Bergen Basin Sewer Reconstruction
(North Conduit Avenue, South Conduit Avenue between 124th and 126th Streets)

Project # CS-JA-BBS

PROJECT OVERVIEW
The New York City Department of Environmental Protection (NYCDEP) is installing a new sewer overflow conveyance pipe under the belt parkway. This project will contribute to an ongoing NYCDEP program to improve the quality of NYCs water bodies and reduce Combined Sewer Overflow (CSO) discharges. This will improve the water quality of Bergen and Thurston Basins.

PROPOSED WORK SCHEDULE
September 2014 to February 2017

150th Avenue and 126th Street, Pre-Construction Work

PROJECT SCOPE
Work on this project will include, but is not limited to:
- Installation of new overflow sewer line by microtunneling methods
- Shaft construction
- Manhole access construction
- Utility bypassing
- Curb cutting and traffic redirection
- Tree removal/planting
- Site Restoration

WORK HOURS
- 7:00 AM – 3:30PM, Monday to Friday
- 10:00AM – 3:00PM, Saturday and Sunday (as necessary)
- Nighttime work in Belt Parkway (as necessary)

COMMUNITY IMPACTS
During construction hours, you can expect the following:
- Increased levels of dust, noise and heavy equipment
- Vehicular travel lane closures will be required, as well as detours (Warning signs will be posted in advance).
- Nighttime work will involve use of high powered construction lighting.
- Parking and driveway restrictions, signs will be posted within the affected areas
- Pedestrian access to buildings will be maintained at all time.
