

IMPLEMENTATION OF THE CITYWIDE STATEMENT OF NEEDS

Section 204 of the City Charter requires the Mayor to submit an annual Citywide Statement of Needs for City Facilities to the City Council, Borough Presidents, borough boards and community boards. The Statement, prepared as part of the City's "fair share" siting process, identifies all new facilities the City plans to site and all existing facilities the City plans to close or to significantly expand or reduce in size during the ensuing two fiscal years. The Borough Presidents and community boards have the opportunity to comment on the proposed projects within 90 days of the Statement's release.

Sections 12(c) and 204(h) of the Charter require that the Mayor's Management Report review the implementation of proposals in the Statement. The following chart provides the status, as of June 30, 2013 of all actions proposed by City agencies in the Citywide Statement of Needs for Fiscal Years 2013 and 2014. Where appropriate, the locations of sited and implemented projects are indicated.
