REGISTER OF COMMUNITY BOARD BUDGET PRIORITIES

The Register of Community Board Budget Requests for the Preliminary Budget lists community board requests and reports agency funding recommendations for each request in the departmental estimates. The capital and expense budget estimates of proposed agency spending for the upcoming fiscal year based on the November financial plan comprise the departmental estimates.

As part of the Preliminary Budget process, the 59 community boards are asked to complete the following:

*** FY 2010 Capital Budget Requests and Priorities -** the boards request capital projects and assign priority numbers to each. Boards may submit no more than 40 capital priorities. In addition to the 40 numbered priorities, boards may submit 5 continued support priorities to confirm support for already funded projects.

*** FY 2010 Expense Program Requests and Priorities -** the boards indicate immediate service needs by submitting expense budget requests and assigning priority numbers to each. Boards may submit no more than 25 expense priorities.

*** Community Board Service Program Rankings for FY 2010 -** the boards indicate the general importance of current services. To obtain the analysis of the boards' rankings of current services, call (212) 788-5943 or email: siegall@omb.nyc.gov .

The Preliminary Register is released in January with other Preliminary Budget Documents. An Executive Budget Register is published with the Executive Budget in April. The Executive Register contains the same Board requests and priorities. OMB updates the responses since the Executive Budget is the Mayor's Budget.

A final Register is published after the budget is adopted. The Adopted Register contains responses that reflect the changes made to the Executive Budget by the City Council.

FORMAT OF THE REGISTER

The Register of Community Board Budget Requests is sorted into four versions: Community Board, Borough, Council and Agency. In all versions of the Register, each board's expense requests directly follow their capital requests. The requests are in board order.

COMMUNITY BOARD BUDGET PROCESS

The FY 2010 Register contains community board budget requests and agency funding recommendations. It is the charter mandated product of a dynamic and cyclical budget process which includes public testimony, written input about community needs, and consultations with city agencies that deliver local services.

At consultations with city agencies boards discuss community needs, agency policies and fiscal constraints. The consultation format in each borough is individualized to meet the needs of the community boards. The FY 2010 consultations consist of three different formats:

- **Individual 25 Minute Meetings-** District consultations in the spring followed by borough consultations in September and October, at which a community board meets with up to ten consulting agencies at individual twenty-five minute sessions on a single evening. The boards bring their most pressing concerns to the attention of top level decision makers at each agency.

- **Group -** All interested boards in the borough meet together with an agency for an up to two hour consultation. Many agency expense budget decisions have borough and citywide ramifications which impact all the boards in a similar fashion. The boards submit a single agenda which covers areas of common interest. Board specific issues may also be included.

- **Individual Meetings - Capital Intensive Agencies** Boards meet individually in the fall with the three agencies which provide most of the capital projects in each district. The Departments of Environmental Protection, Parks and Recreation and Transportation each arrange separate meetings with each board. Boards and agencies have sufficient time to discuss the status of capital projects as well as expense budget service issues.

In September and early October, the FY 2010 borough consultations consisted of 218 individual and 28 group sessions.

The fourteen consulting agencies are: Departments for the Aging, Buildings, Children's Services, Economic Development Corporation, Environmental Protection, Fire, Housing Preservation and Development, Human Resources Administration, Homeless Services, Parks and Recreation, Police, Small Business Services, Sanitation, and Transportation.

During district consultations in the spring, community board representatives meet with the local service chiefs and other agency personnel.

In the fall, these same agencies meet with the community boards on a borough level using one of the three formats previously described.

PREPARING STATEMENTS ON THE PRELIMINARY BUDGET

The City Charter requires that community boards prepare written comments on the City's Preliminary Budget. The Community Board **Statement on the Preliminary Budget** is due one month after the release of the Preliminary Budget.

The Charter asks the community boards to send the **Statement on the Preliminary Budget** to the Mayor, the City Council, the Director of the Office of Management and Budget, the Borough President and each member of the Borough Board.

In your **Statement** to public officials, spell out board and community reactions to both specific funding recommendations for board budget requests and the City's overall spending priorities as shown in the Four-Year Financial Plan.

Use this **Statement on the Preliminary Budget** as the basis for testimony at the public hearings held by the City Council and Borough Boards.

Organize the **Statement on the Preliminary Budget** by agency so that your comments can be sent to the proper agency and OMB decision makers.

Chapter VII of the **Manual for Participation in the Budget Process** provides a detailed guide for developing your **Statement on the Preliminary Budget.** It also lists sources of information.

The following sources will also help you gather information regarding issues and needs specific to your district.

- **Register of Community Board Budget Requests for the Preliminary Budget** (agencies' funding recommendations in this document). Note whether the funding recommendations correspond to previous commitments made by the agencies.

- The **Capital Commitment Plan** charts capital appropriations, commitments, cash flow and implementation schedules and is now published in both a Citywide and community board version.

- The **Geographic Reports for the Capital and Expense Budgets** provide information on cost estimates of capital site-specific projects including appropriations and expenditures-to-date, and estimates of appropriations for local service districts' expense programs.

- **Testimony taken at the board's public hearing on the Preliminary Budget** will indicate community concerns about current service needs and priorities.

Review the following Citywide budget documents to determine how the City's fiscal plans and priorities impact your district.

- **The Four-Year Financial Plan** discusses the City's fiscal condition for the current year and the succeeding four fiscal years, comparing revenues and expenses, and the actions required to close budget gaps. Agency planned spending is detailed and required changes to program spending are described.

- **The Departmental Estimate/Preliminary Budget** contain proposed agency spending for the next fiscal year before any reductions due to the Program to Eliminate the Gap (PEG). Check allocations for individual projects requested by the community boards and items not included by the agency.

For more information, please call the Community Board Unit, Office of Management and Budget at (212) 788-5940 or email: sugarp@omb.nyc.gov .

07	106201004E	**Request:** Hire Additional Housing Preservation and Development Personnel Including Code Enforcement Inspectors and Narcotics Abatement Personnel **Explanation:** In order to prevent the deterioration of our housing stock, additional Code Enforcement personnel is needed to inspect and document housing code violations. Similiarly, in order to maintain high standards in HPD managed and subsidized housing greater emphasis must be placed on ridding the developments of criminal elements including the sale of illegal drugs and other substances. Additional funding, therefore, should be provided for narcotics control/abatement programs including funding for eviction, litigation, surveillanlce and enforcement. **Responsible Agency**: Department of Housing Preservation & Development	The agency will try to accommodate this issue within existing resources.
08	106199508E	**Request:** Provide Additional Funds for AIDS Treatment and AIDS Awareness Programs. **Explanation:** AIDS/HIV continues to be one of our district's most pressing health problems, particularly among young females. Additional funds are needed for AIDS treatment services (medical, hospice and home attendants) as well as for AIDS Awareness Programs at youth centers and community based organizations. **Responsible Agency**: Department of Health and Mental Hygiene	The NYC DOHMH currently funds a wide range of HIV/AIDS services. 09	106200202E	**Request:** Purchase State-of-the-Art Firefighting Equipment and CPR Kits. **Explanation:** The safety of our firefighters continues to be put at risk due to the need for certain state-of-the-art tools and equipment. This includes, but is not limited to, escape ropes, radios and re-bar Cutters. We urge the department to allocate additional funds specifically for equipment and tools upgrades. We also urge the Department to allocate funds for the purchase of a minimum of 10,000 additional CPR training kits to be distributed free of charge to the public. Smoke detectors and carbon monoxide detectors play a vital role in saving lives. Therefore, we ask that the Fire department allocate $100,000 for the purchase of 10,000 smoke detectors and $100,000 for the purchase of 10,000 carbon monoxide detectors that will also be distribeted to the public, free of charge. **Responsible Agency**: Fire Department	This request includes more than one proposal. We also ask that funding be provided so that the libraries may continue increase and expand their collections, and offer staff salaries that are comparable to those offered in surrounding cities. **Responsible Agency**: New York Public Library	NYPL is in favor of this project but added or restored City funding is required for all expense budget costs and any needed capital costs. In addition, funding assistance and attention is needed to initiate commercial revitalization and business retention activity along two other areas in the district that are beginning to show potential for developing into hubs of commerical activities; namely, the easterly side of Webster Avenue between East 188th Street and East Fordham Road and East 180th Street between Park Avenue and Southern Boulevard. **Responsible Agency**: Department of Small Business Services	Sponsor group should apply to agency through its funding process. All schools in our district are operating at or above 100% capacity, and some at 200% capacity. There was a prior consideration for schools at this location. The National Guard is looking for an alternative site and the Board believes that schools (Charter or Public) should be built at this location once they move. **Responsible Agency**: Department of Education **Council Districts:** 11, 14, 15 **Supported by:** Parents and residents Education advocates	Limited seat need has been identified in the area specified. The lack of maintenance is causing other quality of life problems, such as debris clogging catch basins, causing flooding on the parkway and encouraging more illegal dumping. **Responsible Agency**: Department of Parks and Recreation **Council Districts:** 11 **Supported by:** Residents along the parkway Green space advocates	Department of Parks and Recreation funds are insufficient for this project. The Grand Concourse is a Special Preservation District and the Board is working with the community for its revitalization. Additionally, Coles Lane does not have any lighting and is an unwelcoming area after sunset. 07	107201007C	**Request:** Design A Public Plaza at the Intersection of West Kingsbridge Road and Reservoir Avenue to Increase Green Space and Address Pedestrian Safety. **Explanation:** The safety of pedestrians attempting to access the current plaza at the aforementioned intersection is constantly at risk from speeding traffic due to the wide slip road going from West Kingsbridge Road to Reservoir Avenue. The Board requests that the slip road be narrowed by expanding the current plaza so that pedestrians have time to avoid oncoming traffic. In the process, more seating and green space should be added for neighborhood residents to relax.Note: the Board does not support the current DOT Public Plaza initiative because it requires a non-profit entity to maintain and provide liability coverage for a public street. Such criteria precludes public plazas from being created in economically distressed neighborhoods. **Responsible Agency**: Department of Transportation **Council Districts:** 11, 15 **Supported by:** Traffic safety advocates Senior citizen residents	Funds are unavailable for this project. The above mentioned intersections are especially prone to flooding and impassible to pedestrians, especially in the winter. This is a hardship to many residents on the south side of the parkway, especially our seniors, who rely on the stores and supermarkets on the north side of the parkway. **Responsible Agency**: Department of Environmental Protection **Council Districts:** 11 **Supported by:** Mosholu Bedford Residents Association Senior residents	Further study by the agency of this new request is needed. Vehicles turning onto E. 190th Street have to navigate both pedestrians and oncoming traffic from Creston Avenue, only to have to make a quick left turn to continue on East 190th. The Board recommends that the portion of East 190th Street between Creston Avenue and Fordham Road be converted to a pedestrian street with limited vehicle access during business hours. In reducing the width of the street, Muller Triangle can be expanded to accommodate more seating and green space for shoppers and residents. **Responsible Agency**: Department of Transportation **Council Districts:** 15 **Supported by:** Fordham Road BID Pedestrian safety advocates	Funds are unavailable for this project. 14	107201014C	**Request:** Create the Development of A Commuter Water Taxi Service at the Base of Fordham Landing, Near the University Heights Bridge, as an Alternative Means of Transportation to the East and West sides of Manhattan and to Yankee Stadium. **Explanation:** This location is already a transportation hub for the Bronx with access to the Major Deegan Expressway, the MetroNorth station, and the Bx12 bus. Additionally, commuters can easily access the 1,4 or A trains by bus or the Cross Bronx Expressway, the FDR Drive, and the Henry Hudson Parkway by car. A commuter water taxi service would ease congestion on the roadways and the subway services, as they are both already operating over capacity, and would provide express service with 20-40 minutes to points on both sides of Manhattan . 17	107201009E	**Request:** Provide Additional Personnel for HPD Inspections in Area Housing. **Explanation:** There are many community residents that do not live in quality housing because of non-compliance to housing regulations. The primary cause for this is not that complaints are not recorded by HPD, but the heavy reliance on self-certification for determining compliance.We request that HPD move away from relying so heavily on self-certification and hire additional enforcement personnel to deal with the large number of outstanding violations. **Responsible Agency**: Department of Housing Preservation & Development **Supported by:** Tenant advocacy groups Community residents	The agency will try to accommodate this issue within existing resources.
18	107201010E	**Request:** Increase the Number of Officers to Address Both Crime and Quality of Life Issues in the 52nd Precinct. **Explanation:** While residents have seen a consistent decrease in crime thanks to our 52nd pct., there are some indicators in CompStat that show certain crimes are on the rise. Additionally, residents perceive that the decrease in crime has come at the cost of addressing quality of life issues, which cannot be measured by Compstat, but are important indicators for determining how safe one feels in the neighborhood. The decision by the Mayor to cancel the academy class to balance the budget is inappropriate and unwise, as history clearly shows that such measures end up costing the city much more in the long run. We ask that the city reverse its decision to balance finances at the expense of safety by restoring the academy class and increasing the number of officers in our district. **Responsible Agency**: Police Department **Supported by:** Resident groups and associations Business groups and associations	NYPD's total uniformed staffing levels depend on decisions made in the Preliminary and Executive Budget process. Now community boards are asked to implement several cuts over the next few years in an attempt to balance the budget. The amount of savings garnered (less than 1/10000th of a percent) is miniscule in comparison to the overall city budget, but devestating to the day-to-day operations of the individual community boards. The City of New York
Michael R. Bloomberg, *Mayor*

REGISTER OF COMMUNITY BOARD BUDGET PRIORITIES

The Register of Community Board Budget Requests for the Preliminary Budget lists community board requests and reports agency funding recommendations for each request in the departmental estimates. The capital and expense budget estimates of proposed agency spending for the upcoming fiscal year based on the November financial plan comprise the departmental estimates.

As part of the Preliminary Budget process, the 59 community boards are asked to complete the following:

*** FY 2010 Capital Budget Requests and Priorities -** the boards request capital projects and assign priority numbers to each. Boards may submit no more than 40 capital priorities. In addition to the 40 numbered priorities, boards may submit 5 continued support priorities to confirm support for already funded projects.

*** FY 2010 Expense Program Requests and Priorities -** the boards indicate immediate service needs by submitting expense budget requests and assigning priority numbers to each. Boards may submit no more than 25 expense priorities.

*** Community Board Service Program Rankings for FY 2010 -** the boards indicate the general importance of current services. To obtain the analysis of the boards' rankings of current services, call (212) 788-5943 or email: siegall@omb.nyc.gov .

The Preliminary Register is released in January with other Preliminary Budget Documents. An Executive Budget Register is published with the Executive Budget in April. The Executive Register contains the same Board requests and priorities. OMB updates the responses since the Executive Budget is the Mayor's Budget.

A final Register is published after the budget is adopted. The Adopted Register contains responses that reflect the changes made to the Executive Budget by the City Council.

FORMAT OF THE REGISTER

The Register of Community Board Budget Requests is sorted into four versions: Community Board, Borough, Council and Agency. In all versions of the Register, each board's expense requests directly follow their capital requests. The requests are in board order.

LAYOUT OF CAPITAL BUDGET REQUESTS PAGES

Column 1: Priority Number

The priority assigned by a community board reflects the importance of that request as compared to its other requests. Boards may assign **Continued Support (CS)** to a project which received funding for construction in any year of the Financial Plan FY 2009 – 2013.

Column 2: Tracking Code

The nine digit identification number assigned to each community board budget request. Tracking codes are unique to each request and identify the borough, community district, year submitted, and request. The first digit refers to the borough, 1 = the Bronx, 2 = Brooklyn, 3 = Manhattan, 4= Queens, and 5 = Staten Island; the second and third digits indicate the district number. The fourth through seventh digits represent the fiscal year in which the project was first submitted and the last two digits are the request number. The letter C in the tenth space indicates a capital budget request.

Column 3: Project Information

Request: A brief description of the project.

Explanation: Supporting information detailing the project, and its potential benefits.

Responsible Agency: The City agency which would implement the project.

Council District(s): The City Council district(s) where the capital project is located.

Budget Line Number: The number assigned to a capital project that was previously funded or is included in any year of the Financial Plan FY 2009 – 2013.

PROJECT ID: The capital project identification number which allows projects to be entered into the City's computer tracking system. The number of the managing agency and the project identification number make up the **PROJECT ID** of the project.

Source of Request: Any group(s) which support the request.

Column 4: Response

The Preliminary Budget recommendation for each budget request, provided by the responsible agency.

LAYOUT OF EXPENSE REQUEST PAGES

Column 1: Priority Number

COMMUNITY BOARD BUDGET PROCESS

The FY 2010 Register contains community board budget requests and agency funding recommendations. It is the charter mandated product of a dynamic and cyclical budget process which includes public testimony, written input about community needs, and consultations with city agencies that deliver local services.

At consultations with city agencies boards discuss community needs, agency policies and fiscal constraints. The consultation format in each borough is individualized to meet the needs of the community boards. The FY 2010 consultations consist of three different formats:

- **Individual 25 Minute Meetings-** District consultations in the spring followed by borough consultations in September and October, at which a community board meets with up to ten consulting agencies at individual twenty-five minute sessions on a single evening. The boards bring their most pressing concerns to the attention of top level decision makers at each agency.

- **Group -** All interested boards in the borough meet together with an agency for an up to two hour consultation. Many agency expense budget decisions have borough and citywide ramifications which impact all the boards in a similar fashion. The boards submit a single agenda which covers areas of common interest. Board specific issues may also be included.

- **Individual Meetings - Capital Intensive Agencies** Boards meet individually in the fall with the three agencies which provide most of the capital projects in each district. The Departments of Environmental Protection, Parks and Recreation and Transportation each arrange separate meetings with each board. Boards and agencies have sufficient time to discuss the status of capital projects as well as expense budget service issues.

In September and early October, the FY 2010 borough consultations consisted of 218 individual and 28 group sessions.

The fourteen consulting agencies are: Departments for the Aging, Buildings, Children's Services, Economic Development Corporation, Environmental Protection, Fire, Housing Preservation and Development, Human Resources Administration, Homeless Services, Parks and Recreation, Police, Small Business Services, Sanitation, and Transportation.

During district consultations in the spring, community board representatives meet with the local service chiefs and other agency personnel.

In the fall, these same agencies meet with the community boards on a borough level using one of the three formats previously described.

PREPARING STATEMENTS ON THE PRELIMINARY BUDGET

The City Charter requires that community boards prepare written comments on the City's Preliminary Budget. The Community Board **Statement on the Preliminary Budget** is due one month after the release of the Preliminary Budget.

The Charter asks the community boards to send the **Statement on the Preliminary Budget** to the Mayor, the City Council, the Director of the Office of Management and Budget, the Borough President and each member of the Borough Board.

In your **Statement** to public officials, spell out board and community reactions to both specific funding recommendations for board budget requests and the City's overall spending priorities as shown in the Four-Year Financial Plan.

Use this **Statement on the Preliminary Budget** as the basis for testimony at the public hearings held by the City Council and Borough Boards.

Organize the **Statement on the Preliminary Budget** by agency so that your comments can be sent to the proper agency and OMB decision makers.

Chapter VII of the **Manual for Participation in the Budget Process** provides a detailed guide for developing your **Statement on the Preliminary Budget.** It also lists sources of information.

The following sources will also help you gather information regarding issues and needs specific to your district.

- **Register of Community Board Budget Requests for the Preliminary Budget** (agencies' funding recommendations in this document). Note whether the funding recommendations correspond to previous commitments made by the agencies.

- The **Capital Commitment Plan** charts capital appropriations, commitments, cash flow and implementation schedules and is now published in both a Citywide and community board version.

- The **Geographic Reports for the Capital and Expense Budgets** provide information on cost estimates of capital site-specific projects including appropriations and expenditures-to-date, and estimates of appropriations for local service districts' expense programs.

- **Testimony taken at the board's public hearing on the Preliminary Budget** will indicate community concerns about current service needs and priorities.

Review the following Citywide budget documents to determine how the City's fiscal plans and priorities impact your district.

- **The Four-Year Financial Plan** discusses the City's fiscal condition for the current year and the succeeding four fiscal years, comparing revenues and expenses, and the actions required to close budget gaps. Agency planned spending is detailed and required changes to program spending are described.

- **The Departmental Estimate/Preliminary Budget** contain proposed agency spending for the next fiscal year before any reductions due to the Program to Eliminate the Gap (PEG). Check allocations for individual projects requested by the community boards and items not included by the agency.

01	203198903C	**Request:** Reconstruct Nostrand Avenue from Flushing to Atlantic Avenues. **Explanation:** This has been a budget request since 1989. Nostrand Avenue is a heavily traveled thoroughfare, which crosses our district from North to South. The condition of this roadway is deplorable. It was scheduled to be reconstructed in 2004, and now it has been moved to 2014. The reason given at last inquiry is that DEP moved the money that was slated for this project from its budget to comply with Mayor's request for a 3% cut. That amount was $6 million and it seems a small amount to hold up this project yet again. Why is it always so convenient to put the capital projects for Community District 3 on hold? This appears to be gross disrespect and is totally unacceptable. The roadway needs to be repaired in this present budget. **Responsible Agency**: Department of Transportation **Council Districts:** 34, 36 **Budget Line:** HW-1129 **Project Id(s):** HWK1129	This project was funded in a prior fiscal year and the preliminary design contract has been let.
02	203200901C	**Request:** Install an Elevator at the Utica Avenue Subway Station (Fulton Street). **Explanation:** The Utica Avenue subway station is one of the major transportation hubs within the Bedford-Stuyvesant catchement area. This station connects the A" and "C: trains, the B25 and the B46 buses. It does not accommodate the elderly, the disabled, or parents with strollers. As the senior population continues to grow, we would like to afford them the opportunity to age in place. Bus delays, malfunctions of equipment (kneeling buses) and other obstacles force the ridership to wait inordinate amounts of time with no recourse. It is our understanding that this project is included in the five-year plan and we support it taking place within this five years without further delay to the next five year plan." **Responsible Agency**: Transit Authority **Council Districts:** 36	This request is not recommended for funding.

03	203200801C	**Request:** Rehabilitate Pulaski Park. **Explanation:** This Park/Playground is located in a vast residential community. With the Mayor's pledge that New Yorkers should not live more than a 10-minute walk to a park. This community is sorely in need of having this facility rehabilitated. There is a school here, row houses with young children and an expansive housing development on the other side. The park, because of its state of disrepair, has been closed for a number of years. As we strive to make our community safe and healthy, the parks in this City play an important role. 05	203200402C	**Request:** Rehabilitate the Sumner Avenue Armory for Community Use. **Explanation:** The development of the Sumner Armory for community use continues to be a top priority for Community District 3. This is a huge facility. While we appreciate the armory being used to shelter homeless males, it is our belief that it could serve a greater purpose to the community. Bedford-Stuyvesant has a large and growing population and there is no recreational/cultural facility within our boundaries. The Sumner Avenue Armory is a wonderful resource that should be used to meet that need, as well as a place to shelter those in need. **Responsible Agency**: Department of Parks and Recreation **Council Districts:** 36	Department of Parks and Recreation funds are insufficient for this project. 06	203200201C	**Request:** Fund The Establishment (Provide/Develop) an Assisted Living Facility for Seniors Within Bedford-Stuyvesant. **Explanation:** This request has been in our priorities since 2002. To date, we are still looking for an assisted living facility within Community District 3. Last year, the response was that the project is included in the ten-year plan. What exactly is the ten-year plan and where can we access it? This community has an increased need for affordable housing for our senior population. The elderly are losing their homes due to predatory practices, poor health and few or no family ties. If there were such a facility here in this Community District, our senior population would be able to age in place. **Responsible Agency**: Department of Housing Preservation & Development **Council Districts:** 36, 41	The agency will try to accommodate this issue within existing resources.

07	203200906C	**Request:** Enclose Marcy Pool to Make it a Year-Round Facility. **Explanation:** Once again, this is a wonderful resource in this community. The seasonal nature of it as an outdoor facility limits it being used to a fuller capacity. We have looked into how many recreational opportunities are within the confines of Community District 3 and find that they are non-existent. It is apparent that the resources are here, but they must be developed for the specific purposes of year-round recreation and culture. With adequate support for the possibility of projects like the Sumner Avenue Armory, a recreational facility at CS21 and the Marcy Pool, the quality of life in this community would be greatly enhanced for thriving and growing neighborhoods. **Responsible Agency**: Department of Parks and Recreation **Council Districts:** 36, 35, 41	Department of Parks and Recreation funds are insufficient for this project. We recommend this project be brought to the attention of your elected officials, i.e. Borough President and/or City Council member.
08	203200401C	**Request:** Reconstruct the Public School 5 Playground (820 Hancock Street @ Ralph/Howard) **Explanation:** This park is in the midst of a vast residential area. The park needs to have a new sprinkler system, major resurfacing of its grounds, fencing, benches and lighting. In compliance with the Mayor's statement that we all live within a 10-minute walk of a park, this park needs to be reconstructed. It is imperative that those living around this area be able to avail themselves of the convenience that a recreational outlet allows the families to enjoy. **Responsible Agency**: Department of Parks and Recreation **Council Districts:** 36	Department of Parks and Recreation funds are insufficient for this project. 09	203200904C	**Request:** Establish a Recreation Center in the Vicinity of CS21/Brevoort Housing Complex. **Explanation:** This area is the home of a major housing complex, residential homes, and a school. There are no accomodations for our youth to engage in positive past-times. Establishing a recreation center in this area will help to reduce the number of youth loitering without direction and provide much needed structure and a healthier environment. **Responsible Agency**: Department of Parks and Recreation **Council Districts:** 36, 41	Department of Parks and Recreation funds are insufficient for this project. We recommend this project be brought to the attention of your elected officials, i.e. Borough President and/or City Council member.
CS	203198026C	**Request:** Construct a Sanitation Garage in Community District #3 (S-186). **Explanation:** Community District 3 has been asking for this garage since 1980. This property was being litigated for the use of the site and the project could not be started. Those issues have now been resolved. Community District 4 requested a garage in 1982 and their request has come to fruition, while we continue to wait. Bedford-Stuyvesant needs to have its own sanitation garage, housed within our boundaries. This would provide greater services in less time. Since money is in place for design changes, we anticipate that additional funding will be available for the FY 2014 budget without further delays to this project being completed. **Responsible Agency**: Department of Sanitation **Council Districts:** 34, 36, 41 **Budget Line:** S-186 **Project Id(s):** S-186-224	This capital project is included in the agency's departmental estimates for the out years. CS	203200602C	**Request:** Rehabilitate the Von King Cultural Arts Center and Construct Additional Rooms to Accommodate its Growing Use. **Explanation:** The Von King Cultural Arts Center is well over 37 years old. All of its major systems are in need of upgrading. The sewer system for the past 10 years has constantly backed up, creating flooding in the theatre areas and other parts too. The electrical system can not handle the increasing need for power demands and the plumbing system needs upgrading. Because of the configuration and architectual design, there is a great deal of space not utilized. We would like the Department of Parks and Recreation to reconstruct this cultural center to utilize more space for the growing demands on this facility. **Responsible Agency**: Department of Parks and Recreation **Council Districts:** 35, 36, 41 **Budget Line:** P-D017, P-D017 **Project Id(s):** P-203C17P, P-203D017, P-203D17E	This is a Department of Parks and Recreation project with prior, current, and/or expected future year commitments. 01	203201006E	**Request:** Continue to Fully Fund Community Board 3. **Explanation:** Community Boards play crucial roles in their districts. Last year, working with CPC, Community Board 3 completely rezoned Bedford-Stuyvesant South. As a board, we have been working tirelessly with our local elected officials and especially with Councilmember Vann on his Safety Task Force along with NYPD toward establishing a crime-free community. We have estabished new merchant associations along our commercial strips, FNUMA, TAMA, and SOLA. We monitor development and hold them to appropriate standards. We offer the community an opportunity to comment and input on the budget process. We keep our communities informed. We canvas the area to help the City define the needs of this community. Finally,311 cannot do the follow-up on complaints that the boards offer to residents. **Responsible Agency**: Office of Management and Budget	The community board budget will be reduced in FY 2010.
02	203200902E	**Request:** Increase the Number of Inspectors for Housing Code Compliance. **Explanation:** Bedford-Stuyvesant continues to be developed at a rapid pace, especially in the south. It is imperative that the Department of Buildings have sufficient staff to inspect new and existing structures. The Community Board gets numerous complaints about contractors violating the guidelines set forth by DOB, (i.e., working without proper permits, changing building facades upon completion, not complying with original plans, etc.). A watchful eye must be kept to ensure developers remain compliant with building codes. Developers must be held accountable for all phases of construction development even after projects have been completed be compliant. **Responsible Agency**: Department of Buildings	The agency will try to accommodate this issue within existing resources.

03	203200502E	**Request:** Hire Additional Manpower for Sanitation Enforcement. **Explanation:** Community District 3 must be maintained as a clean environment for its residents. With construction projects continuing in our district, the dumping has increased. Vacant/abandoned properties are the constant sites where construction debris is being left. This includes vacant lots and even at parks. On the commercial strips, merchants do not comply with carting regulations and leave debris at litter baskets or in front of other properties; and finally, curb your dog regulations are not being enforced. All of this creates an unhealthy and unattractive environment. With additional enforcement officers, we can keep this area clean and show offenders that laws have been created to be benificial to the area and cannot be disregarded by anyone. **Responsible Agency**: Department of Sanitation	The agency will try to accommodate this issue within existing resources.
04	203201001E	**Request:** Fund the Re-Institution of Root Slicing Throughout the Community. **Explanation:** The Department of Parks and Recreation no longer does root slicing. Trees that were planted many years ago, are mature and the roots are interferring with the sewer pipes, lifting the sidewalk, displacing the curbs and in some cases buckling the roadway. Homeowners are now being told they are responsible for these damages. This community is home to elderly persons on fixed incomes and they do not have the financial means to make the necessary corrections. The trees are New York City Trees and in most cases, the owners did not request them. Since the owners cannot get rid of a tree if they are unable to bear the financial burden, provisions should be made to have the proper actions taken by the City. **Responsible Agency**: Department of Parks and Recreation	This request is not recommended for funding.

05	203201002E	**Request:** Provide Funding for Additional Staff for Manual Sweeping Within the Confines of Bedford-Stuyvesant. **Explanation:** Since there has been manpower deployed to manually sweep certain sections within the community, it is noticeable how much cleaner these areas are. Hand broom personnel out in the street assist with keeping our corners clean, stop trash from gathering at the catch basins and prevent pooling at the corners during heavy rains. In addition, they prevent garbage from being washed down into the sewer and eliminate the foul orders emanating from the catch basins. It would increase the level of cleanliness throughout the community if there were enough personnel to do all of the sections and not just a selected area. **Responsible Agency**: Department of Sanitation	The agency will try to accommodate this issue within existing resources.
06	203200910E	**Request:** Increase Funding for Cultural, Arts and Music Programs in Our Schools. **Explanation:** The lack of funding for arts and cultural programs in our schools is paramount among the concerns of Community Board 3. We must look to other municipal entities to bring support to the children in our schools in areas such as music, dance, filmaking and art. Programs that enhanced the curriculum in years past now lie dormant. Any pipelines into the schools in terms of grants must give preference to underserved communities such as Bedford-Stuyvesant. Pilot projects in Districts 16 and 13 would pave the way for future funding. **Responsible Agency**: Department of Education	Starting in FY 2007-2008 funding for arts is now at the discretion of the school's principal.

07	203200911E	**Request:** Fund Additional After-School and Extended Day Programs Within our Public Schools. **Explanation:** Each school should have after-school or extended day" programs, in addiiton to cultural and recreational programs. There need to be tutoring and anti-violence counseling that are mandatory, especially in elementary schools. In the middle schools, there should be emphasis on preparing students for high schools and special focus on test preparation for specialized high schools." **Responsible Agency**: Department of Education	The 2005 teacher contract extends the school day to accommodate added tutoring. Also,under the Supplemental Education Services (SES) program, free tutoring is available for pupils in many Title I schools who qualify for free lunch. More after school programs are provided by the DYCD.Added funds,allocated to schools in SY08-09, can be used for added afterschool programs at the discretion of the principal.Our website has more information http://schools.nyc.gov/AboutUs/BudgetsFairStudentFunding/ContractsforExcellence/default.htm or http://schools.nyc.gov/Aboutus/../FundingAllocations/default.htm.
08	203200912E	**Request:** Fund Increased Technological Capacity in CB 3 Public Schools. **Explanation:** In 2003, the NYS Court of Appeals, ruling on the Campaign for Fiscal Equity, found the following elements germane to a sound basic education": high quality teaching, small class size and adequate instrumentalities of learning such as adequate supplies, textbooks, libraries and computers. These elements reflect some of our highest priorities for the improvement of our public schools in Dists 16 & 13 which cover the major portions of Comm. Dist 3. The latest data from the Dept of Ed indicate that many of our schools are still falling behind, when measured by Fed and NYS standards. Yet, the schools in Bed-Stuy often lack the tools to provide the "sound basic education" as described. We hope that under the new Contract for Excellence, the fundamentals will be fully addressed." **Responsible Agency**: Department of Education	Added funds were allocated in FY 08-09 from monies saved in central areas as part of Children First reforms and Contracts for Excellence. These funds primarily support lowering class sizes and an increase in teachers. More information at http://schools.nyc.gov/AboutUs/BudgetsFairStudentFunding/ContractsforExcellence/default.htm and http://schools.nyc.gov/AboutUs/BudgetsFairStudentFunding/FundingAllocations/default.htm. 09	203200914E	**Request:** Continue Funding for Obesity Prevention and Outreach Programs. **Explanation:** Health Department studies continue to show an increase in obesity in the United States. 29% of adults in Central Brooklyn are obese, that is 3 in every 10 persons. Obesity can lead to other health challenges, i.e., heart disease and diabetes. Due to the prevalence of obesity in this community, 95% of diabetes cases are Type II, which is strongly associated with obesity. The harmful effects of diabetes can contribute to high blood pressure and high cholesterol, which are major factors in heart disease. Bedford-Stuyvesant is one of the leading communities to be afflicted with these particular issues, caused by poor diet, lack of exercise and a lack of health insurance. **Responsible Agency**: Department of Health and Mental Hygiene	DOHMH will review and assess the request regarding this important health issue. However, the implementation for the requested service will be subject to the availability of the Department's limited funds.
10	203200903E	**Request:** Provide Funding for Programs for the Prevention of Predatory Practices. **Explanation:** As our economic climate grows even more tenuous, it is evident locally that predatory practices have become epidemic. Bedford-Stuyvesant has one of the highest foreclosure rates in this country. While local elected officials have continued to partner with local community groups to work on these issues, it is evident that more must to be done at the city level. Efforts must be coordinated with local groups to maximize the efficiency of services to those suffering with the impending loss of their home and with those who have already gone into foreclosure. The City, working with and funding community groups would do just that. People will readily go through community groups for needed assistance. **Responsible Agency**: Department of Consumer Affairs	The agency will try to accommodate this issue within existing resources.

The athletic field needs to be upgraded and have appropriate lighting that is specifically for the field itself instead of just the lights that are placed within the park. There is Little League Baseball through Inner City Sports that is hosted at this facility, along with other leagues. This is a wonderful outleft for our youth that teaches them about being responsible citizens within the larger community. Community board 3 would like to see this field updated for the growing population of youth here in Bedford Stuyvesant. **Responsible Agency**: Department of Parks and Recreation	Department of Parks and Recreation funds are insufficient for this project. We recommend this project be brought to the attention of your elected officials, i.e. Borough President and/or City Council member.
12	203201004E	**Request:** Create a Program to Assist Small Business with a Matching Salary Grant within NYC. **Explanation:** Small community businesses are a major asset in the economic growth of a neighborhood. However, merchants with small businesses are hard pressed to hire and keep qualified staff because they are unable to meet the competitive salary needs. These institutions need committed staff to operate at a level of effiiciency that affords them the ability to provide needed services to the community at large. With the economy being strapped, it is difficult for businesses to maintain reliable staff. A matching salary grant would off-set the deficit in salary and attract more qualified and experienced staff persons. As our economy continues to be in dire straits and the cost of utilities escalates, proprietors cannot keep lights on at night. The lights offer consumers passing by after hours a chance to see what the business has to offer, as well as deter burglaries. An increase in funds will be used to fund the hiring of a planner, to keep pace with cost of living adjustments which have never been applied to Community Boards, to upgrade complaint systems software which was previously supplied and supported by prior Administrations and to expand District Office functionality with the purchase of additional equipment and supplies. 02	206200404E	**Request:** Restoration of Police Patrol Strength Personnel. **Explanation:** Sufficient funds are requested to recruit and retain police partol strength to safeguard the impressive strides in public safety over the past decade. Historically, as crime decreases and budget pressures increase, police staff suffers which begins the downward spiral of public safety and increasing crime. Maintaining a strong police force is even more necessary in the aftermath of 9/11 to ensure public safety and restore a high degree of confidence in keeping and attracting residents, businesses and tourists to the City - all essential to the City's economy. Over the past few years we have seen a dramatic decrease in the size of the police patrol strength at the precinct level and this has the community most alarmed. **Responsible Agency**: Police Department	NYPD's total uniformed staffing levels depend on decisions made in the Preliminary and Executive Budget process. Overflowing litter baskets create additional work for the department in discretionary cleaning, contributes to the clogging of catch basins, and results in the unfair issuance of summonses to victims of the strewen litter. 01	208200701E	**Request:** Increase Funding for Community Boards. **Explanation:** The 59 Community Boards are vital in the City's operating process. However, Community Boards still woefully lack adequate funding. Community Boards need to be able to hire planners and other skilled professionals to evaluate development projects. The meager budgets provided for the boards do not keep pace with inflation and any increased operating costs. The costs for acquiring much needed newer technology, computer software, upgraded hardware as well as internet/web access capabilities is expensive. In order to continue delivering the most valuable mission per the 1989 revised City Charter, we staunchly advocate for increased budget allocations for all Community Boards. **Responsible Agency**: Office of Management and Budget	The community board budget will be reduced in FY 2010.

01	212198023C	**Request:** Demolish and Reconstruct a New 66th Precinct Station House on the Footprints of Same. Acquire the Air Rights Over the Long Island Railroad to House Trailers Which Can Then Be Used, After Construction, as a Parking Lot for the New 66th Precinct. **Explanation:** Although some construction has occurred at the Precinct, these modest renovations are only band-aid in nature. Much more is needed to improve working conditions. Good working conditions are conducive to fostering good police work. Additional space is needed to house police officers and civilians and can only be accomplished by demolishing the present site and building a new state of the art Precinct. Money saved by not having to acquire land will pay for a new building. There is no available land, private or City owned, in this district. Air rights over the LIRR can be used to house trailers during demolition and construction and then be used as a parking lot for personnel. These plans and the start of ULURP applications must begin ASAP. **Responsible Agency**: Police Department **Council Districts:** 39 **Budget Line:** PO-194 **Project Id(s):** PO194-001 **Project in Coordination with:** Department of Design & Construction **Supported by:** Community organizations and groups in CB12 District	This project is included in the ten-year plan.

02	212201001C	**Request:** Fund Daily School Pickups for Private Schools. **Explanation:** Community Board 12 has over 300 Private Schools serving approximately 180,000 children. The District has 16 Public Schools which serve approximately one third of the total enrollment of the Private Schools. Public School attendance is dwindling in this District while Private School enrollment has increased. Most of these Private Schools have year round lunch programs with perishable foods. Private Schools only receive two pickups a week while the Public Schools are picked up daily. Private Schools are experiencing sanitary problems because gabage must be contained inside the building over weekends and for days at a time - causing rodent problems and health problems. This is an issue of great concern which must be addressed.. **Responsible Agency**: Department of Sanitation **Council Districts:** 38, 39, 45, 40, 44 **Supported by:** All Private Schools	The Department of Sanitation is in the process of evaluating the need and feasibility of this request.
03	212200808C	**Request:** Build a Sound Barrier in Back of the Annex Lot Which Will be Used as a Parking Lot for BK12 Trucks. **Explanation:** With the Annex building already demolished for the intended use of this now vacant lot for parking trucks, it is imperative that a sound barrier be built in back of this lot which abuts the private homes on Dahl Court. We have been inundated with complaints concerning noise and pollution from these trucks in the early morning hours when trucks are revving up. Many of these homes were purchased when the Annex was still on this lot and all trucks were housed there. Homes are expensive and owners put a lot of money into them. They were not aware that the Annex would be demolished and the lot would be opened for parking of Sanit. trucks. Without this sound barrier, noise pollution will become a major problem and will greatly affect the quality of life for these homeowners. **Responsible Agency**: Department of Sanitation **Council Districts:** 44	This capital project is included in the agency's departmental estimates for FY 2010. 04	212200501C	**Request:** Construct New Sewer Lines on 11th Avenue from 50th to 60th Street and on 14th Avenue from 45th Street to 55th Street. **Explanation:** During heavy rains, water backs-ups into the basement of homes causing extensive damage. Sewer lines are too small as well as ancient and cannot accommodate heavy rains, thus causing flooding into basements. Flooding occurs on an ongoing basis along these strips causing financial strain to the homeowners. This flooding has occurred over the last several years. Most complaints have been registered with 311. **Responsible Agency**: Department of Environmental Protection **Council Districts:** 39, 44	Further study by the agency of this new request is needed. A study must be done to evaluate what type of traffic devices can be installed to make the situation safer and calmer. **Responsible Agency**: Department of Transportation **Council Districts:** 44 **Supported by:** Kensington Preservation Org. 07	212200906C	**Request:** Install Traffic Light with Two Red Arrows (One Turning Right - One Turning Left) on 13th Avenue and 60th Street Facing Southbound Traffic Coming from 61st Street. **Explanation:** Thirteenth Av. which is two lanes from 37th to 60th Street goes one-way southbound and ends one-way at 60th St. On 13th Ave from 60th to 61st Street and so on, traffic flows in two directions, north and south. The northbound traffic ends at 60th and motorists must turn left or right on 60th St.A Do Not Enter" Sign on the left hand side of 60th and 13th Avenue. is often knocked down by truck traffic. Thus, motorists are unaware that they cannot continue on 13th Ave going toward 59th St. There have been several accidents and near accidents due to cars traversing the wrong direction. 08	212200702C	**Request:** Remove Bocci Court at Brizzi Park and Make This Park a Comfort Station Park/Maintenance Area. **Explanation:** The Bocci Court at this location is never used and because there are a number of homeless that use this Park, especially at night, the Court is used as a urinal and for defecation by the homeless. This Park is used by many children including those in a nearby school for children with autism. This Bocci Court is not conducive to a safe or healthy environment for those using the Park, especially children. As new families have moved into the area, this playground has become very popular. This Park needs to be made into a Comfort Station Park/Maintenance area which is staffed with full time personnel. This would greatly benefit the entire neighborhood and at the same time, allow the site to be a fixed post playground. **Responsible Agency**: Department of Parks and Recreation **Council Districts:** 39 **Supported by:** Shema Kolainu - Hear My Voice School for Autism Council of Neighborhood Org. 09	212200601C	**Request:** Construct Public Restrooms in Playground Area of Col. Marcus Park - East 5th Street. **Explanation:** Numerous children and adults must cross East 5th Street to go to the other side of the Park in order to use the restrooms. This is a highly trafficked street and with a high volume of pedestrian traffic going back and forth to use the restrooms on the other side, a safety problem has been created. A restroom, especially for the children using this park, is an essential to this playground. This past year, more and more children and adults have been using the Ballfield. The need for a restroom inside the playground has become imperative and with the crossing back and forth of pedestrians, this has become a major safety issue for all. **Responsible Agency**: Department of Parks and Recreation **Council Districts:** 44 **Budget Line:** P-1058 **Project Id(s):** P-2121058 **Supported by:** East 5th Street Block Assoc. Cars get flat tires, etc. This is a dangerous situation which must be corrected. **Responsible Agency**: Department of Transportation **Council Districts:** 39 **Supported by:** Church Avenue Merchants	Capital funding constraints, project capacity and City-wide priorities preclude this project at this time.
12	212198903C	**Request:** Improve Traffic Signals on Ocean Parkway and Enhance Them Both on the Main and Service Roads. **Explanation:** State of the art traffic controls must be implemented on Ocean Parkway to insure smooth traffic flow. Innovative/creative measures must be taken to enjoin motorists from committing traffic violations at all well known accident-prone locations. A complete renovation of traffic signals must be implemented. Turn signals for the turning lanes must be provided from Beverly Road to Avenue P, in both directions, and studies should be done to see if the service roads along Ocean Parkway warrant traffic signals. **Responsible Agency**: Department of Transportation **Council Districts:** 39, 40, 44	Requests for new traffic signals should be directed to the respective NYCDOT Borough Commissioner. 13	212200602C	**Request:** Construct a Pedestrian Overpass on Ocean Parkway and Church Avenue and/or Open Up the Underground Tunnel Which Has Been Sealed Under this Roadway. **Explanation:** This intersection, especially for senior citizens, is a nightmare for pedestrians to cross. Pedestrians can stand for light after light before they can cross and cannot traverse the entire crosswalk. Most must get to the Ocean Parkway Mall and then wait again for light after light to traverse the rest of the way. This is a matter of public safety. Area residents state that either an overpass or underground tunnel would be heavily used by pedestrians as it is now impossible to cross Ocean Parkway without having to wait for long periods between lights to get to the other side. This crossing is especially hard for senior citizens. **Responsible Agency**: Department of Transportation **Council Districts:** 39	This request is not recommended for funding.

It must be put into other uses. The new playground in the Park has become a mecca for children and draws families from all over the district. The older children must travel to Manhattan to use skating facilities whether it be roller skating or ice skating. Converting this hockey rink would draw more and more kids from the neighborhood and would serve as a constructive outlet for these older children/young adults. **Responsible Agency**: Department of Parks and Recreation **Council Districts:** 38, 40, 45, 39, 44 **Supported by:** Neighborhood organizations	Department of Parks and Recreation funds are insufficient for this project. A state of the art spray system is also needed for the many young children who are there daily in the summer. We recommend this project be brought to the attention of your elected officials, i.e. Borough President, Council/Assemblymember, or State Senator.
08	217200521E	**Request:** Increase Funding for New Sanitation Enforcement Police Personnel. **Explanation:** Illegal dumping is on the increase in Community District 17. 10	217200523E	**Request:** Continue Five-Day Pick-Up at Schools. **Explanation:** The accumulation of garbage at schools contributes to rodent infestation in the vicinity of the schools. Additionally, this creates a health hazard for the students and faculty. **Responsible Agency**: Department of Sanitation	This program is currently funded and the Department of Sanitation recommends its continued support.
11	217200513E	**Request:** Continue Funding Regular Cleaning and Maintenance of Parks. **Explanation:** Funding will increase the Park's personnel and maintenance of the Parks in Community District 17. **Responsible Agency**: Department of Parks and Recreation	Department of Parks and Recreation funds are insufficient for this project. We recommend this project be brought to the attention of your elected officials, i.e. Borough President and/or City Council member.
12	217198801E	**Request:** Hire Additional Police Officers for Deployment in the 67th Precinct Area. **Explanation:** The incidence of crime has risen. 17	217198424E	**Request:** Allocate Funding for the Revitalization of the Church and Nostrand Avenues Business Areas. **Explanation:** Nostrand Avenue, between Linden Boulevard and Synder Avenue and Church Avenue, between Brooklyn and Rogers, form a very active business community whose hub contains the IRT Church Avenue Station and two major bus lines. We urge funding for proposals to be submitted by its sponsor, Erasmus Neighborhood Federation. Please assist the merchants in their efforts to form a BID. **Responsible Agency**: Department of Small Business Services	Sponsor group should apply to agency through its funding process. Call DSBS for more details.
18	217200701E	**Request:** Acquire Property (Lease or Purchase) for another Police Outpost within Community District 17 preferable a location in East 90's. There are several vacant properties in the area that can accommodate a police outpost. **Explanation:** There is a great need for another outpost in Community District 17. The 67th Police Precinct provides coverage for 99% of Community District 17. Traffic congestion when responding to emergencies in the East 90's could affect the response time. **Responsible Agency**: Police Department	This is not recommended for funding because it is not an efficient use of resources to open a new police precinct or substation. To establish an additional precinct requires splitting personnel resources (including additional administrative positions) between the existing precinct and the new precinct. Consequently, the net effect may result in a reduction of officers available for patrol in the precinct because the new facility would require adequate administrative and support staff.
19	217200901E	**Request:** Increase the Rugby Branch Library's Operating Budget **Explanation:** More computers and reading material are needed in order for this library to provide the much needed service to the after school children. Additonally, the library is in need of shelving. **Responsible Agency**: Brooklyn Public Library	BPL supports restored and/or increased library funding to allow for additional hours and days of service, the purchase of books and other library materials and improved maintenance of its facilities.

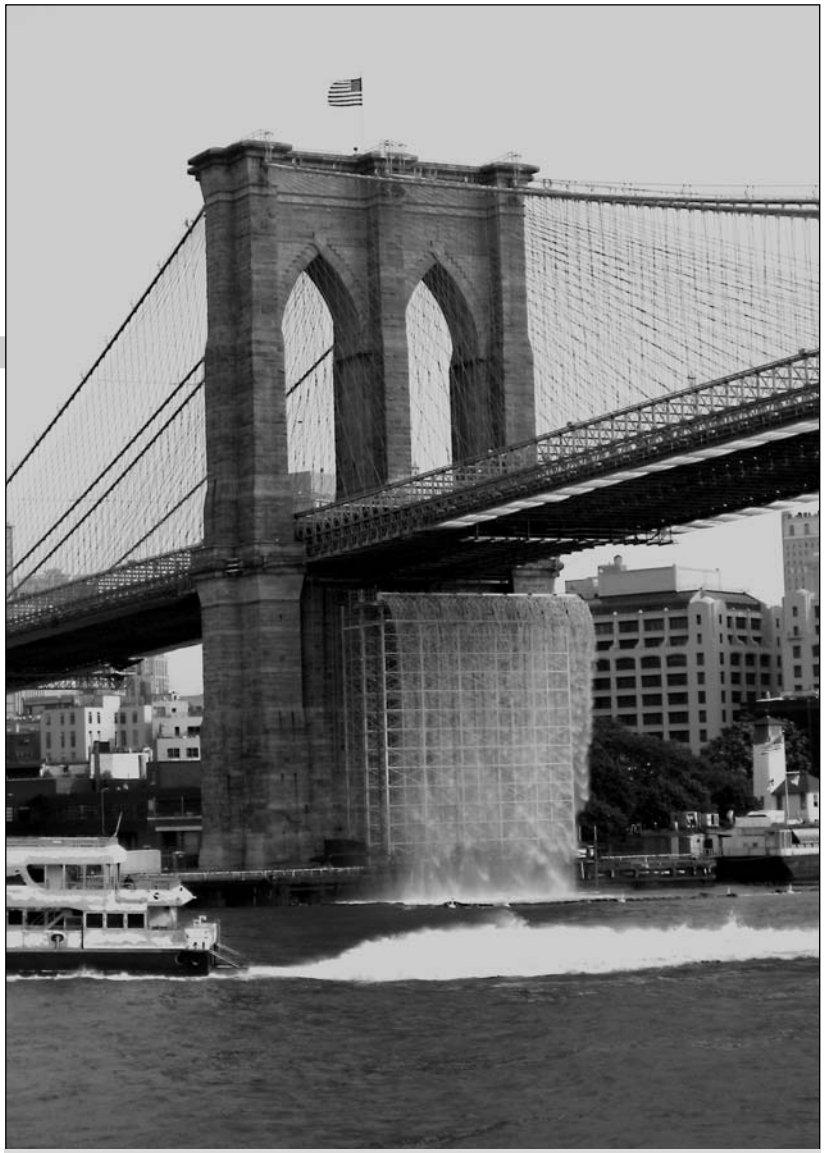
Register of Community Board Budget Requests

For The Preliminary Budget
Fiscal Year 2010

Manhattan



The City of New York
Michael R. Bloomberg, *Mayor*

REGISTER OF COMMUNITY BOARD BUDGET PRIORITIES

The Register of Community Board Budget Requests for the Preliminary Budget lists community board requests and reports agency funding recommendations for each request in the departmental estimates. The capital and expense budget estimates of proposed agency spending for the upcoming fiscal year based on the November financial plan comprise the departmental estimates.

As part of the Preliminary Budget process, the 59 community boards are asked to complete the following:

*** FY 2010 Capital Budget Requests and Priorities -** the boards request capital projects and assign priority numbers to each. Boards may submit no more than 40 capital priorities. In addition to the 40 numbered priorities, boards may submit 5 continued support priorities to confirm support for already funded projects.

*** FY 2010 Expense Program Requests and Priorities -** the boards indicate immediate service needs by submitting expense budget requests and assigning priority numbers to each. Boards may submit no more than 25 expense priorities.

*** Community Board Service Program Rankings for FY 2010 -** the boards indicate the general importance of current services. To obtain the analysis of the boards' rankings of current services, call (212) 788-5943 or email: siegall@omb.nyc.gov .

The Preliminary Register is released in January with other Preliminary Budget Documents. An Executive Budget Register is published with the Executive Budget in April. The Executive Register contains the same Board requests and priorities. OMB updates the responses since the Executive Budget is the Mayor's Budget.

A final Register is published after the budget is adopted. The Adopted Register contains responses that reflect the changes made to the Executive Budget by the City Council.

FORMAT OF THE REGISTER

The Register of Community Board Budget Requests is sorted into four versions: Community Board, Borough, Council and Agency. In all versions of the Register, each board's expense requests directly follow their capital requests. The requests are in board order.

LAYOUT OF CAPITAL BUDGET REQUESTS PAGES

Column 1: Priority Number

The priority assigned by a community board reflects the importance of that request as compared to its other requests. Boards may assign **Continued Support (CS)** to a project which received funding for construction in any year of the Financial Plan FY 2009 – 2013.

Column 2: Tracking Code

The nine digit identification number assigned to each community board budget request. COMMUNITY BOARD BUDGET PROCESS

The FY 2010 Register contains community board budget requests and agency funding recommendations. It is the charter mandated product of a dynamic and cyclical budget process which includes public testimony, written input about community needs, and consultations with city agencies that deliver local services.

At consultations with city agencies boards discuss community needs, agency policies and fiscal constraints. The consultation format in each borough is individualized to meet the needs of the community boards. The FY 2010 consultations consist of three different formats:

- **Individual 25 Minute Meetings-** District consultations in the spring followed by borough consultations in September and October, at which a community board meets with up to ten consulting agencies at individual twenty-five minute sessions on a single evening. The boards bring their most pressing concerns to the attention of top level decision makers at each agency.

- **Group -** All interested boards in the borough meet together with an agency for an up to two hour consultation. Many agency expense budget decisions have borough and citywide ramifications which impact all the boards in a similar fashion. The boards submit a single agenda which covers areas of common interest. Board specific issues may also be included.

- **Individual Meetings - Capital Intensive Agencies** Boards meet individually in the fall with the three agencies which provide most of the capital projects in each district. The Departments of Environmental Protection, Parks and Recreation and Transportation each arrange separate meetings with each board. Boards and agencies have sufficient time to discuss the status of capital projects as well as expense budget service issues.

In September and early October, the FY 2010 borough consultations consisted of 218 individual and 28 group sessions.

The fourteen consulting agencies are: Departments for the Aging, Buildings, Children's Services, Economic Development Corporation, Environmental Protection, Fire, Housing Preservation and Development, Human Resources Administration, Homeless Services, Parks and Recreation, Police, Small Business Services, Sanitation, and Transportation.

During district consultations in the spring, community board representatives meet with the local service chiefs and other agency personnel.

In the fall, these same agencies meet with the community boards on a borough level using one of the three formats previously described.

PREPARING STATEMENTS ON THE PRELIMINARY BUDGET

The City Charter requires that community boards prepare written comments on the City's Preliminary Budget. The Community Board **Statement on the Preliminary Budget** is due one month after the release of the Preliminary Budget.

The Charter asks the community boards to send the **Statement on the Preliminary Budget** to the Mayor, the City Council, the Director of the Office of Management and Budget, the Borough President and each member of the Borough Board.

In your **Statement** to public officials, spell out board and community reactions to both specific funding recommendations for board budget requests and the City's overall spending priorities as shown in the Four-Year Financial Plan.

Use this **Statement on the Preliminary Budget** as the basis for testimony at the public hearings held by the City Council and Borough Boards.

Organize the **Statement on the Preliminary Budget** by agency so that your comments can be sent to the proper agency and OMB decision makers.

Chapter VII of the **Manual for Participation in the Budget Process** provides a detailed guide for developing your **Statement on the Preliminary Budget.** It also lists sources of information.

The following sources will also help you gather information regarding issues and needs specific to your district.

- **Register of Community Board Budget Requests for the Preliminary Budget** (agencies' funding recommendations in this document). Note whether the funding recommendations correspond to previous commitments made by the agencies.

- The **Capital Commitment Plan** charts capital appropriations, commitments, cash flow and implementation schedules and is now published in both a Citywide and community board version.

- The **Geographic Reports for the Capital and Expense Budgets** provide information on cost estimates of capital site-specific projects including appropriations and expenditures-to-date, and estimates of appropriations for local service districts' expense programs.

- **Testimony taken at the board's public hearing on the Preliminary Budget** will indicate community concerns about current service needs and priorities.

Review the following Citywide budget documents to determine how the City's fiscal plans and priorities impact your district.

- **The Four-Year Financial Plan** discusses the City's fiscal condition for the current year and the succeeding four fiscal years, comparing revenues and expenses, and the actions required to close budget gaps. Agency planned spending is detailed and required changes to program spending are described.

- **The Departmental Estimate/Preliminary Budget** contain proposed agency spending for the next fiscal year before any reductions due to the Program to Eliminate the Gap (PEG). Check allocations for individual projects requested by the community boards and items not included by the agency.

01	301200702C	**Request:** Construct a new K-8 and high school in CB #1 **Explanation:** The dramatic growth in our residential population mandates that we create additional local schools to serve the children of our district. Approximately 13,000 new residential units came on line in Community Board #1 since 2000 and we are aware of over 7000 additional units slated for construction over the next two years. Lower Manhattan is by far the fastest growing residential community in New York City, and we need a new middle school to keep up with the rapid growth in the number of school aged children in Community Board #1. **Responsible Agency**: Department of Education **Council Districts:** 1 **Budget Line:** E-2362 **Project Id(s):** A00019953 **Supported by:** PS 234, PTA PS 89, PTA	This request includes more than one proposal. Funding for part is recommended. Contact the agency for specifics.

02	301198803C	**Request:** Construct a Lower Manhattan bus parking facility for commuter and non-WTC tour buses and a WTC memorial tour bus facility **Explanation:** It is estimated that well over a thousand buses bring commuters in and out of Lower Manhattan every day. In addition, hundreds of tour buses circulate through our streets, a number expected to grow with the development of the World Trade Center Memorial Museum in coming years. These buses contribute significantly to traffic congestion and pedestrian hazards. Community Board #1 strongly endorses the proposal to create a bus parking lot for buses at the Battery Parking Garage site. It's time to build a bus storage facility at this site and elsewhere to get the hundreds of non-WTC buses off our narrow, congested streets. **Responsible Agency**: Department of Transportation **Council Districts:** 1 **Supported by:** Alliance for Downtown New York Wall Street Rising	Bus parking is supported by NYCDOT, if developed in a manner that addresses community concerns and is sensitive to its surroundings. The requested project is under consideration by the Lower Manhattan Development Corporation, which would fund the proposed investment, if approved.
03	301200506C	**Request:** Renovate Peck Slip, Burling Slip, Titanic Park, Collect Pond Park, Battery Park playground, Pearl Street playground, DeLury Triangle, Barnett Newman Triangle and the northern part of City Hall Park, and proceed with the greening of Greenwich Street and the renovation and landscaping of two traffic islands located at the Manhattan approach to the Brooklyn Battery Tunnel **Explanation:** The creation of new and attractive parks is essential to the revitalization of Lower Manhattan. With the extraordinary growth in the residential population in Community Board #1, new and improved parks are essential. Each of these spaces should and must be funded and constructed. **Responsible Agency**: Department of Parks and Recreation **Council Districts:** 1 **Supported by:** Friends of Greenwich Street Tribeca Community Association	This request includes more than one project. Funding for part is already in place and/or work is underway or completed for certain portions. Contact the Department of Parks and Recreation for specifics.

01	301200701E	**Request:** Maintaining current community board operating budget and increase Community Board budget to $250,000 **Explanation:** The current allocation is woefully inadequate to address the rapidly increasing needs faced by our Lower Manhattan Community Board. Community Boards play a critical role in providing local residents and workers with a voice in determining policies and priorities for their community. An increase would greatly assist us in fulfilling our important mission, at this time when Lower Manhattan is being redeveloped and the many major construction projects are challenging the quality of life of our residents and workers. **Responsible Agency**: Office of Management and Budget	The community board budget will be reduced in FY 2010.
02	301199602E	**Request:** Increase personnel of 1st Pct. for quality of life issues such as bus idling, street vendors, crime, traffic enforcement, disruptive bars and clubs-related noise **Explanation:** Lower Manhattan has become a vibrant 24 hour community with a large and rapidly growing residential population. One of the effects of this growth is that residents often live adjacent to bars, nightclubs and other uses that disturb their quality of life. Additional coverage is needed at the NYPD to address this situation. **Responsible Agency**: Police Department **Supported by:** Tribeca Community Association Seaport Community Coalition	NYPD's total uniformed staffing levels depend on decisions made in the Preliminary and Executive Budget process. 09	301198608E	**Request:** Increase personnel for air /noise/ idling inspections (enforcement teams) **Explanation:** This enforcement is needed to address the large number of complaints generated late in the evenings and on weekends. Our district is often troubled by loud noise and smoke emissions during off-hours; these teams could provide needed relief. **Responsible Agency**: Department of Environmental Protection **Supported by:** Independence Plaza Tenants Association Noise, TCA	The agency will try to accommodate this issue within existing resources.
10	301199306E	**Request:** Increase funding of After School and Summer Youth and Recreation programs **Explanation:** As with our overall population, the CB #1 population of youth ages 19 and under has increased dramatically in recent years. There is heavy demand on our sole, free City-funded program, and it needs to be expanded. The limited DYS funded programs that do exist in CB #1 have not seen an increase in funding in many years. These services are vital to our community and funding must increase to adequately address the growing numbers of youths in the district. **Responsible Agency**: Department of Youth & Community Development **Supported by:** Independence Plaza Tenants Association Southbridge Towers, PS 89, 234 PTA's	Approval of this request depends on sufficient Federal/State funds.

13	301200201E	**Request:** Increase personnel for Parks Department maintenance **Explanation:** CB #1 has several heavily used parks including Battery Park, City Hall Park, Washington Market Park. New or improved parks are being created thanks to LMDC funding. With a fast growing population and many new parks, the Department of Parks and Recreation urgently needs increased maintenance for our local parks. **Responsible Agency**: Department of Parks and Recreation **Supported by:** Friends of City Hall Park Friends of Finn Square	The agency recommends funding this expense budget request in FY 2010, but at this time the availability of funds is uncertain.
14	301200202E	**Request:** Provide maintenance funds for East River bikeway/walkway **Explanation:** The NYC EDC constructed a bikeway/walkway along the East River. No provisions were ever made for the maintenance of this facility which has fallen into serious disrepair. An agency with the capability to properly maintain such a facility should be put in charge of the maintenance and we believe that the Parks Dept. is best suited for this job. We suggest that DPR take over maintenance responsibilities and that it be given additional funding for this task. **Responsible Agency**: Department of Parks and Recreation **Supported by:** Alliance for Downtown New York Seaport Community Coalition	Further study by the agency of this new request is needed. 15	301200903E	**Request:** Provide increased funding to support CERT teams in Tribeca and Battery Park City **Explanation:** The local CERT teams are an important component in the ability of our community to respond effectively and in an organized manner to an emergency situation. The recent fire at 130 Liberty Street has once again demonstrated the need for better planning for emergencies in Lower Manhattan. **Responsible Agency**: Mayor's Office of Emergency Management	OEM does not have funding to directly support or expand existing CERT Teams. The limited funding the agency has for CERT is set aside to create new teams in community districts that do not yet have one and provide programmatic support for existing teams.

To be Designed and Engineered in Accordance With the Community-Based Plan Developed by the Community Board 2 Co-Sponsored Greater Gansevoort Urban Improvement Project. **Explanation:** This was our number one budget priority in FY 2009. We are still waiting for an updated response from DOT. The Gansevoort Market area has seen significant changes in the past several years. DOT has implemented temporary public space and pedestrian safety measures in this area. Permanent improvements need to be implemented in keeping with the plan developed by the community. **Responsible Agency**: Department of Transportation **Council Districts:** 3	This project was funded in a prior fiscal year and the scope is now underway.

All of the schools in our district are currently well above capacity. This is a disservice to every student. It continues to be one of our highest priorities. CB 2 has long recognized that this is a difficult intersection of three streets caused by the widening of 7th Ave. many years ago. It is a dangerous intersection for pedestrian crossing particularly on the south side of 7th Avenue. **Responsible Agency**: Department of Transportation **Council Districts:** 3	Traffic Calming Device requests should be directed to the respective NYCDOT Borough Commissioner (B/C). The B/C will work with the community to access the need for, and the most effective location, type, and installation of traffic calming devices.
04	302201002C	**Request:** Allocate funds to Install Bicycle Parking on Sidewalk Extensions in Selected Street Parking Spaces Formerly Devoted to Cars. Locations: Hudson at Charlton/King;Grand at Varick & W Broadway; Prince at Mott; Lafayette at Spring & East 4th/Astor Place; 6th at West 3rd, Bleecker, W 9th & W 11th, Bank, Bethune, Jane and Gansevoort; Washington at Horatio, W 12th, Bank, Perry and Christopher Sts. **Explanation:** Bicycle use is steadily increasing in M2 with increased need for bike parking. Requested spaces can accommodate as many as 16 bikes and provide greater pedestrian safety. We request that before actually installing racks, at these locations or elsewhere, DOT should first check to ensure locations are not opposite food establishments that have sidewalk cafe licenses. In such cases, addition of bikes on sidewalk creates a bottleneck badly impacting flow of pedestrian traffic. **Responsible Agency**: Department of Transportation **Council Districts:** 1, 2, 3	This request includes more than one proposal. (This Action Should Be Coordinated With the Capital Phase of the 9th Avenue Pedestrian Project.) **Explanation:** The restoration of these streets would be in keeping with the historic nature of the area. The Gansevoort, Greenwich Street, Little West 12th Street convergence represents one of the few remaining artistically paved, large Belgian Block areas that can best be described as a New York City "Piazza". We are hoping to restore the Belgian Blocks where they are missing and/or damaged, to this historically important area. **Responsible Agency**: Department of Transportation **Council Districts:** 3	Temporary improvements have been made at this location until permanent improvements can be made.

08	302200902C	**Request:** Design and Build a New Playground at Hudson Street Between Houston Street and Clarkson Street Where a Water Tunnel Shaft is Nearing Completion. **Explanation:** The NYC Department of Environmental Protection purchased this lot for construction work associated with the Third Water Tunnel Project in anticipation that a new playground would be built there when the shaft is completed. 09	302200903C	**Request:** Design and Build a New Park at the Corner of Grand and Lafayette Streets Where a Water Tunnel Shaft Will Be Completed in Calendar 2008. **Explanation:** The NYC Department of Environmental Protection purchased this lot for construction work associated with the Third Water Tunnel Project with the anticpation that a new park woulkd be built there when the shaft is completed. This is an area of the City with intense traffic and commercial activity, as well as many residences, but no parks. 10	302200802C	**Request:** Fund the Installation of Two Pedestrian Ramps at Every Street Corner in CB 2. In addition, DOT Should Fund the Repair of Existing Pedestrian Ramps that are Unusable Because of a Degraded Condition or Because They are not Even with the Adjacent Street. **Explanation:** The Pedestrian Ramp Study completed by CB 2 in FY 2007 found that a high number of street corners in our district either do not have pedestrian ramps or have ramps that are unusable. We recognize that DOT has allocated funds to install pedestrian ramps citywide (pursuant to the settlement of a lawsuit), but the agency should expedite this project. It is grossly unfair that people who use wheelchairs are not able to navigate City streets as efficiently as everyone else. In addition, we feel that DOT should repair existing ramps that are currently unusable and, if necessary, bill the property owner, if they are the responsible party. **Responsible Agency**: Department of Transportation **Council Districts:** 1, 2, 3 **Supported by:** Disabled-in-Action	Pedestrian ramps will be constructed at all locations citywide by NYCDOT over the next several years. Community boards have not had an increase to their operating budgets in nineteen years. Therefore, inflation has effectively been eroding our budgets during that period. The number of complaints coming into the CB 2 office has also increase significantly. It is unacceptable that this problem is recognized but not attacked in an effective manner. **Responsible Agency**: Police Department	NYPD's total uniformed staffing levels depend on decisions made in the Preliminary and Executive Budget process. Allocation of uniformed personnel is scheduled by the agency only after graduation of police classes from the Academy.
06	302200002E	**Request:** Fund to Create Assisted-Living Services for Moderate and Low Income Elderly Citizens Including Help with Shopping, Cleaning, Cooking and Other Everyday Functions. **Explanation:** Many seniors who strongly desire to remain independent and avoid institutionalization are hampered in their effort to live self-reliantly by the lack of a helping hand. Moreover, in a rental market where the ability of building owners to achieve substantial increases in income is often dependent on "turning over" apartments, the moderate incapacity of some elderly citizen may be used by some owners to leverage the removal of seniors from longtime domiciles and replace them with higher-paying tenants. For reasons of humanity and fiscal good sense, it is better to finance help for seniors who need it than to subsidize their residence in nursing homes. **Responsible Agency**: Department for the Aging	Funding was approved by DFTA for FY 2009 and the agency recommends continuing to fund this request in FY 2010.

07	302200003E	**Request:** Provide Funding for Development & Training for a Defibrillator Pilot Program to Increase Survival Rates Following Cardiac Arrest Incidents in Our Area. **Explanation:** The proposal would fund a pilot program to allow cardiac difibrillators to be made available in commercial establishments and residentia buildings in order to improve the very low (2%) survival rate now experienced in our area following cardiac arrest. The machines would be obtained and training offered by St. Vincents Hospital and the program would allow very rapid response to stabilize patients until EMS personnel arrive. Very often survival is decided by the number of minutes/seconds between onset and the administration of emergency care. The program would reduce the negative effect of NYC realities (i.e. heavy traffic, high-rise buildings with access problems, etc.) which are largely responsible for making our survival rate so poor. **Responsible Agency**: Fire Department	This request is not recommended for funding.
08	302200902E	**Request:** Purchase, Install, and Operate Portable Weight and Measuring Equipment (Scale) to Weigh Trucks in Lower Manhattan, Especially for Canal Street, Houston, and Broome Streets. **Explanation:** Currently, Manhattan has only one portable scale and it is used primarily near the George Washington Bridge. Meanwhile, numerous oversized and overweight trucks ride through Manhattan, especially near Canal Street on their way to the Holland Tunnel. While traffic enforcement is currently deployed there, they are handicapped through the lack of proper measuring equipment. These trucks damage Soho's Cast Iron District. **Responsible Agency**: Police Department	New equipment must be requested by the NYPD commanding officer. Vehicles are purchased on a replacement cycle. The Commanding Officer, Borough Commander and Chief of Patrol have input into the mix of replacement vehicles. Specific funding is unknown until budget adoption.

09	302201003E	**Request:** Allocate Funds to Increase Staffing Levels so the Landmarks Preservation Commision can Respond more Efficiently and Expeditiously to the Concerns and Needs of our Many Landmarked and Historic Areas. **Explanation:** A large part of CB2 is designated as historic or landmarked. This creates special needs that must be addressed by the LPC. We strongly urge the City to increase funding to this agency so they can more effectively address issues and concerns in a timely manner. **Responsible Agency**: Landmarks Preservation Commission	The agency will try to accommodate this issue within existing resources.
10	302200903E	**Request:** Allocate Funds to Increase Enforcement in CB 2's District (e.g. Traffic Policing Near the Holland Tunnel, Enforcement of Idling Engine Laws and Enforcement of Motor Vehicle Laws for Trucks). **Explanation:** It has been reported that the entrance to the Holland Tunnel has the highest concentration of particulate matter in the City. Consequently, it is imperative that the City make every effort to ensure the strict enforcement of motor vehicle laws in that area and throughout the district. **Responsible Agency**: Police Department	The agency will try to accommodate this issue within existing resources.
11	302200103E	**Request:** Fund a "Safe Space" Shelter Program for Homeless Transgender Individuals in the NYC Shelter System. **Explanation:** Transgendered individuals are special targets for abuse and violence within the shelter system as constituted now. Transgendered individuals require separate facilities. **Responsible Agency**: Department of Homeless Services	DHS is committed to accomodating all people in need and servicing all clients with understanding, dignity, and respect. The agency has recently instituted a shelter policy to ensure respectful treatment of transgender clients,starting at intake.

12	302200201E	**Request:** Allocate Funds to Support Underserved HIV Population Which Will Enable People Living With AIDS to Access & Maintain HAART. **Explanation:** Mindful support is needed by many with HIV-AIDS who utilize sophisticated drug treatments to inhibit virus production. Without support, many will neglect the regimen and defeat the effect of the treatment and worse, cause a resurgence of the virus in themselves in a resistant form impervious to treatments now available. **Responsible Agency**: Department of Health and Mental Hygiene	The NYC DOHMH currently funds a wide range of HIV/AIDS services. Availability of funds for particular projects is dependent on overall funding; given limited resources, increased funding would depend on additional Federal/State/City funds.
13	302200101E	**Request:** Fund an Adult Daycare Facility Program for Persons with Alzheimer's Disease Who Reside in Chinatown. **Explanation:** There are currently no daycare services for Alzheimer patients in the Chinatown area, thus causing premature nursing home placements. As Alzheimer patients fall back to their original language, daytime services must be provided in their original language when that language is other than English (e.g. Chinese). We recognize that DFTA was hired in the Alzheimer's Long Term Care Unit to assist with appropriate referrals, but we repeat our request for the creation of an Adult Daycare Facility Program. **Responsible Agency**: Department for the Aging	DFTA continues to support this request but doubts that the City will have funds available to assume this additional financial burden.

14	302200906E	**Request:** Allocate Funds to Hire Additional Enforcement Agents to Respond to the Growing Number of Noise Complaints. **Explanation:** Community Board 2 has the second highest number of noise complaints in Manhattan. The Department of Environmental Protection (DEP) should hire additional enforcement agents so they can do more than respond to a call made to "311." When a hot spot is identified, DEP should proactively send enforcement agents into the area to address the problem. **Responsible Agency**: Department of Environmental Protection	The agency will try to accommodate this issue within existing resources.
15	302201004E	**Request:** Allocate Funds to Hire Additional Enforcement Agents to Address Taxi Violations in CB2. **Explanation:** There are many areas in our district: the Meatpacking District, Bleecker Street area, SoHo, NoHo, Little Italy and Chinatown that attract a large amount of taxi traffic. There has been a proliferation of the illegal signs, necessitating the hiring of additional enforcement agents to address this problem. The additional hires may also be used to allow a return to certification of buildings by DOB inspectors rather than self-certification by building owners, and to allow for better enforcement of use regulations in our residential, commercial and manufacturing districts. **Responsible Agency**: Department of Buildings	The agency will try to accommodate this issue within existing resources.

21	303200812C	**Request:** Funding for a new Auxiliary Rescue Vehicle (APSU) vehicle which covers multiple precincts including Housing and Transit Districts. **Explanation:** The current Auxiliary Rescue Vehicle is a passenger van which is old and ill suited to carry personnel and equipment in a safe manner. A reliable new step van size truck, as they had in the past, that can carry adequate personnel and equipment will help the Auxiliary Police increase in size and thus be more active and better able to meet the requests by NYPD for services to the Community such as lighting and support of their ESU teams (Archangel, etc.). Past experience shows these trucks have a longer shelf life (25 years or more) and thus this will not be a re occurring request. **Responsible Agency**: Police Department **Council Districts:** 1, 2	The Police Department's Auxiliary Sections is comprised of volunteers whose members and equipment are utilized in supporting roles. Auxiliary officers are not trained in emergency response and rescue operations and are not qualified to operate Rescue vehicles. 03	306200901C	**Request:** Build an Adequate Number of Schools at the Appropriate Grade Levels from Pre-K to 12 to Meet the Needs of Community District 6. **Explanation:** The Community Board requests a comprehensive education construction plan throughout Community District 6. PS 116 is reported to be above 100% capacity, and other schools are near or above capacity. This condition is unacceptable. The anticipated school at the Solo property will only meet the increased demand created by the Solo units, so the current overcrowding will not be addressed. The Community District continues to add hundreds of housing units each year without the addition of school space for the increased number of residents. When residents find it necessary to relocate to find appropriate schools, property values fall. The city can no longer neglect the education needs of Community District 6. **Responsible Agency**: Department of Education **Council Districts:** 2, 3, 4, 5 **Budget Line:** E-2362 **Project Id(s):** A00019953 **Supported by:** School Construction Authority	Information on new housing projects is gathered from the Dept. of City Planning, Dept. of Buildings and the Dept. 18	306200702E	**Request:** Fund TEMIS (Technically Enhanced Medical Interpretation System) at Bellevue. **Explanation:** The Community Board requests that this program, which was funded for 2009, be baselined with respect to services at Bellevue Hospital. It is ineffective for the Community Board to be forced to continuously request funding for ongoing services. Please put this program into continuous operation. **Responsible Agency**: Health and Hospitals Corporation	Funding that supported the TEMIS Program was eliminated by the City Council in the FY 2009 Budget. 01	307200903C	**Request:** 1.Purchase of site and construction of a new K-6 public school in MCD7. **Explanation:** The formula used by Department of Education to calculate school capacity is faulty. It includes spaces never intended as classrooms,thereby overstating the number of students our schools can properly accommodate, and also sets class size goals greater than best practices as shown by current research. Average class size exceeds citywide and statewide averages. High school teachers have 150 students, compared to the national average of 89 students per teacher. The NYS Court of Appeals determined that "NYC classes in all grades were too large to provide students with an adequate education". A new elementary school must be constructed to address overcrowding. **Responsible Agency**: Department of Education **Council Districts:** 6, 8, 9	The capacity calculation in the Blue Book is based on the Annual Facilities Survey which is completed by Principals and identifies the size and use for each room in a building. The new capacity being created through the Capital Plan is one of several tools to achieve class size reduction. Another important tool is the Facility Realignment Strategies. In addition, maximum classroom capacities were reduced in the capacity calculation. The analysis to determine the need for new capacity is conducted annually to incorporate the latest, sustained housing and demographic trends in the plan.
02	307200601C	**Request:** 2. Acquisition of single room occupancy hotels. **Explanation:** Decent, low- cost housing is seen as an urgent need by CD7 senior groups, meals programs, clinical services, substance abuse rehab programs. Funding to acquire and rehabilitate for permanent housing at least two single room occupancy hotels (SROs) would help preserve this resource and provide affordable housing. The City could act directly, or through a recognized agency providing supportive housing. **Responsible Agency**: Department of Housing Preservation & Development **Council Districts:** 6, 8, 9	Further study by the agency of this new request is needed. 04	307201001C	**Request:** 4.The Sea Rail, Riverside Park. $300K **Explanation:** The sea rail in Riverside Park, which forms the railing between the riverfront promenade and the Hudson River between 72nd Street and 100th Street, is a unique feature dating from the Robert Moses era. The sea rail has suffered damage, including the loss of a major section at 93rd Street. As part of the Riverwalk project at the river between 83rd Street and 91St Street. The contractor will fabricate new sections of the sea rail for installation at that location. However, the contract for the Riverwalk does not include replacement sections at other locations. **Responsible Agency**: Department of Parks and Recreation **Council Districts:** 6, 9	Department of Parks and Recreation funds are insufficient for this project. 05	307200905C	**Request:** 5. In addition, in Manhattan Valley and between West End Avenue and Riverside Drive, the side streets are narrow and hilly. Haulsters, which are smaller than traditional sanitation trucks, are able to navigate these streets to remove snow removal and spread salt. Full reconstruction is needed to improve drainage, replace catch basins that do not meet current standards, increase the curb reveals, and repair unsafe medians affected by subsidence. 07	307200904C	**Request:** 7. Security Cameras for Wise Towers and Amsterdam Addition. **Explanation:** Fewer police officers are patrolling NYCHA buildings due to a lack of personnel. Security cameras would address increasing problems such as: 1) graffiti, with the possibility of gang tags within urban art; 2) prostitution; 3) gambling; 4) homeless people in the buildings; and 5) drugs. 16 cameras are requested at Wise Towers (117 West 90th Street, 133 West 90th Street, 120 West 91st Street and 136 West 91st Street) and 2 cameras at Amsterdam Addition, 240 West 65th Street. 08	307200701C	**Request:** 8. West 72nd Street Pedestrian Ramp on West Side of the 72nd Street Tunnel, Riverside Park $950K **Explanation:** Reconstruct the concrete slab that supports the pedestrian ramp that is collapsing. Install a new asphalt ramp at a slope more accessible to the handicapped. The new ramp will extend to the north side of the running track. The work will require a new concrete retaining wall east of the running track so that the elevation of the entire path can be raised. Install a new handrail. Reconstruct the drains on the west side of the tunnel. **Responsible Agency**: Department of Parks and Recreation **Council Districts:** 8	Department of Parks and Recreation funds are insufficient for this project. We recommend this project be brought to the attention of your elected officials, i.e. Borough President and/or City Council member.
09	307200511C	**Request:** 9. Increase funding for street resurfacing. **Explanation:** There are 193.6 lane miles of paved streets in CD7, slightly more than 10% of the lane mileage of all of Manhattan. In FY06, DOT expects to resurface approximately 8.3 lane miles. The huge increase in street cuts for utility work, including fiber optics and cable, has left CD7's streets in dire shape. Many blocks on Broadway, Amsterdam Avenue and Columbus Avenue have ruts as deep as 6 inches in the parking lanes near the curbs. It is not clear why these ruts are developing. It may be due to infrastructure work. Water and run off from restaurant garbage collects in the ruts, and festers. The pools of water are unsightly and a potential source of West Nile. **Responsible Agency**: Department of Transportation **Council Districts:** 6, 8, 9	The agency will try to accommodate this issue within existing resources.

The exterior restoration, consisting of fa×ade restoration and stage replacement, is currently budgeted at $2,160,000, not including design fees. The interior renovation, consisting of architectural renovation, electrical upgrades and water and sanitary upgrades, is currently budgeted at $525,000. CS	307200505C	**Request:** CS - Reconstruct West End Avenue from West 59th to 70th Street. **Explanation:** Construction of major buildings, repeated sub-surface utility work, an increase in traffic, and the proposed Solid Waste Management Plan (SWMP) use of the 59th Street marine transfer station are increasing the need to reconstruct the roadbed. The avenue was resurfaced in 2004 as part of the Riverside South mitigations, but CB7 believes this is a temporary solution and asks that 841HWM799, schedule for 2015, be retained in the Capital Commitment Plan, and moved to an earlier date as soon as Riverside Boulevard and new building construction in the area care complete. **Responsible Agency**: Department of Transportation **Council Districts:** 6 **Project Id(s):** HWM799	This capital project is included within an agency lump sum for the out years.

01	307200802E	**Request:** Maintain Community Board Budgets. **Explanation:** Community boards have not received a budget increase for non-personnel costs in more than ten years. Salaries increases, which are based on DC37 contracts, have not kept pace with inflation and no allowances have been made for merit increases. The proposed budget cuts for FY2010 will reduce board budgets by $25,000. MCB7 will have $1,100 in OTPS funding. At the same time, demands and costs have increased, and we anticipate city services will be reduced, further increasing demands for community board services. Board budgets must be maintained minimally at the Fiscal Year 2008 level. **Responsible Agency**: Office of Management and Budget	The community board budget will be reduced in FY 2010.
02	307201001E	**Request:** 2.Funding for a pilot program to see if senior center consolidation saves money and benefits seniors before a request for proposals is issued. **Explanation:** DFTA's new RFP would put every Senior Center in danger of being closed and would result in the loss of many effective community outreach and congregate programs. DFTA is dividing the city into regions, ignoring the neighborhood structures which have evolved. They are promising the same amount of money to each region as it currently receives, but the distribution will be different. It would mean that 210 centers could be funded, while 118 current centers could be eliminated. The elderly, who seek services and socialization close to home, would have to travel to take part in the programs they now find nearby. As they become more fragile and more socially isolated, they are less likely to receive any services. **Responsible Agency**: Department for the Aging	DFTA's RFP for senior congregate programs was released on November 3, 2008. The Department is seeking innovative proposals for senior center services which respond to health and wellness needs of older adults in the community.

03	307199502E	**Request:** 3. Restore Funding for After-School Programs in Public Schools and in Neighborhood CBOs in CD7. **Explanation:** After-school programs, aka out-of-school time (OST) programs, provide structured programs for children whose parents work and help many students stay at grade level in school, and out of harm's way. These programs are funded by cobbling together public and private dollars. In the summer of 2005, the City announced which programs would be funded under its newly restructured DYCD OST program. Our district lost funding for ten programs, a loss of over one million dollars. As a result, over 1,000 children are without after-school programs, including children in our public housing locations. Funds are needed for tutors, snacks, and transportation. **Responsible Agency**: Department of Youth & Community Development	Use the agency's application/RFP procedure. Contact the agency.
04	307201002E	**Request:** 4.Provide funding necessary to sustain current programs for (1) DFTA's senior centers and NORCs, (2) Space for after school and child care programs, and (3) Community Center programming. **Explanation:** NYCHA, provider of low-income housing for 180,000 families, 500,000 residents, in 340 developments, faces grim outlook with $195M deficit, resulting from decreased subsidies from Federal Government and State and City's failure to provide subsidies for NYCHA developments, construction of which they funded. Also, police services ($68M) are not reimbursed, and NYCHA is responsible $25M in Pilot payments to the City though most non-profits receive property tax exemptions. This funding crisis jeopardizes vital services provided to residents. CB 7 urges the City to convene a task force to address this structural deficit. **Responsible Agency**: Housing Authority	This request includes more than one proposal. 05	307201003E	**Request:** 5.Fully fund the new Case Management Services in order for them to perform their assigned tasks, or return the Case Management Services to the former agencies. **Explanation:** 2006 data indicates there are 20,511 individuals over 60 living in Board 7. One-third has incomes of less than $15,000; one-fourth has less than $10,000. New DFTA programs centralize services and remove local programs. Meals on Wheels are no longer being provided by local programs which have also provided five-day-a-week contact with someone who cared about the homebound. Formerly, the agencies preparing the meals were the ones with whom seniors made arrangements for delivery. Now they must go to a centralized Case Management Office to apply for the service. These are underfunded; originally the City was to fund the budget to allow 65 clients to one Case Manager. The actual number of service requests makes the current ratio 100+ to 1. The City has not increased the funding. **Responsible Agency**: Department for the Aging	DFTA continues to support this request but doubts that the City will have funds available to assume this additional financial burden.
06	307200901E	**Request:** 6. Youth employment programs **Explanation:** The new allocation formula for youth employment programs resulted in a significant funding loss for CD7. Currently, DYCD funds are targeted to the highest need neighborhoods and, for the most part, CD7 does not meet the criteria. CB7 recommends that that the public and private sectors address youth training and employment and develop programs to provide jobs in the local business sector. **Responsible Agency**: Department of Youth & Community Development	Use the agency's application/RFP procedure. 07	307200810E	**Request:** 7. LPC Personnel $50K/staff member **Explanation:** The increase in applications to alter designated buildings and the growing interest in presenting buildings worthy of designation to the Commission requires adequate staffing. Four additional staff members with expertise in preservation and research are needed. **Responsible Agency**: Landmarks Preservation Commission	The agency will try to accommodate this issue within existing resources.
08	307200910E	**Request:** 14. New signage **Explanation:** This includes signage around schools alerting motorists to slow down to 15 mph, signage for the Broadway Malls (STOP HERE ON RED) - with 8 proposed test locations to be suggested), and signs at every exit from arterial highways leading to/from Hudson River crossings (in our district - the Henry Hudson Pkwy) alerting motorists at exits (where this is their first entrance to NYC streets) that it is NYC law-No Right on Red. **Responsible Agency**: Department of Transportation	Traffic Calming Device requests should be directed to the respective NYCDOT Borough Commissioner (B/C). The B/C will work with the community to access the need for, and the most effective location, type, and installation of traffic calming devices.
09	307201004E	**Request:** 9.Full funding for outreach programs to increase Food Stamp usage. **Explanation:** Food pantries do not have enough food for those in need. They are currently only able to provide enough for three days a month for each family. Soup kitchens have new users every day. As farm surplus and federal funding has decreased, the numbers of hungry people have increased. It is more important than ever that the Federal Food Stamp funds be fully utilized. **Responsible Agency**: Human Resources Administration	The agency will try to accommodate this issue within existing resources.

10	307199111E	**Request:** 10. Horticulture personnel in CD7 $45K per worker **Explanation:** CD7 has 35.5 acres of parkland, in addition to Central and Riverside Parks, comprising six small parks, 11 playgrounds, and the Broadway Malls. 16 Parks personnel and 20 job training participants maintain this parkland. A horticultural assistant and assistant gardener are needed to provide gardening/horticulture, pruning, erosion control as well as for preservation of major capital restorations. **Responsible Agency**: Department of Parks and Recreation	The agency will try to accommodate this issue within existing resources.
11	307200813E	**Request:** 11. Funding for programs serving the victims of sexual violence. **Explanation:** Programs such as St. Luke's-Roosevelt Outreach to Victims of Sexual and Domestic Abuse have been developed to train volunteers to work with victims of sexual assault and domestic violence, but there are no City funds available to sustain them. Some programs have more than 100 volunteers who need training, administrative support, and supervision from paid staff. Volunteers provide the warm support needed by people suffering from trauma. **Responsible Agency**: Human Resources Administration	HRA requested and was allocated funding for the development of additional domestic violence programs. We continue to welcome proposals for domestic violence facilities as they are developed by service providers. However, acceptance of proposals is contigent upon available funding and other programmatic considerations. Please note that for safety reasons, individuals will not be referred to a domestic violence shelter located in their district.

12	307200803E	**Request:** 12. Additional Funds for Skilled Trades Personnel at Amsterdam Houses, Frederick Douglass Houses, Wise Towers and DeHostos. **Explanation:** NYCHA developments in CD7 have a significant backlog of repair requests in residents' apartments. Repairs are made when there are enough of them to warrant the issuance of a contract. Having skilled trades (plumbers, electricians, carpenters) who could asses the needs and do the work at these developments would result in timely repairs, a reduction of the backlogs and increased well-being for the residents. **Responsible Agency**: Housing Authority	Further study by the agency of this new request is needed. Contact the agency.
13	307200915E	**Request:** 13. Funding For Additional Child Care. **Explanation:** According to citywide statistics, families in CD7 are provided with adequate child care, including Head Start, day care and universal pre-k. However, the data is deceptive because it is based on districtwide average demographics rather than neighborhood specific needs. The need for subsidized child care, for children ages 0-5 years, through direct program funding or vouchers, remains high in CD7. Specifically Lincoln Square Neighborhood Center needs funding for a full day universal pre-k program. **Responsible Agency**: Administration for Children's Services	More information is needed from the community board before making a funding decision. The agency will contact the board.

14	307200911E	**Request:** 14. Increase the number of police officers in precincts and PSAs **Explanation:** The number of uniformed officers in our precincts and housing developments has been reduced to minimal levels (121 in the 20th; 127 in the 24th; and 128 in PSA6) due to redeployment to terrorism units, retirement, and inadequate recruitment. CB7 seeks an increase in the number of uniformed patrol officers to fully staff community policing, sector patrols, and special units estimated to be an additional 95 officers per precinct in CD7. **Responsible Agency**: Police Department	New equipment must be requested by the NYPD commanding officer. Vehicles are purchased on a replacement cycle. The Commanding Officer, Borough Commander and Chief of Patrol have input into the mix of replacement vehicles. Specific funding is unknown until budget adoption.
15	307200913E	**Request:** 15. Horticulture personnel in Riverside Park $72.5K per worker **Explanation:** Riverside Park, oher than Riverside South, is divided into three sections for maintenance purposes. Three gardeners would allow RSP to maintain and enhance the horticulture in each section as well as bring supervisory capacity and pesticide licensing to the park. **Responsible Agency**: Department of Parks and Recreation	The agency recommends funding this expense budget request in FY 2010, but at this time the availability of funds is uncertain.
16	307200704E	**Request:** Increase funding for materials in various languages at branch libraries and for computers and teen books **Explanation:** Circulation of books, videos, CDs and other materials increased 10% in the last year at the three branch libraries in CD7 (St. Agnes, Bloomingdale and Riverside.) As the population becomes more diverse, people are asking for materials in a wide variety of languages. Many immigrants turn to the NYPL for information and educational materials. There is also a need for additional computers and materials for the teen population. **Responsible Agency**: New York Public Library	NYPL is in favor of this project but added or restored City funding is required for all expense budget costs and any needed capital costs. NYPL will continue to work through the City's budget process for needed funding. Contact NYPL for more information.

Priority	Tracking Code	Project Information	Agency Response
17	307200908E	**Request:** 17. Increase funding for inspectors **Explanation:** There is an inadequate number of building inspectors to conduct inspections and essential enforcement of the building code, especially in light of the additional burden and safety hazards encountered imposed by the ongoing construction boom on the Upper West Side. **Responsible Agency**: Department of Buildings	The agency will try to accommodate this issue within existing resources.
18	307200003E	**Request:** 18. Park Enforcement Personnel for Riverside Park and District 7. $43K/Officer **Explanation:** Manhattan North above 59th Street (River to River, including Central and Riverside Park) is patrolled by 11 officers. In the summer, these officers do pool duty, so the numbers are effectively even fewer in summer, when the parks are busiest. (In addition four fixed-post officers, who are paid for under dedicated funding, patrol Riverside Park South and are available only for emergency conditions in Riverside Park.) An additional team of 6 officers for each of Manhattan North and Riverside Park above West 72nd Street (12 new PEP officers) would increase safety and help address graffiti and other vandalism, homeless, alcohol, off-leash, and other conditions throughout Riverside Park and in district parks and playgrounds on a steady basis. **Responsible Agency**: Department of Parks and Recreation	The agency recommends funding this expense budget request in FY 2010, but at this time the availability of funds is uncertain.

19	307200110E	**Request:** 19. Install count-down timers at key heavy pedestrian locations **Explanation:** Walk signs at crosswalks display a flashing red signal to warn pedestrians that the traffic light is about to change to green. Pedestrians often can't determine the amount of time they have to cross and can be in danger of being hit by an oncoming vehicle, especially on our major roadways. Count-down timers give accurate timing information to pedestrian and improve safety. **Responsible Agency**: Department of Transportation	The requested study is/will be conducted by NYCDOT. The community board will be advised of the recommended course of action and associated funding needs arising at the conclusion of the study.
20	307200909E	**Request:** 20. Additional funds for the Mayor's Office of Special Enforcement $100K **Explanation:** Additional staff is required to investigate the illegal conversion of single room occupancy (SROs) and residential hotels to tourist hotels. The quantity of decent, affordable housing stock is being eroded by unscrupulous landlords who are converting low-income housing to illegal hotels. This is a complex problem which involves several City Agencies (e.g. FDNY and DOB) whose codes are violated. It also involves HPD when SRO landlords treat tenants unfairly. **Responsible Agency**: Special Enforcement	The agency recommends funding this expense budget request in FY 2010, but at this time the availability of funds is uncertain.
21	307200516E	**Request:** 21. Playground associates $3100/assistant/mo **Explanation:** Six playground associates would provide valuable programming and supervision for children from April through August in Frederick Douglass Playground at Amsterdam Avenue and West 100th Street, Sol Bloom Playground at Columbus Avenue and West 91st Street, Tecumseh at Amsterdam Avenue and West 77th Street, Bennerson Playground on West 64th Street, and Neufeld Playground at 76th Street and Dinosaur Playground at 97th Street in Riverside Park. **Responsible Agency**: Department of Parks and Recreation	The agency recommends funding this expense budget request in FY 2010, but at this time the availability of funds is uncertain.

22	307201005E	**Request:** 22.Increase funding for Safe Haven program budget by $35,000, allowing for a full-time coordinator to reach more children and parents with the Workshops, expand the number of locations, and offer technical assistance to other New York neighborhoods who want to replicate the program. **Explanation:** The West Side Crime Prevention Program is funded for a Safe Haven Program, a project which keeps children safe as they navigate the streets of the neighborhood. Participating merchants place a bright yellow sticker on their door announcing that the people inside are ready and willing to help and protect children who are in trouble or afraid on the streets. WCPP staff conducts Streetwise and Safe workshops in neighborhood schools for both children and parents, introducing the program and teaching the group practical safety techniques. The position of Coordinator of the Safe Haven Program is currently part-time. **Responsible Agency**: Department of Youth & Community Development	Use the agency's application/RFP procedure. Contact the agency.
23	307199311E	**Request:** 23. Funding to maintain litter-basket service, and to provide additional service at night and on weekends and holidays **Explanation:** CD7's 1,000 litter baskets are never empty and often they are overflowing. Continued basket service is essential, and additional service is needed on weekends and holidays. The current service helps keep streets and sidewalks clean, with fewer incidents of rodent infestation and clogged catch basins and street drains, and reduces floatables in the Hudson River. Additional service on the night shift, weekends and holidays would improve conditions when thousands of tourists are in the district. **Responsible Agency**: Department of Sanitation	This program is currently funded and the Department of Sanitation recommends its continued support.

24	307200605E	**Request:** 24. The B/C will work with the community to access the need for, and the most effective location, type, and installation of traffic calming devices.
25	307200907E	**Request:** 25. More police personnel for enforcement of double parking and truck route regulations **Explanation:** Many of our smaller, crosstown streets are frequently blocked, due to trucks making deliveries, or double-parking of privately owned vehicles. Having Police Enforcement personnel available to either a)move the vehicles along, or b) ticket them would go a long way toward helping to un-congest our narrower, crosstown blocks. **Responsible Agency**: Police Department	The agency will try to accommodate this issue within existing resources.
26	307201006E	**Request:** 26.Riverside Park American Elm Trees. $82K **Explanation:** Inspection of Elm trees for Dutch Elm disease and removal as necessary. 14 old-growth trees along Riverside Drive were removed in 2008 because of infection **Responsible Agency**: Department of Parks and Recreation	The agency will try to accommodate this issue within existing resources.

27	307200806E	**Request:** 27. Given the importance of exercise and current concerns about children and weight, CB7 believes opening these playgrounds is desirable. **Responsible Agency**: Department of Education	The city's PLANYC includes a goal to open 290 school playgrounds to public use after school hours by 2030. However, no school playgrounds in CB7 are included in the plan.
28	307200904E	**Request:** 28. Precinct Internet access **Explanation:** Precinct commanders, community affairs officers, and special ops lieutenants at the 20 and 24 have Internet access, but need computers and printers in order to interface with other city agencies and the public in a timely and effective way. Every agency, except NYPD, that serves CD7 can be reached through e-mail. 29	307200108E	**Request:** 29. Decrease headways/increase frequency on M104, M79, M86 and M96 buses **Explanation:** Headways have been increased on these lines, resulting in longer wait-times between buses. Since the addition of articulated buses on the M79 and M86, headways have also increased. There are fewer buses, and loading and unloading of articulated buses take considerably longer than with standard buses. On the M96, there has been considerable growth in the use of this bus, so much so that the loading guidelines would most likely specify additional buses be placed on this route. Many customers cannot get on the first M96 that comes in certain peak periods. Additional buses are warranted on this line. **Responsible Agency**: Transit Authority	This request is not recommended for funding.
30	307201007E	**Request:** 30.No-bicycles decals. **Explanation:** Bike riders, primarily restaurant delivery people, on sidewalks pose a serious safety problem for pedestrians in CD7. 21	311200907E	**Request:** Hire an Additional Traffic Officer to Control Traffic at the Intersection of East 135th Street and Madison Avenue, Particularly During PM Rush Hour. **Explanation:** Excessive PM rush hour traffic heading up Madison Avenue and merging onto the Madison Avenue Bridge at East 135th Street creates an unsafe pedestrian environment for local residents trying to cross the intersection. DOT has already conducted a traffic study and determined the traffic signal timing can not be shortened to allow more pedestrian crossing time. A traffic officer could more safely manage congestion and likely prevent motor vehicles from violating traffic regulations and risking the safety of crossing pedestrians. **Responsible Agency**: Police Department	The agency will try to accommodate this issue within existing resources.
22	311201002E	**Request:** Hire an additional traffic officer to control traffic at the intersection of East 96th Street and Madison Avenue. **Explanation:** Traffic congestion is excessive at this intersection, particularly during PM rush. Cross-town traffic through Central Park at 96th Street and 97th Street block the intersection producing additional congestion. Double parked cars adjacent to Mt. Sinai Hospital on Madison Avenue add congestion. A traffic officer is needed to regulate flow, ensuring vehicles don't needlessly block the intersection. **Responsible Agency**: Police Department	The agency will try to accommodate this issue within existing resources.

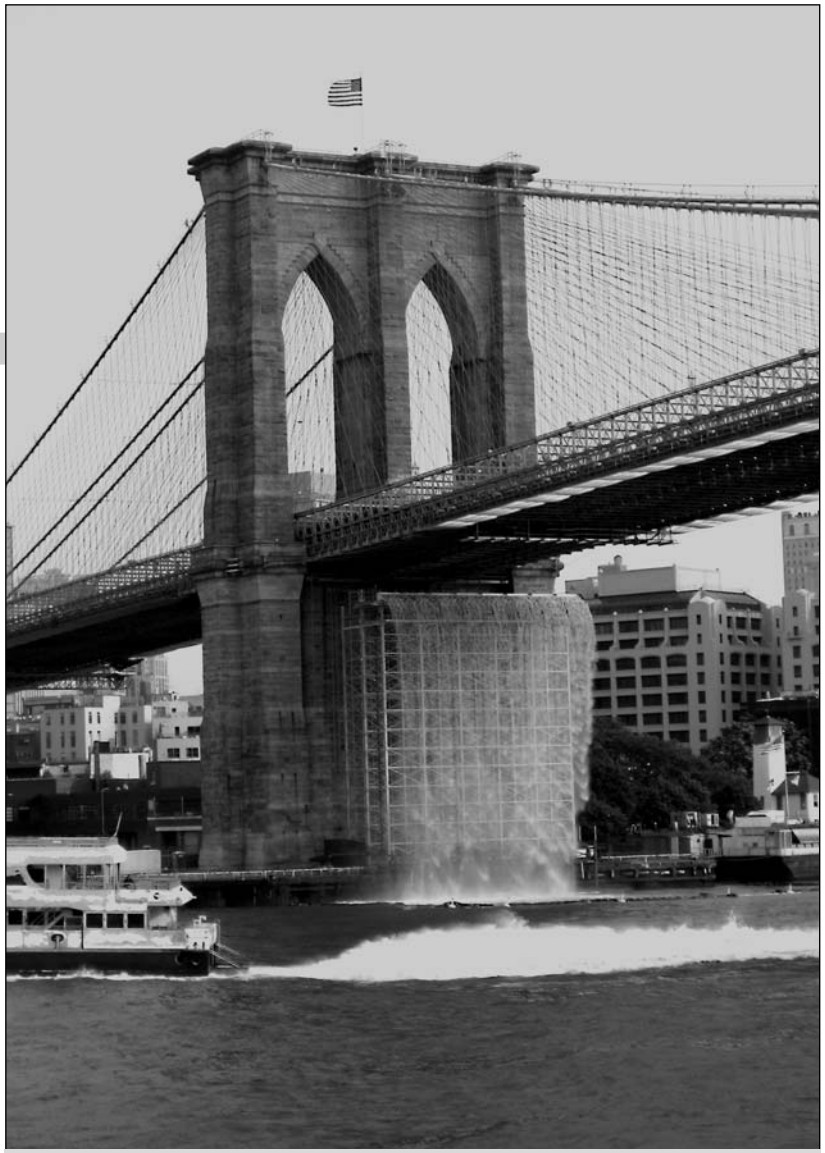
Queens



The City of New York
Michael R. Bloomberg, *Mayor*

REGISTER OF COMMUNITY BOARD BUDGET PRIORITIES

The Register of Community Board Budget Requests for the Preliminary Budget lists community board requests and reports agency funding recommendations for each request in the departmental estimates. The capital and expense budget estimates of proposed agency spending for the upcoming fiscal year based on the November financial plan comprise the departmental estimates.

As part of the Preliminary Budget process, the 59 community boards are asked to complete the following:

*** FY 2010 Capital Budget Requests and Priorities -** the boards request capital projects and assign priority numbers to each. Boards may submit no more than 40 capital priorities. In addition to the 40 numbered priorities, boards may submit 5 continued support priorities to confirm support for already funded projects.

*** FY 2010 Expense Program Requests and Priorities -** the boards indicate immediate service needs by submitting expense budget requests and assigning priority numbers to each. Boards may submit no more than 25 expense priorities.

*** Community Board Service Program Rankings for FY 2010 -** the boards indicate the general importance of current services. To obtain the analysis of the boards' rankings of current services, call (212) 788-5943 or email: siegall@omb.nyc.gov .

The Preliminary Register is released in January with other Preliminary Budget Documents. An Executive Budget Register is published with the Executive Budget in April. The Executive Register contains the same Board requests and priorities. OMB updates the responses since the Executive Budget is the Mayor's Budget.

A final Register is published after the budget is adopted. The Adopted Register contains responses that reflect the changes made to the Executive Budget by the City Council.

FORMAT OF THE REGISTER

The Register of Community Board Budget Requests is sorted into four versions: Community Board, Borough, Council and Agency. In all versions of the Register, each board's expense requests directly follow their capital requests. The requests are in board order.

LAYOUT OF CAPITAL BUDGET REQUESTS PAGES

Column 1: Priority Number

The priority assigned by a community board reflects the importance of that request as compared to its other requests. Boards may assign **Continued Support (CS)** to a project which received funding for construction in any year of the Financial Plan FY 2009 – 2013.

Column 2: Tracking Code

The nine digit identification number assigned to each community board budget request. Tracking codes are unique to each request and identify the borough, community district, year submitted, and request. The first digit refers to the borough, 1 = the Bronx, 2 = Brooklyn, 3 = Manhattan, 4= Queens, and 5 = Staten Island; the second and third digits indicate the district number. The fourth through seventh digits represent the fiscal year in which the project was first submitted and the last two digits are the request number. The letter C in the tenth space indicates a capital budget request.

COMMUNITY BOARD BUDGET PROCESS

The FY 2010 Register contains community board budget requests and agency funding recommendations. It is the charter mandated product of a dynamic and cyclical budget process which includes public testimony, written input about community needs, and consultations with city agencies that deliver local services.

At consultations with city agencies boards discuss community needs, agency policies and fiscal constraints. The consultation format in each borough is individualized to meet the needs of the community boards. The FY 2010 consultations consist of three different formats:

- **Individual 25 Minute Meetings-** District consultations in the spring followed by borough consultations in September and October, at which a community board meets with up to ten consulting agencies at individual twenty-five minute sessions on a single evening. The boards bring their most pressing concerns to the attention of top level decision makers at each agency.

- **Group -** All interested boards in the borough meet together with an agency for an up to two hour consultation. Many agency expense budget decisions have borough and citywide ramifications which impact all the boards in a similar fashion. The boards submit a single agenda which covers areas of common interest. Board specific issues may also be included.

- **Individual Meetings - Capital Intensive Agencies** Boards meet individually in the fall with the three agencies which provide most of the capital projects in each district. The Departments of Environmental Protection, Parks and Recreation and Transportation each arrange separate meetings with each board. Boards and agencies have sufficient time to discuss the status of capital projects as well as expense budget service issues.

In September and early October, the FY 2010 borough consultations consisted of 218 individual and 28 group sessions.

The fourteen consulting agencies are: Departments for the Aging, Buildings, Children's Services, Economic Development Corporation, Environmental Protection, Fire, Housing Preservation and Development, Human Resources Administration, Homeless Services, Parks and Recreation, Police, Small Business Services, Sanitation, and Transportation.

During district consultations in the spring, community board representatives meet with the local service chiefs and other agency personnel.

In the fall, these same agencies meet with the community boards on a borough level using one of the three formats previously described.

PREPARING STATEMENTS ON THE PRELIMINARY BUDGET

The City Charter requires that community boards prepare written comments on the City's Preliminary Budget. The Community Board **Statement on the Preliminary Budget** is due one month after the release of the Preliminary Budget.

The Charter asks the community boards to send the **Statement on the Preliminary Budget** to the Mayor, the City Council, the Director of the Office of Management and Budget, the Borough President and each member of the Borough Board.

In your **Statement** to public officials, spell out board and community reactions to both specific funding recommendations for board budget requests and the City's overall spending priorities as shown in the Four-Year Financial Plan.

Use this **Statement on the Preliminary Budget** as the basis for testimony at the public hearings held by the City Council and Borough Boards.

Organize the **Statement on the Preliminary Budget** by agency so that your comments can be sent to the proper agency and OMB decision makers.

Chapter VII of the **Manual for Participation in the Budget Process** provides a detailed guide for developing your **Statement on the Preliminary Budget.** It also lists sources of information.

The following sources will also help you gather information regarding issues and needs specific to your district.

- **Register of Community Board Budget Requests for the Preliminary Budget** (agencies' funding recommendations in this document). Note whether the funding recommendations correspond to previous commitments made by the agencies.

- The **Capital Commitment Plan** charts capital appropriations, commitments, cash flow and implementation schedules and is now published in both a Citywide and community board version.

- The **Geographic Reports for the Capital and Expense Budgets** provide information on cost estimates of capital site-specific projects including appropriations and expenditures-to-date, and estimates of appropriations for local service districts' expense programs.

- **Testimony taken at the board's public hearing on the Preliminary Budget** will indicate community concerns about current service needs and priorities.

Review the following Citywide budget documents to determine how the City's fiscal plans and priorities impact your district.

- **The Four-Year Financial Plan** discusses the City's fiscal condition for the current year and the succeeding four fiscal years, comparing revenues and expenses, and the actions required to close budget gaps. Agency planned spending is detailed and required changes to program spending are described.

- **The Departmental Estimate/Preliminary Budget** contain proposed agency spending for the next fiscal year before any reductions due to the Program to Eliminate the Gap (PEG). Check allocations for individual projects requested by the community boards and items not included by the agency.

For more information, please call the Community Board Unit, Office of Management and Budget at (212) 788-5940 or email: sugarp@omb.nyc.gov .

A 5 year pruning cycle will produce stronger, healthier, and better looking trees. **Responsible Agency**: Department of Parks and Recreation **Supported by:** CB #4Q Residents	The agency recommends funding this expense budget request in FY 2010, but at this time the availability of funds is uncertain.
02	404198802E	**Request:** Establish Taskforce to Deal with Illegal Occupancies. **Explanation:** CB#4Q is experiencing a tremendous problem of illegal conversions. One and two family homes are being converted to 4, 5, and 6 family homes and SRO's. A Taskforce of Fire, Police and Buildings is urgently needed to monitor these conditions. 06	404199701E	**Request:** Hire Additional School Crossing Guards. Increase School Crossing Guard Quota **Explanation:** In FY 2009 the 110Pct. had a quota of 25 crossing guards. Within the last few years many of our schools have added additions, thus increasing student capacity. New schools have opened such as PS 28 andQ 307. 16	404198325E	**Request:** Increase Funding to Hire Additional Parks Maintenance Personnel. **Explanation:** When parks are rehabilitated, maintenance workers should be assigned. 17	404199203E	**Request:** Maintain and Increase Sanitation Staff for Lot Cleaning and Recycling Duties. **Explanation:** Vacant lots need to be cleaned on a regular basis. Material previously consigned to the waste stream is now separated and sent to vendors. The jogging path around the ballfields is very narrow and there isn't any security lighting in this part of the park. These fields need to be reconstructed, and the best option for multiple sports use (such as, baseball, football, soccer) may be to install a safe artificial field turf-type surface which reportedly will give much better wear. 18	405200304C	**Request:** Rehabilitate Ridgewood Reservoir Area of Highland Park and the Surrounding Area in Highland Park. **Explanation:** The Ridgewood Reservoir Area, in Highland Park, lays dormant and not used for beneficial purposes. A study to determine how this area of excellent potential could be better utilized, is well underway. CB5 recommends that the Reservoir be kept as a nature preserve. Vandal proof security lighting, security fencing and rehabilitation of pathways around the Reservoir are the most immediate priorities. Thankfully, Mayor Bloomberg has allocated up to $50 Million for reservoir improvements during the coming years. We hope that instead of building athletic uses in the reservoir basins, serious consideration will be given to reconstruction of ball fields in Highland Park. **Responsible Agency**: Department of Parks and Recreation **Council Districts:** 30, 34 **Supported by:** Ridgewood Property Owners and Civic Association Summerfield Area Block Association	This request includes more than one project. 21	405199001C	**Request:** Build a 104th Police Precinct Parking Facility . **Explanation:** This long-standing request of CB5Q, for a parking facility along Shaler Avenue, in Glendale, was funded. The project has not moved to construction, primarily because of negotiations between the City of New York and the LIRR/NY and Atlantic Railway, as this hillside property is owned by the railroad (MTA). Unfortunately, the Police Department is now recommending that this parking facility not be built. We believe this off-street parking facility is still needed, to reduce the overcrowding of police department vehicles and the personal vehicles of police officers which greatly reduce residential parking opportunities. **Responsible Agency**: Police Department **Council Districts:** 30 **Budget Line:** POC001 **Project Id(s):** POC104PL **Supported by:** Ridgewood Property Owners Assoc. 26	405200504C	**Request:** Extend Street/Roadway Widening Along the South Side of Metropolitan Avenue, from Woodhaven Boulevard to Aubrey Avenue in Glendale. **Explanation:** Some roadway widening was done, just west of Woodhaven Boulevard, when Home Depot opened on the east side of the Boulevard. But more needs to be done to reduce the traffic back-up, especially considering the commercial development of nearby Atlas Terminals. This need is even greater now that several large chain stores have opened on Metropolitan Avenue, east of Woodhaven Boulevard, and a long-awaited public high school will be built in that area. **Responsible Agency**: Department of Transportation **Council Districts:** 30, 29	Capital funding constraints, project capacity and City-wide priorities preclude this project at this time.

Examples include routes travelled by the Q58, Q39, Q38, Q29, Q18, B38, B13 and B20 buses. Concrete bases are needed for many of these roads that are not major arteries. In 1995, there were approx. 200 officers, exclusive of sergeants & lieutenants for Ridgewood, Maspeth, Middle Village, and Glendale. At least 20 additional officers are needed for the 104th Pct. To cope with robbery, burglary, violent crime, domestic violence threats, inadequate response times, speeding, auto theft and rowdy youth conditions often caused by substance abuse. The new Atlas Park Shopping Development, which opened in Spring 2006, will put additional pressure on our already overloaded precinct. **Responsible Agency**: Police Department **Supported by:** Numerous Local Civic groups	NYPD's total uniformed staffing levels depend on decisions made in the Preliminary and Executive Budget process. 03	405199101E	**Request:** Hire Inspectors and Plan Examiners, in Sufficient Numbers, to Cope with Illegal Uses of Property and Questionable Construction. **Explanation:** A separate afternoon/evening and weekend inspection team of 10 inspectors for Queens is critical because inspectors very often can't gain access in the daytime during the work week. Communities throughout Queens have been plagued with illegal apartments posing dangerous conditions, school overcrowding and more pressure on limited City services. Construction inspectors and plan examiners in adequate numbers are needed to curtail contractors building homes larger than the zoning permits. **Responsible Agency**: Department of Buildings **Supported by:** Numerous Local Civic Groups	The agency will try to accommodate this issue within existing resources.

Currently, there are only 11 Parks Maintenance staff assigned for this massive parkland. Skilled maintenance workers (there are only 2 for all of Queens Districts 5, 9, 10 & Forest Park) should be funded year-round. Depending almost totally on WEP workers to maintain parks, many of which have seen large investment in recent years, shows a lack of concern for what to many is a most important community asset. Reseeding, aerating and fertilizing ballfields need to be priorities so that large capital expenditures are not wasted. **Responsible Agency**: Department of Parks and Recreation	The agency recommends funding this expense budget request in FY 2010, but at this time the availability of funds is uncertain.

Severe fines, vehicle impoundments and much more publicity, such as frequent press releases to TV and radio stations and major newspapers, are needed to make an example of dumpers and curtail illegal dumping. **Responsible Agency**: Department of Sanitation **Supported by:** Ridgewood Property Owners and Civic Assn. 17	405199603E	**Request:** Hire Traffic Control Agents, School Crossing Guards and Additional School Safety Officers. **Explanation:** The City should earmark funding to hire additional traffic control agents: (Traffic Enforcement Agents-Level II), so that heavily travelled Queens intersections can be staffed. This will diminish the need to assign police officers, who are paid more. In consideration of dangerous traffic conditions, funding is needed to hire at least 6 additional school crossing guards for District 5, Queens schools. Most elementary schools have only 1 or 2 School Safety Officers; intermediate schools only have 3 officers, which in many schools is insufficient. **Responsible Agency**: Police Department	NYPD funding is currently available to maintain both the School Crossing Guards and School Safety Agents headcounts. 18	405199507E	**Request:** Continue Funding of Ridgewood Communicare Health Center. **Explanation:** The Ridgewood Communicare Health Center (formerly known as Maspeth Child Health Station) provides important health services to many children, families and senior citizens. Ridgewood and neighboring communities have seen an increase in the number of working poor and residents on public assistance. The need to expand services beyond the hours of Monday to Friday, 8:30am to 4:30pm, should be seriously considered. Specific funding is unknown until budget adoption.
06	409200508E	**Request:** Purchase Auxiliary Police Cars. **Explanation:** The 102nd Precinct Auxiliary Police have expanded duties since 9/11. CS	412200306C	**Request:** Fund Additional Tree Pruning Personnel to Reduce Existing Backlog. **Explanation:** Location: Area bordered by Baisley Blvd., North Conduit Ave. Tree limbs hide traffic signs, block street lights and vision, extend into yard striking houses, branches fall during strong winds and many are less than 6 feet off the ground creating hazardous walking and driving conditions. Most of these trees have never been pruned. Telephone requests made to the Parks Department have proved non-productive. **Responsible Agency**: Department of Parks and Recreation **Council Districts:** 27, 28 **Supported by:** United Neighbors Civic Association of Jamaica	The agency recommends funding this expense budget request in FY 2010, but at this time the availability of funds is uncertain.

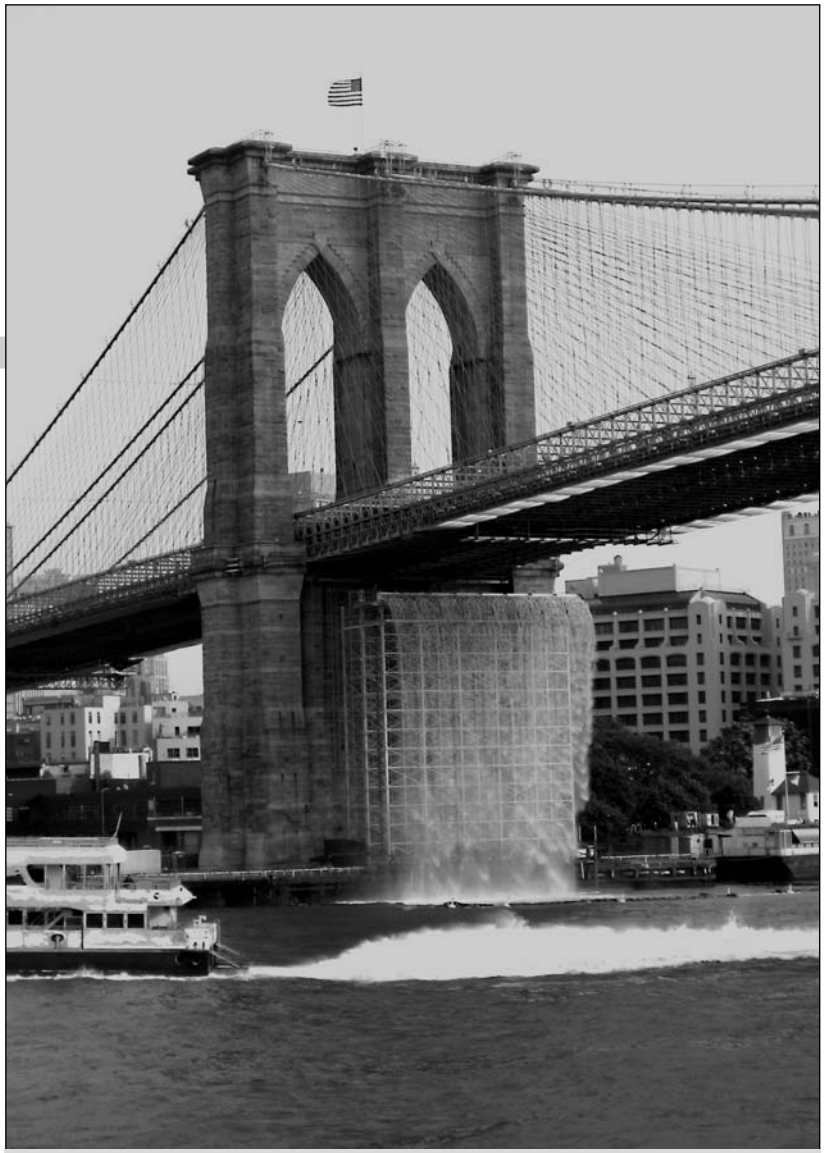
Register of Community Board Budget Requests

For The Preliminary Budget
Fiscal Year 2010

Staten Island



The City of New York
Michael R. Bloomberg, *Mayor*

REGISTER OF COMMUNITY BOARD BUDGET PRIORITIES

The Register of Community Board Budget Requests for the Preliminary Budget lists community board requests and reports agency funding recommendations for each request in the departmental estimates. The capital and expense budget estimates of proposed agency spending for the upcoming fiscal year based on the November financial plan comprise the departmental estimates.

As part of the Preliminary Budget process, the 59 community boards are asked to complete the following:

*** FY 2010 Capital Budget Requests and Priorities -** the boards request capital projects and assign priority numbers to each. Boards may submit no more than 40 capital priorities. In addition to the 40 numbered priorities, boards may submit 5 continued support priorities to confirm support for already funded projects.

*** FY 2010 Expense Program Requests and Priorities -** the boards indicate immediate service needs by submitting expense budget requests and assigning priority numbers to each. Boards may submit no more than 25 expense priorities.

*** Community Board Service Program Rankings for FY 2010 -** the boards indicate the general importance of current services. To obtain the analysis of the boards' rankings of current services, call (212) 788-5943 or email: siegall@omb.nyc.gov .

The Preliminary Register is released in January with other Preliminary Budget Documents. An Executive Budget Register is published with the Executive Budget in April. The Executive Register contains the same Board requests and priorities. OMB updates the responses since the Executive Budget is the Mayor's Budget.

A final Register is published after the budget is adopted. The Adopted Register contains responses that reflect the changes made to the Executive Budget by the City Council.

FORMAT OF THE REGISTER

The Register of Community Board Budget Requests is sorted into four versions: Community Board, Borough, Council and Agency. In all versions of the Register, each board's expense requests directly follow their capital requests. The requests are in board order.

LAYOUT OF CAPITAL BUDGET REQUESTS PAGES

Column 1: Priority Number

The priority assigned by a community board reflects the importance of that request as compared to its other requests. Boards may assign **Continued Support (CS)** to a project which received funding for construction in any year of the Financial Plan FY 2009 – 2013.

Column 2: Tracking Code

The nine digit identification number assigned to each community board budget request. Tracking codes are unique to each request and identify the borough, community district, year submitted, and request. The first digit refers to the borough, 1 = the Bronx, 2 = Brooklyn, 3 = Manhattan, 4= Queens, and 5 = Staten Island; the second and third digits indicate the district number. The fourth through seventh digits represent the fiscal year in which the project was first submitted and the last two digits are the request number. The letter C in the tenth space indicates a capital budget request.

Column 3: Project Information

Request: A brief description of the project.

Explanation: Supporting information detailing the project, and its potential benefits.

Responsible Agency: The City agency which would implement the project.

Council District(s): The City Council district(s) where the capital project is located.

Budget Line Number: The number assigned to a capital project that was previously funded or is included in any year of the Financial Plan FY 2009 – 2013.

PROJECT ID: The capital project identification number which allows projects to be entered into the City's computer tracking system. The number of the managing agency and the project identification number make up the **PROJECT ID** of the project.

Source of Request: Any group(s) which support the request.

Column 4: Response

The Preliminary Budget recommendation for each budget request, provided by the responsible agency.

LAYOUT OF EXPENSE REQUEST PAGES

COMMUNITY BOARD BUDGET PROCESS

The FY 2010 Register contains community board budget requests and agency funding recommendations. It is the charter mandated product of a dynamic and cyclical budget process which includes public testimony, written input about community needs, and consultations with city agencies that deliver local services.

At consultations with city agencies boards discuss community needs, agency policies and fiscal constraints. The consultation format in each borough is individualized to meet the needs of the community boards. The FY 2010 consultations consist of three different formats:

- **Individual 25 Minute Meetings-** District consultations in the spring followed by borough consultations in September and October, at which a community board meets with up to ten consulting agencies at individual twenty-five minute sessions on a single evening. The boards bring their most pressing concerns to the attention of top level decision makers at each agency.

- **Group -** All interested boards in the borough meet together with an agency for an up to two hour consultation. Many agency expense budget decisions have borough and citywide ramifications which impact all the boards in a similar fashion. The boards submit a single agenda which covers areas of common interest. Board specific issues may also be included.

- **Individual Meetings - Capital Intensive Agencies** Boards meet individually in the fall with the three agencies which provide most of the capital projects in each district. The Departments of Environmental Protection, Parks and Recreation and Transportation each arrange separate meetings with each board. Boards and agencies have sufficient time to discuss the status of capital projects as well as expense budget service issues.

In September and early October, the FY 2010 borough consultations consisted of 218 individual and 28 group sessions.

The fourteen consulting agencies are: Departments for the Aging, Buildings, Children's Services, Economic Development Corporation, Environmental Protection, Fire, Housing Preservation and Development, Human Resources Administration, Homeless Services, Parks and Recreation, Police, Small Business Services, Sanitation, and Transportation.

During district consultations in the spring, community board representatives meet with the local service chiefs and other agency personnel.

In the fall, these same agencies meet with the community boards on a borough level using one of the three formats previously described.

PREPARING STATEMENTS ON THE PRELIMINARY BUDGET

The City Charter requires that community boards prepare written comments on the City's Preliminary Budget. The Community Board **Statement on the Preliminary Budget** is due one month after the release of the Preliminary Budget.

The Charter asks the community boards to send the **Statement on the Preliminary Budget** to the Mayor, the City Council, the Director of the Office of Management and Budget, the Borough President and each member of the Borough Board.

In your **Statement** to public officials, spell out board and community reactions to both specific funding recommendations for board budget requests and the City's overall spending priorities as shown in the Four-Year Financial Plan.

Use this **Statement on the Preliminary Budget** as the basis for testimony at the public hearings held by the City Council and Borough Boards.

Organize the **Statement on the Preliminary Budget** by agency so that your comments can be sent to the proper agency and OMB decision makers.

Chapter VII of the **Manual for Participation in the Budget Process** provides a detailed guide for developing your **Statement on the Preliminary Budget.** It also lists sources of information.

The following sources will also help you gather information regarding issues and needs specific to your district.

- **Register of Community Board Budget Requests for the Preliminary Budget** (agencies' funding recommendations in this document). Note whether the funding recommendations correspond to previous commitments made by the agencies.

- The **Capital Commitment Plan** charts capital appropriations, commitments, cash flow and implementation schedules and is now published in both a Citywide and community board version.

- The **Geographic Reports for the Capital and Expense Budgets** provide information on cost estimates of capital site-specific projects including appropriations and expenditures-to-date, and estimates of appropriations for local service districts' expense programs.

- **Testimony taken at the board's public hearing on the Preliminary Budget** will indicate community concerns about current service needs and priorities.

Review the following Citywide budget documents to determine how the City's fiscal plans and priorities impact your district.

- **The Four-Year Financial Plan** discusses the City's fiscal condition for the current year and the succeeding four fiscal years, comparing revenues and expenses, and the actions required to close budget gaps. Agency planned spending is detailed and required changes to program spending are described.

- **The Departmental Estimate/Preliminary Budget** contain proposed agency spending for the next fiscal year before any reductions due to the Program to Eliminate the Gap (PEG). Check allocations for individual projects requested by the community boards and items not included by the agency.

For more information, please call the Community Board Unit, Office of Management and Budget at (212) 788-5940 or email: sugarp@omb.nyc.gov .
