

“ I wanted my GED and saw an ad for a school where I could get it. The school talked me into paying a lot for a GED *and* an associate’s degree. Then a classmate told me I could just get my GED for free. I left school, but I feel like they scammed me out of my money.

People should know there are free classes— I’m taking some now. Don’t throw away your money.”

– Samuel,  
Bronx
