

New York City Stimulus Tracker Pending Funding Requests: Grant Application Tracker

Lead Federal Agency: Department of Health and Human Services
Application Submitted by: Administration for Children's Services

ARRA Funding Source: Head Start

Funding Source Description: Funding will support an increase in the enrollment of additional children as well as create new teaching and other positions in existing federally funded Head Start programs. This expansion is to increase the number of pre-school age children served in Head Start.

Grant Description: Expansion money will be used for additional head start capacity in communities that are underserved, have existing capacity, and have available empty classrooms in centers leased by the City.

Grant Amount: \$5 Million

Anticipated benefits: Expansion money will enable NYC to serve 200 children from low-income families with Head Start services in communities that are currently underserved by publicly funded Early Care and Education services. We expect that up to ten programs in five high need communities will be able to expand their capacity.
