

New York City Stimulus Tracker Pending Funding Requests: Grant Application Tracker

Lead Federal Agency: U.S. Dept. of Justice, Office for Victims of Crime

Application Submitted by: Mayor's Office of the Criminal Justice Coordinator

ARRA Funding Source:

National Field-Generated Training, Technical Assistance, and Demonstration Projects

Funding Source Description: This solicitation allows applications for funding for training, technical assistance, and demonstration projects that are (1) national in scope (defined as relevant and useful to many or most communities and states across the Nation); and (2) address gaps in the field in the areas of training and technical assistance; or (3) develop promising practices, models, or programs through demonstration projects. All initiatives must be focused on improving the capacity of victim service providers and allied practitioners in advancing rights and services for crime victims in the following areas: elder abuse, sexual assault, victim restitution, child abuse, youth victimization (including cybercrime victimization), victim services in corrections settings, stalking, the implications of forensic technologies for victims, and training and technical assistance on crime victims' rights.

Grant Description: The New York City Mayor's Office of the Criminal Justice Coordinator (CJC) collaborated with Columbia University Teachers College and Reel Works on a project that would develop training materials and online tools to educate teachers, parents, and students about how to identify and respond to youth cyber victimization. As access to and use of the Internet increases nationally, children and teens are increasingly susceptible to cyberbullying, online sexual predators, and identity theft.

Grant Amount: \$413,238

Anticipated benefits:

This project seeks to provide "first responders"—parents, educators, and youth—with a powerful tool to educate themselves and others regarding the inherent risk of internet use, measures that can be taken by children and teens to reduce online vulnerability, and resources available for victims of cyberbullying.
