

## New York City Stimulus Tracker Pending Funding Requests: Grant Application Tracker

**Lead Federal Agency:** U.S. Department of Energy

**Application Submitted by:** New York State Energy Research and Development Authority (NYSERDA) on behalf of New York City

**ARRA Funding Source:** USDOE Clean Cities FY09 Petroleum Reduction Technologies Projects for the Transportation Sector

**Funding Source Description:** For the past 15 years, the Clean Cities program has supported the use of alternative fuel in transportation. The American Recovery and Reinvestment Act (ARRA) has established a new competitive grant program, to be administered through the Clean Cities program, to provide project grants to state and local governments to accelerate the use of alternative fueled vehicles.

**Grant Description:** The City is applying for 1 compressed natural gas (CNG) engine re-power of an existing compactor truck for the Department of Sanitation.

**Grant Amount:** \$102,000

**Anticipated benefits:** Natural gas powered sanitation trucks are quieter, reduce greenhouse gas emissions, and have lower fuel costs. While the agency has purchased new CNG trucks in the past, this would be its first re-power.
