

Important Notice Ed Koch Queensboro Bridge

Manhattan/Queens Community Boards No. 8M, No. 1Q and No. 2Q November 2015

The NYC Department of Transportation Division of Bridges is continuing preventive maintenance on the Queensboro Bridge. On Monday and Tuesday, December 7 and 8, the pedestrian and bicycle path will be partially obstructed from 8:00 a.m. until 3:00 p.m. Flaggers will ensure continuous through-traffic, but cyclists may have to dismount briefly to pass the work area. On Tuesday and Thursday, December 8 and 10, one vehicular lane at a time will be closed on the upper or lower roadway in either direction from 10:00 p.m. until 5:00 a.m. the next morning. All other lanes will remain open.
