

NEW YORK CITY

MAYOR'S OFFICE OF SUSTAINABILITY

The Mayor's Office of Sustainability (MOS) coordinates with all other City agencies to develop, implement, and track the progress of OneNYC and other issues of infrastructure and the environment, which cut across multiple City agencies. MOS promotes the integration of sustainability goals and practices into the work of City agencies and the lives of New Yorkers.

RENEWABLE ENERGY POLICY ADVISOR

Position description:

MOS is seeking a mid-level staff analyst to manage and implement renewable energy policy and programs. This effort is part of OneNYC, a citywide sustainability plan to reduce greenhouse gas emissions by 80 percent by 2050, and will be housed at MOS. Under supervision of the Director of Energy Regulatory Affairs, the selected candidate will represent MOS as part of the NYC Solar Partnership; implement NYC Solar Partnership programs such as Solarize NYC and Community Shared Solar in coordination with the City of New York, the New York City Economic Development Corporation, other City agencies, and stakeholders; explore policies that can accelerate the installation of renewable energy and related programs, such as electric vehicle adoption, across New York City; research best practices in valuing the cost of renewable energy; review current citywide renewable energy practices; conduct interviews with industry specialists, including renewable energy producers, utilities, customers, and other stakeholders; research citywide impacts of the Public Service Commission's Reforming the Energy Vision; and produce summary reports.

Minimum Qualification Requirements

1. A baccalaureate degree from an accredited college or university and two years of satisfactory full-time experience in city planning;

OR

2. A satisfactory combination of education and/or experience that is equivalent to "1" above.

Graduate education in city planning, urban planning, urban design, architecture, landscape architecture, transportation engineering, public administration, economic development or related fields may be substituted for experience on the basis of 30 graduate semester credits from an accredited college for one year of experience. However, all candidates must have a baccalaureate degree.

Preferred Skills

- A baccalaureate degree from an accredited college in Energy Policy, Engineering, Environmental Policy, Environmental Science, Political Science, Public Administration, Public Policy, Urban Planning, or a closely related field.
- Familiarity with electric vehicles.
- Familiarity with energy policy, and solar and other renewable energy sources.
- Experience with greenhouse gas emissions accounting.
- Strong organizational, program management and interpersonal skills.
- Candidates should be comfortable with quantitative analysis, public speaking, advocacy group engagement and environmental issues.

To Apply

Submit a brief cover letter and resume to: planycjobs@cityhall.nyc.gov with the subject “Renewable Energy Policy Advisor.”

Work Location

253 Broadway New York NY, 10007

Residency Requirement

New York City residency is generally required within 90 days of appointment. However, City Employees in certain titles who have worked for the City for 2 continuous years may also be eligible to reside in Nassau, Suffolk, Putnam, Westchester, Rockland, or Orange County. To determine if the residency requirement applies to you, please discuss with the agency representative at the time of interview
