February 11, 2016

Dear Sunnyside Resident:

Every effort is made to schedule work for the East Side Access project during the daytime, however due to track outage limitations it is sometimes necessary to perform work during overnight hours.

Please be advised of the following East Side Access work:

February 12th to February 13th

There will be work for the East Side Access project along the north side of the right of way between 43rd and 48th Streets beginning at approximately 7:00 p.m. on Friday, February 12th and continuing until 10:00 p.m. on Saturday, February 13th.

The contractor will be utilizing a large crane to remove a signal bridge along the tracks. This activity will also require a street and sidewalk closure along 37th Avenue between 43rd and 48th Streets during the hours listed above.

Residents in proximity to this location may see lights in use and hear some noise from the equipment. The contractor has been directed to aim the lights away from residential areas as long as it does not impact the safe execution of this work or the trains as they travel past.

ESA Community Outreach aims to provide the most up to date information on work activities; **however the schedule of work is subject to change.**

We apologize in advance for the potential disruptions you may experience *from* the ongoing work. For questions or concerns about the work, please contact the East Side Access Community Outreach team:
