMIWeb/IS/is241.asp>

IS-242 Effective Communication

Being able to communicate effectively is a necessary and vital part of the job for every emergency manager, planner, and responder. This course is designed to improve your communication skills. It addresses: Basic communication skills; How to communicate in an emergency; How to identify community-specific issues; Using technology as a communication tool; Effective oral communication; and How to prepare oral presentation.

<http://training.fema.gov/EMIWeb/IS/is242.asp>

IS-244 Developing and Managing Volunteers

This course is for emergency managers and related professionals working with all types of volunteers and coordinating with voluntary agencies. The course provides procedures and tools for building and working with voluntary organizations. Topics include: Benefits and challenges of using volunteers; Building a volunteer program; Writing job descriptions; Developing volunteers through recruitment, placement, training, supervision and evaluation; Coordinating with voluntary agencies and community-based organizations; Special issues including spontaneous volunteers, liability, and stress.

<http://training.fema.gov/EMIWeb/IS/is244.asp>

IS-271 Anticipating Hazardous Weather & Community Risk

Note: This course is on a non-federal government website operated by the Cooperative Program for Operational Meteorology, Education, and Training (COMET).

As an emergency manager, you play a special role in anticipating and preparing for hazardous weather. This course will help you meet this challenge more effectively by: Enhancing your ability to recognize potentially hazardous weather and flooding situations and how they may affect your community; Familiarizing you with National Weather Service (NWS) products so that you understand how to use and interpret forecasts; and Encouraging you to develop a partnership with the NWS well in advance of a threat.

<http://training.fema.gov/EMIWeb/IS/is271.asp>

IS-288 The Role of Voluntary Agencies in Emergency Management

This independent study course provides a basic understanding of the history, roles, and services of disaster relief voluntary agencies in providing disaster assistance. It is appropriate for both the general public and those involved in emergency management operations.

<http://training.fema.gov/EMIWeb/IS/is288.asp>

Appendix C

Approved Online Training

The following online courses have been approved by NYC CERT program staff for re-credentialing purposes.

IS-7 A Citizens' Guide to Disaster Assistance

This independent study course provides a basic understanding of the roles and responsibilities of the local community, State, and the federal government in providing disaster assistance. It is appropriate for both the general public and those involved in emergency management who need a general introduction to disaster assistance.

<http://training.fema.gov/EMIWeb/IS/is7.asp>

IS-22 Are you Ready? An In-depth Guide to Citizen Preparedness

The "Are You Ready? An In-Depth Guide to Citizen Preparedness" has been designed to help the citizens of this nation learn how to protect themselves and their families against all types of hazards. It can be used as a reference source or as a step-by-step manual. The focus of the content is on how to develop, practice, and maintain emergency plans that reflect what must be done before, during, and after a disaster to protect people and their property. Also included is information on how to assemble a disaster supplies kit that contains the food, water, and other supplies in sufficient quantity for individuals and their families to survive.

<http://training.fema.gov/EMIWeb/IS/is22.asp>

IS-55 Household Hazardous Materials – A Guide for Citizens

This course was designed for the general public. The course will introduce you to household hazardous materials and things you can do to protect yourself and your family from injury or death.

In the 1st unit, you will learn about basic chemical and physical properties, the ways chemicals enter your body, and the effects chemicals have on your body.

In the 2nd and 3rd units, you will learn about cleaning products, lead, mercury, gasoline, compressed gases, carbon monoxide, medical supplies, chlorine, pesticides, and much more.

In the last two units, you will cover labels, personal protective equipment, proper disposal methods, preventive measures to take before natural disasters, and less toxic alternatives.

Dangers from chemical products depend greatly on the individuals using them. Chemicals are safe to use when people read the directions and use them correctly.

This course is available on-line as an interactive web-based course. It will take 1 to 3 hours to complete all the units and take the final exam. There are several interactive activities throughout the course. These activities are optional and not content-based, however, you are encouraged to view them, as they will reinforce content learned.

<http://training.fema.gov/EMIWeb/IS/is55.asp>

IS-100a Introduction to the Incident Command System

ICS 100, Introduction to the Incident Command System, introduces the Incident Command System (ICS) and provides the foundation for higher level ICS training. This course describes the history, features and principles, and organizational structure of the Incident Command System. It also explains the relationship between ICS and the National Incident Management System (NIMS).

<http://www.training.fema.gov/EMIWeb/IS/is100.asp>

IS-120.a An Introduction to Exercises

IS 120.a introduces the basics of emergency management exercises. It also builds a foundation for subsequent exercise courses, which provide the specifics of the Homeland Security Exercise and Evaluation Program (HSEEP) and the National Standard Exercise Curriculum (NSEC). This course will introduce you to the following concepts: Managing an exercise program; Designing and developing an exercise; Conducting an exercise; Evaluating an exercise; and Developing and implementing an improvement plan.

<http://training.fema.gov/EMIWeb/IS/IS120A.asp>

IS-197.SP Special Needs Planning Considerations for Service and Support Providers

All individuals, advocacy groups, organizations, and institutions within the special needs service and support system are encouraged to be proactive and develop emergency plans. The purpose of this course is to provide representatives of the special needs service and support system with the basic information and tools to develop their own emergency plans. This course is designed for people who work with the elderly and people with disabilities, and will teach how to partner with local Emergency Management and better prepare for all phases of an emergency.

<http://training.fema.gov/EMIWeb/IS/is197SP.asp>

IS-200a ICS for Single Resources and Initial Action Incidents

ICS 200 is designed to enable personnel to operate efficiently during an incident or event within the Incident Command System (ICS). ICS-200 provides training on and resources for personnel who are likely to assume a supervisory position within the ICS.

<http://training.fema.gov/EMIWeb/IS/IS200A.asp>

IS-230.a Fundamentals of Emergency Management

The revised and renamed Fundamentals of Emergency Management course introduces the fundamentals of emergency management as an integrated system, surveying how the resources and capabilities of all functions at all levels can be networked together in all phases for all hazards. It is one in the Federal Emergency Management Agency (FEMA) Professional Development Series.

This course was previously titled "Principles of Emergency Management." The title was changed to reflect the content and intent of the course. Persons who previously took Principles of Emergency Management (IS 230) are not be required to take Fundamentals of Emergency Management and will be given credit toward completion of the series for either.

<http://training.fema.gov/EMIWeb/IS/is230a.asp>

IS-317 Introduction to Community Emergency Response Teams

"Introduction to Community Emergency Response Teams", IS- 317, is an independent study course that serves as an introduction to CERT for those wanting to complete training or as a refresher for current team members. It has six modules with topics that include an Introduction to CERT, Fire Safety, Hazardous Material and Terrorist Incidents, Disaster Medical Operations, and Search and Rescue. It takes between six and eight hours to complete the course. Those successfully finishing it will receive a certification of completion from Citizen Corps."

<http://training.fema.gov/EMIWeb/IS/is317.asp>

IS-324 Community Hurricane Preparedness

Note: This course is on a non-federal government website operated by the Cooperative Program for Operational Meteorology, Education, and Training (COMET).

This computer-based course, Community Hurricane Preparedness, is to provide those involved in the decision making process for hurricanes with basic information about:

How hurricanes form; The hazards they pose; How the National Weather Service (NWS) forecasts future hurricane behavior; and What tools and guiding principles can help emergency managers prepare their communities.

<http://training.fema.gov/EMIWeb/IS/is324.asp>

IS-394.a Protecting Your Home or Small Business From Disaster

The Emergency Management Institute is pleased to announce the newly revised independent study course, IS-394.a Protecting your Home or Small Business from Disaster. The course replaces IS-394 Mitigation for Homeowners.

The purpose of this course is to provide a foundation of knowledge that will enable participants to: Describe different types of natural disasters; Describe hazards that pose a risk to their home or small business; Explain how protective measures can reduce or eliminate long-term risks to their home and personal property from hazards and their effects; Explain how protective measures for small businesses secure people, business property, and building structures and prevent business loss from a natural disaster.

<http://training.fema.gov/EMIWeb/IS/IS394A.asp>

IS-630 Introduction to the Public Assistance Process

This course is an introductory level course designed for federal, state, tribal and local emergency management staff with responsibilities in FEMA's Public Assistance program. It is highly recommended for non-public assistance personnel who need a basic understanding of the process.

Four units of instructions cover such topics as an overview, eligibility, kickoff meeting, project formulation, and small project validation. The materials include a section on "How to take this course," an interactive summary activity, and a resource center which includes public assistance policy publications, forms, glossary, link to FEMA's web site, and an end of course examination.

<http://training.fema.gov/EMIWeb/IS/is630.asp>

IS-700.a National Incident Management System (NIMS) An Introduction

IS-700: National Incident Management System (NIMS), and Introduction:

On February 28, 2003, President Bush issued Homeland Security Presidential Directive-5 (HSPD-5). This directive instructed the Secretary of Homeland Security to develop and administer a National Incident Management System (NIMS). The NIMS provides a consistent nationwide template to enable all government, private-sector, and nongovernmental organizations to in concert during domestic incidents. This course explains the purpose, principles, key components, and benefits of NIMS. It also contains "Planning Activity" screens giving you an opportunity to practice some planning tasks.

<http://training.fema.gov/EMIWeb/IS/is700a.asp>

IS-775 EOC Management and Operations

This course describes the role, design, and functions of Emergency Operations Centers and their relationships as components of a multi-agency coordination system. The course contains disaster-related examples, activities and case studies that relate to EOC's and multi-agency coordination systems at the local, state and federal levels of government.

<http://training.fema.gov/EMIWeb/IS/IS775.asp>

IS 800.B National Response Framework, An Introduction

Note: On February 4th, 2008, the Independent Study Program implemented the EMI course IS-800.B, National Response Framework, an Introduction.

Course Overview

The course introduces participants to the concepts and principles of the National Response Framework.

<http://training.fema.gov/EMIWeb/IS/IS800b.asp>

Appendix D

NYC CERT Post-training courses grouped according to purpose

To assist teams and members in planning for training to fill certain team goals and objectives.

Preparedness:

ConEdison
CPR Awareness
Creating Vigilant, Prepared, and Resilient Communities for Homeland Security
Introduction to Ready NY for CERT
OEM Response Training
Ready NY Presenter
Ready NY for Kids Presenter

Community Disaster Network Building:

Communicating with the Disabled
Cultural Awareness
Enhanced Coping Skills
Running Planned Events

Response:

Coastal Storm Flooding
Emergency Operations Center/E-Team
Psychological First Aid
Table Top 101
Traffic Safety
Wilderness Search and Rescue
